NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying consolidated financial statements of Bloodvein First Nation are the responsibility of management and have been approved by Chief and Council.

The consolidated financial statements have been prepared by management in accordance with Canadian public sector accounting standards prescribed for governments as recommended by the Public Sector Accounting Board of the Chartered Professional Accountants of Canada and as such include amounts that are the best estimates and judgments of management.

Management is responsible for the integrity and objectivity of these statements and for implementing and maintaining a system of internal controls to provide reasonable assurance that reliable financial information is produced.

Chief and Council is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control and is ultimately responsible for reviewing and approving the consolidated financial statements.

Chief and Council meets periodically with management, as well as the external auditors, to discuss internal controls over the financial reporting process, auditing matters and financial reporting issues, to satisfy themselves that each party is properly discharging their responsibilities, and to review the consolidated financial statements and the external auditor's report.

The external auditors, Baker Tilly HMA LLP, conduct an independent examination, in accordance with Canadian generally accepted auditing standards, and express their opinion on the consolidated financial statements. The external auditors have full and free access to the financial management of Bloodvein First Nation and meet when required.

## INDEPENDENT AUDITOR'S REPORT

To the Chief, Council and Membership  
Bloodvein First Nation

### Opinion

We have audited the consolidated financial statements of Bloodvein First Nation, which comprise the consolidated statement of financial position as at March 31, 2024, and the consolidated statements of operations and accumulated surplus, changes in net debt and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of Bloodvein First Nation as at March 31, 2024, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Canadian public sector accounting standards.

### Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of Bloodvein First Nation in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing Bloodvein First Nation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate Bloodvein First Nation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing Bloodvein First Nation's financial reporting process.

*(continued.....)*

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Bloodvein First Nation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on Bloodvein First Nation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause Bloodvein First Nation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# BLOODVEIN FIRST NATION

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

**MARCH 31, 2024**

---

### 1. NATURE OF OPERATIONS

The Bloodvein First Nation ("the First Nation") is located in the province of Manitoba and provides various services to its members.

The Bloodvein First Nation reporting entity includes all related entities which are accountable to the First Nation and are either owned or controlled by the First Nation.

### 2. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### *BASIS OF PRESENTATION*

The Bloodvein First Nation ("the First Nation") is located in the province of Manitoba and provides various services to its members.

The Bloodvein First Nation reporting entity includes all related entities which are accountable to the First Nation and are either owned or controlled by the First Nation.

#### *REPORTING ENTITY*

The consolidated financial statements report the financial activities of all entities and departments comprising the reporting entity of the First Nation.

#### *PRINCIPLES OF CONSOLIDATION*

All entities controlled by the First Nation are fully consolidