## Management's Responsibility

---

To the Members of Kasabonika Lake First Nation:

The accompanying consolidated financial statements of Kasabonika Lake First Nation (the "First Nation") are the responsibility of management and have been approved by the Chief and Council.

Management is responsible for the preparation and fair presentation of the accompanying consolidated financial statements, including responsibility for significant accounting judgments and estimates in accordance with Canadian public sector accounting standards. This responsibility includes selecting appropriate accounting policies and methods, and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the consolidated financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and financial records are properly maintained to provide reliable information for the preparation of consolidated financial statements.

Kasabonika Lake First Nation Chief and Council is responsible for overseeing management in the performance of its financial reporting responsibilities, and for approving the consolidated financial statements. The Chief and Council fulfills these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with management and external auditors. The Chief and Council is also responsible for recommending the appointment of the First Nation's external auditors.

MNP LLP, an independent firm of Chartered Professional Accountants, is appointed by the Chief and Council, on behalf of the Members, to audit the consolidated financial statements and report directly to them; their report follows. The external auditors have full and free access to, and meet periodically and separately with, both the Chief and Council and management to discuss their audit findings.

1.877.500.0795 T: 204.775.4531 F: 204.783.8329

To the Members of Kasabonika Lake First Nation:

We have audited the consolidated financial statements of Kasabonika Lake First Nation (the "First Nation"), which comprise the consolidated statement of financial position as at March 31, 2023, and the consolidated statements of operations and accumulated surplus, remeasurement gains, change in net debt and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

### **Qualified Opinion**

In our opinion, except for the effects of the matters described in the *Basis for Qualified Opinion* section of our report, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the First Nation as at March 31, 2023, and the results of its operations, remeasurement gains, change in net debt and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

### **Basis for Qualified Opinion**

The First Nation's consolidated statement of operations and accumulated surplus and consolidated statement of change in net debt do not present a comparison of the results for the accounting period with those originally planned which constitutes a departure from Canadian public sector accounting standards.

Section PS 3280 *Asset Retirement Obligations* of the Canadian Public Sector Accounting Standards ("PSAS") was adopted by the First Nation on April 1, 2022 with prospective application. This standard requires the recognition of an asset retirement obligation ("ARO") liability when there is a legal obligation that establishes a clear responsibility to incur retirement costs in relation to a tangible capital asset. The First Nation has not identified any ARO liabilities as at March 31, 2023 and we were unable to satisfy ourselves concerning the completeness of those liabilities by alternative means. Consequently, we were not able to determine whether any adjustments would be necessary to total liabilities, net debt, tangible capital assets, accumulated surplus, expenses, operating surplus (deficit), or change in net debt as at and for the year-ended March 31, 2023.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the First Nation in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

### **Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the First Nation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the First Nation or to cease operations, or has no realistic alternative but to do so.

**MNP LLP** Those charged with governance are responsible for overseeing the First Nation's financial reporting process.  
True North Square

242 Hargrave Street, Suite 1200, Winnipeg MB, R3C 0T8

## Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the First Nation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the First Nation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the First Nation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated consolidated financial statements, including the disclosures, and whether the consolidated consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the First Nation to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Kasabonika Lake First Nation**  
**Notes to the Consolidated Financial Statements**  
*For the year ended March 31, 2023*

---

**1. Operations**

Kasabonika Lake First Nation (the "First Nation") is located in the Province of Ontario, and provides various services to its Members. Kasabonika Lake First Nation includes the First Nation government and all related entities that are accountable to the First Nation and are either owned or controlled by the First Nation.

**2. Change in accounting policy**

Effective April 1, 2022, the First Nation adopted the following public sector accounting standards on a prospective basis, in conjunction with the adoption of *PS 3450 Financial Instruments*, described below.

- 1) *PS 3280 Asset Retirement Obligations*
- 2) *PS 3041 Portfolio Investments*
- 3) *PS 1201 Financial Statement Presentation*

More information on the related significant accounting policies of the First Nation is provided in Note 3.

***Financial instruments***

Effective April 1, 2022, the First Nation adopted the Public Sector Accounting Board's (PSAB) new recommendations for the recognition, measurement, presentation and disclosure of financial assets, financial liabilities and derivatives under Section *PS 3450 Financial Instruments*. The new Section is applied prospectively, and prior periods have not been restated. The adoption of this accounting standard has resulted in the First Nation's tracking of its consolidated remeasurement gains separately from operations,

**3. Significant accounting policies**

These consolidated financial statements are the representations of management, prepared in accordance with Canadian public sector accounting standards and including the following significant accounting policies:

***Reporting entity***

The Kasabonika Lake First Nation reporting entity includes the First Nation government and all related enterprises that are accountable to the First Nation and are either owned or controlled by the First Nation. These consolidated financial statements consolidate the financial activities of all entities and departments comprising the First Nation reporting entity.

The First Nation has consolidated the assets, liabilities, revenue and expenses of the following controlled organizations:

- Petrokas Ltd.
- Kasabonika Community Development Corporation
- Wechimachida Construction Services (GP) Corporation
- Wechimachida Construction Limited Partnership

All inter-entity balances have been eliminated on consolidation.

***Government Business Enterprises***

Kasabonika Lake First Nation has consolidated its wholly owned subsidiaries known as Kasabonika SGR GP Inc. and Kasabonika SGR Limited Partnership according to the modified equity method. Under the modified equity method, the equity method of accounting is modified only to the extent that the business entity accounting policies are not adjusted to conform to those of the First Nation. Thus, the First Nation's investment in these entities is recorded at acquisition cost plus any additional investments and is increased for post acquisition earnings and decreased by post acquisition losses and distributions received.

**Kasabonika Lake First Nation**  
**Notes to the Consolidated Financial Statements**  
*For the year ended March 31, 2023*

---

**3. Significant accounting policies** *(Continued from previous page)*

***Basis of presentation***

Sources of revenue and expenses are recorded on the accrual basis of accounting. The accrual basis of accounting recognizes revenue as it becomes available and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay.

***Cash***

Cash include balances with banks and short-term investments with maturities of three months or less. Cash subject to restrictions that prevent its use for current purposes is included in restricted cash.

***Funds held in Trust***

Funds held in trust on behalf of First Nation Members by the Government of Canada in the Ottawa Trust Fund are reported on the consolidated statement of financial position with an offsetting amount in accumulated surplus. Trust moneys consist of:

- Capital trust moneys derived from non-renewable resource transactions on the sale of land or other First Nation tangible capital assets; and
- Revenue trust moneys generated primarily through land leasing transactions or interest earned on deposits held in trust.

***Portfolio investments***

Long-term investments in entities that are not owned, controlled or influenced by the First Nation reporting entity recorded as portfolio investments and are accounted for in accordance with the First Nation's financial instruments accounting policy.

***Capital lease***

A lease that transfers substantially all of the benefits and risks of ownership is classified as a capital lease. At the inception of a capital lease, an asset and a payment obligation is recorded at the present value of the minimum lease payments. Assets under capital leases are amortized over their estimated useful lives. All other leases are accounted for as operating leases and rental payments are expensed as incurred.

***Net debt***

The First Nation's consolidated financial statements are presented so as to highlight net debt as the measurement of financial position. The net debt of the First Nation is determined by its financial assets less its liabilities. Net debt is comprised of two components, non-financial assets and accumulated surplus.

***Asset classification***

Assets are classified as either financial or non-financial. Financial assets are assets that could be used to discharge existing liabilities or finance future operations. Non-financial assets are acquired, constructed or developed assets that do not normally provide resources to discharge existing liabilities but are employed to deliver government services, may be consumed in normal operations and are not for resale in the normal course of operations. Non-financial assets include tangible capital assets, inventory held for use and prepaid expenses.

**Kasabonika Lake First Nation**  
**Notes to the Consolidated Financial Statements**  
*For the year ended March 31, 2023*

---

**3. Significant accounting policies** *(Continued from previous page)*

***Inventory held for use***

Inventory is valued at the lower of cost and net realizable value. Cost is determined by the weighted average method. Inventories are written down to net realizable value when the cost is not estimated to be recoverable. When circumstances that previously caused inventories to be written down below cost no longer exist or when there is clear evidence of an increase in retail selling price, the amount of the write-down previously recorded is reversed.

***Tangible capital assets***

Tangible capital assets are initially recorded at cost based on historical cost accounting records.

***Amortization***

Tangible capital assets are amortized annually using the methods at the following rates which are intended to amortize the cost of the assets over their estimated useful lives. Assets under construction are not amortized until the assets are put into use. One-half of the annual amortization is charged in the year of acquisition and in the year of disposal.

	<b>Method</b>	<b>Rate</b>
Buildings - class A	straight-line	6.67%
Buildings - class B	declining balance	5% - 10%
CMHC Housing	straight-line	6.67%
Computers	straight-line	33.33%
Equipment - class A	straight-line	20%
Equipment - class B	declining balance	20%
Infrastructure	straight-line	6.67%
Store tanks	declining balance	3%
Vehicles - class A	straight-line	33.33%
Vehicles - class B	declining balance	20% - 30%
Vehicles and equipment under capital lease	straight-line	33.33%

***Asset under construction***

Asset under construction represents the total cost of assets being constructed that are not available for use. When the construction phase has been completed and the assets are available for use they are amortized according to the rates indicated above.

***Long-lived assets***

Long-lived assets consist of tangible capital assets. Long-lived assets held for use are measured and amortized as described in the applicable accounting policies.

The First Nation performs impairment testing on long-lived assets held for use whenever events or changes in circumstances indicate that the carrying value of an asset, or group of assets, exceeds the value of future economic benefits associated with the asset. Impairment is measured as the amount by which the assets' carrying value exceeds the residual value of the assets' service potential to the First Nation. Any impairment is included in operations for the year.

**Kasabonika Lake First Nation**  
**Notes to the Consolidated Financial Statements**  
*For the year ended March 31, 2023*

---

**3. Significant accounting policies** *(Continued from previous page)*

***Revenue recognition***

***Government transfers***

Government transfer revenue, including, but not limited to, Indigenous Services Canada and Canada Mortgage and Housing Corporation funding, is recognized as the funding becomes receivable under the terms of applicable funding agreements. Funding received under the funding arrangements that relate to a subsequent fiscal period is reflected as deferred revenue on the consolidated statement of financial position in the year of receipt, and is matched with related department expenses in the year of their occurrence. Funding that is restricted for particular purposes is deferred and recognized when the eligible expenses have been incurred.

***Ontario First Nations Limited Partnership***

Revenue from Ontario First Nations Limited Partnership is recognized in the period in which the revenue was earned.

***Other revenue***

Rent and resident fees are recorded in the year it is earned.

Investment and interest revenue is recognized on an accrual basis in the year that it is earned.

All other types of revenue are recognized by the First Nation when the services are provided or the goods are shipped and collectability is reasonably assured.

***Employee future benefits***

The First Nation's employee future benefit programs consist of defined contribution pension plans. The First Nation's contributions to the defined contribution plans are expensed as incurred.

***Measurement uncertainty***

The preparation of consolidated financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period.

Accounts receivable and due from Government Business Enterprises are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary. Amortization is based on the estimated useful lives of tangible capital assets. Provisions are made for slow moving and obsolete inventory. Deferred revenue is recorded based on management's analysis of the extent to which eligibility requirements have been met on government transfer revenue.

These estimates are reviewed periodically, and, as adjustments become necessary, they are reported in the consolidated statement of operations in the year in which they become known.

**Kasabonika Lake First Nation**  
**Notes to the Consolidated Financial Statements**  
*For the year ended March 31, 2023*

---

**3. Significant accounting policies** *(Continued from previous page)*

***Asset retirement obligation***

A liability for an asset retirement obligation is recognized at the best estimate of the amount required to retire a tangible capital asset (or a component thereof) at the financial statement date when there is a legal obligation for the First Nation to incur retirement costs in relation to a tangible capital asset (or component thereof), the past transaction or event giving rise to the liability has occurred, it is expected that future economic benefits will be given up, and a reasonable estimate of the amount can be made. The best estimate of the liability includes all costs directly attributable to asset retirement activities, based on information available at March 31, 2023. The best estimate of an asset retirement obligation incorporates a present value technique, when the cash flows required to settle or otherwise extinguish an asset retirement obligation are expected to occur over extended future periods.

When a liability for an asset retirement obligation is initially recognized, a corresponding asset retirement cost is capitalized to the carrying amount of the related tangible capital asset (or component thereof). The asset retirement cost is amortized over the useful life of the related asset.

At each financial reporting date, the First Nation reviews the carrying amount of the liability. The First Nation recognizes period-to-period changes to the liability due to the passage of time as accretion expense. Changes to the liability arising from revisions to either the timing, the amount of the original estimate of undiscounted cash flows or the discount rate are recognized as an increase or decrease to the carrying amount of the related tangible capital asset.

The First Nation continues to recognize the liability until it is settled or otherwise extinguished. Disbursements made to settle the liability are deducted from the reported liability when they are made.

***Liability for contaminated sites***

A liability for remediation of contaminated sites is recognized at the best estimate of the amount required to remediate the contaminated sites when contamination exceeding an environmental standard exists, the First Nation is either directly responsible or accepts responsibility, it is expected that future economic benefits will be given up, and a reasonable estimate of the amount is determinable. The best estimate of the liability includes all costs directly attributable to remediation activities and is reduced by expected net recoveries based on information available at March 31, 2023.

At each financial reporting date, the First Nation reviews the carrying amount of the liability. Any revisions required to the amount previously recognized is accounted for in the period revisions are made. The First Nation continues to recognize the liability until it is settled or otherwise extinguished. Disbursements made to settle the liability are deducted from the reported liability when they are made.

**Segments**

The First Nation conducts its business through nine reportable segments as identified below. These operating segments are established by senior management to facilitate the achievement of the First Nation's long-term objectives to aid in resource allocation decisions and to assess operational performance. For each reported segment, revenue and expenses represent amounts that are directly attributable to the segment. These segments are differentiated by the major activities or services they provide. The First Nation's segments are as follows:

*Business Enterprises* - reports on the activities of the businesses that operate both within and outside of the community.

*Economic Development* - includes the activities of the First Nation's economic development initiatives.

*Governance* - activities include the governance function relating to decisions that define expectations, grant power or verify performance consisting of decision-making and leadership processes.

*Health Services* - activities include delivering health services to the First Nation.

*Capital Projects* - activities include the development and maintenance of the community's infrastructure, buildings, roads, bridges and related equipment and the provision of other more specialized community services.

*Other* - activities include community initiatives such as general repairs and maintenance, employment & training, research & development, justice services and cultural programs.

*Sineonokway Education Authority* - activities include overseeing many aspects of educational opportunities for its Members at all levels of learning both within the community and externally.

*Social Services* - activities include satisfying the economic, social or health related needs of Members of the community who require assistance.

*Subsidized Housing* - activities include the management and administration of houses that are subsidized by CMHC.

The accounting policies used in these segments are consistent with those followed in the preparation of the consolidated financial statements as disclosed in Note 3 (*Significant accounting policies*).

---

**3. Significant accounting policies** *(Continued from previous page)*

***Financial instruments***

The First Nation recognizes its financial instruments when the First Nation becomes party to the contractual provisions of the financial instrument.

***Fair value designation***

All financial instruments are initially recorded at their fair value. At initial recognition, the First Nation may irrevocably elect to subsequently measure any financial instrument at fair value. The First Nation has not made such an election during the year.

***Transaction costs***

Transaction costs directly attributable to the origination, acquisition, issuance or assumption of financial instruments subsequently measured at fair value are immediately recognized in operating surplus. Conversely, transaction costs are added to the carrying amount for those financial instruments subsequently measured at cost or amortized cost.

***Amortized cost classification***

The First Nation has classified the following financial assets in the amortized cost category: cash, accounts receivable, due from government business enterprises, guaranteed investment certificate, portfolio investments and restricted cash. These assets are initially recognized at their fair value. Fair value is approximated by the instrument's initial cost in a transaction between unrelated parties. Transactions to purchase or sell these items are recorded on the trade date.

Cash, accounts receivable, due from government business enterprises, guaranteed investment certificate, portfolio investments and restricted cash are subsequently measured at their amortized cost, using the effective interest rate method. Under this method, estimated future cash receipts are exactly discounted over the asset's expected life, or other appropriate period, to its net carrying value. Amortized cost is the amount at which the financial asset is measured at initial recognition less principal payments, plus or minus the cumulative amortization using the effective interest rate method of any difference between that initial amount and the maturity amount, and less any reduction for impairment or uncollectability.

The First Nation has classified the following liabilities in the amortized cost category: accounts payable and accruals and long-term debt. These liabilities are initially recognized at their fair value. Fair value is approximated by the instrument's initial cost in a transaction between unrelated parties. Transactions to purchase or sell these items are recorded on the trade date.

Accounts payable and accruals and long-term debt are subsequently measured at amortized cost using the effective interest rate method. Under this method, estimated future cash payments are exactly discounted over the liability's expected life, or other appropriate period, to their net carrying value. Amortized cost is the amount at which the financial liability is measured at initial recognition less principal repayments, plus or minus the cumulative amortization using the effective interest rate method of any difference between that initial amount and the maturity amount.

All financial assets except derivatives are tested annually for impairment. Any impairment, which is not considered temporary, is recorded in the statement of operations. Write-downs of financial assets measured at cost and/or amortized cost to reflect losses in value are not reversed for subsequent increases in value. Reversals of any net remeasurements of financial assets measured at fair value are reported in the statement of remeasurement gains and losses.

	<b>2023</b>	2022
CMHC replacement reserve	736,295	416,299
Ottawa Trust Funds	15,979	15,744
CMHC operating reserve	895	921
Deposit with legal counsel - held for future investment opportunities	300,000	-
	<b>1,053,169</b>	432,964

*CMHC replacement reserve*

As required as part of the First Nation's Canada Mortgage and Housing Corporation ("CMHC") housing program, a separate bank account has been established for replacement of qualifying items. Under the terms of the agreements with CMHC, the replacement reserve must either be held in a separate bank account or invested in accounts or instruments secured by the Canada Deposit Insurance Corporation or as may otherwise be approved by CMHC from time to time. At March 31, 2023, the replacement reserve bank account was overfunded by \$409,753 (2022 - overfunded by \$148,037).

*Ottawa Trust Fund*

The Ottawa Trust Fund arises from monies derived from capital or revenue sources as outlined in Section 62 of the Indian Act. These funds are held in trust in the Consolidated Revenue Fund of the Government of Canada and are subject to audit by the Office of the Auditor General of Canada. The management of these funds is similarly governed by Sections 63 to 69 of the Indian Act. Revenue from the Ottawa Trust Fund is recognized in the year in which it is earned, when it is measurable and when collection is reasonably assured. Capital and Revenue trust monies are transferred to the First Nation on the authorization of the Minister of Indigenous Services Canada, with consent of the First Nation's Chief and Council.

Capital trust	\$828 (2022 - \$828); interest revenue \$nil (2022 - \$nil)
Revenue trust	\$15,151 (2022 - \$14,916); interest revenue \$235 (2022 - \$297)

*CMHC operating surplus reserve*

When applicable, CMHC requires that a separate bank account be set up for the purposes of saving funds obtained through operating surpluses. The required balance as at March 31, 2023 was \$0 (March 31, 2022 - \$0).

**Kasabonika Lake First Nation**  
**Notes to the Consolidated Financial Statements**  
*For the year ended March 31, 2023*

---

**10. Bank indebtedness**

The First Nation has three lines of credit available for use:

- The first facility is \$500,000 at a rate of prime plus 1.5% per annum to be used to finance general operating requirements. As at March 31, 2023 the line of credit balance was \$nil (2022 - \$nil).
- The second facility is \$125,000 at a rate of prime plus 1.5% per annum to be used on general operating requirements for payroll. As at March 31, 2023 the line of credit balance was \$nil (2022 - \$nil).
- The third facility is \$70,000 at a rate of prime plus 1.5% per annum to be used on the operating requirements for social services. As at March 31, 2023 the line of credit balance was \$nil (2022 - \$nil).

Prime rate as at March 31, 2023 was 6.7% (2022 - 6.7%).

**13. Long-term debt** *(Continued from previous page)*

Principal repayments on long-term debt in each of the next five years, assuming long-term debt subject to refinancing is renewed, are estimated as follows:

2024	945,195
2025	894,726
2026	925,451
2027	957,526
2028	991,015

Prime rate as at March 31, 2023 was 6.7% (2022 - 6.7%).

(\*) Long-term debt is subject to certain covenants with respect to timely submission of the annual audited consolidated financial statements and financial statements with a Compiled Financial Information Report for Petrokas Ltd. and Kasabonika Lake Community Development Corporation to their lender. As at March 31, 2023, the First Nation was not in compliance with this covenant.

**14. Capital lease obligations**

	2023	2022
Obligation under capital lease payable in equal monthly installments of \$5,248 including interest at 2.19% per annum, maturity date February 2024. Secured by a vehicle with net book value of \$17,473 (2022 - \$38,202).	<b>52,482</b>	115,460

Minimum lease payments related to the obligations under capital lease are as follows:

2024	56,648
Less: imputed interest	4,166
<hr/>	
	52,482

**15. Contingencies**

*Funding recoveries*

The First Nation is subject to funding recoveries according to their agreements with federal government agencies. At year end it was not yet determined to what extent any funding amounts relating to the year ending March 31, 2023 might be recovered.

**Kasabonika Lake First Nation**

**18. Reconciliation of funding from Indigenous Services Canada**

The Indigenous Services Canada ("ISC") revenue of \$71,965,852 (2022 – \$41,628,319) on the consolidated statement of operations and accumulated surplus agrees to the ISC confirmation.

**19. Other revenue**

	2023	2022
Sales	4,937,846	4,232,249
Other	<u>8,601,917</u>	9,278,244
	<b>13,539,763</b>	13,510,493

**20. Ontario First Nations Limited Partnership**

Based on the agreement between the Province of Ontario and Ontario First Nations Limited Partnership ("OFNLP"), the Province of Ontario shall pay to OFNLP twelve monthly payments equal to one-twelfth of 1.7% of the aggregate provincial gross gaming revenue. The use of these funds, according to agreements, is restricted to community development, health, education, cultural development and economic development.

**21. Economic dependence**

Kasabonika Lake First Nation receives a significant portion of its revenue from Indigenous Services Canada ("ISC") as a result of Treaties entered into with the Government of Canada. These Treaties are administered by ISC under the terms and conditions of the Indian Act. The ability of the First Nation to continue operations is dependent upon the Government of Canada's continued financial commitments as guaranteed by these Treaties.

**Kasabonika Lake First Nation**  
**Notes to the Consolidated Financial Statements**  
*For the year ended March 31, 2023*

---

**22. Compliance with laws and regulations**

*First Nations Financial Transparency Act*

The First Nation was required to post its consolidated financial statements on a website and submit the consolidated financial statements to ISC by July 29, 2023. Since the audit report date is dated after this date, the First Nation has not complied with this requirement. The possible effect of this non-compliance has not yet been determined. The First Nation intends to post its consolidated financial statements on a website upon release of these consolidated financial statements.

**23. Fair value of financial instruments**

Fair value hierarchy:

Assets and liabilities recorded at fair value on the statement of financial position are measured and classified in the hierarchy consisting of three levels for disclosure purposes. The three levels are based on the priority of the inputs to the respective valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation. The input levels are defined as follows:

- Level 1: Unadjusted quoted prices in an active market for identical assets and liabilities.

Level 1 inputs include unadjusted quoted prices for assets in market that are considered active. There are no assets of the First Nation measured at fair value classified as Level 1.

- Level 2: Quoted prices in markets that are not active or inputs that are observable either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 2 inputs include quoted prices for assets in markets that are considered less active. There are no assets of the First Nation measured at fair value classified as Level 2.

- Level 3: Unobservable inputs that are supported by little or no market activity and are significant to the estimated fair value of the assets or liabilities.

Level 3 assets and liabilities would include financial instruments whose values are determined using pricing models, discounted methodologies, or similar techniques, as well as instruments for which the determination of estimated fair value requires significant management judgment or estimation. There are no assets of the First Nation measured at fair value classified as Level 3.

**24. Comparative figures**

Certain comparative figures have been reclassified to conform with current year's presentation.
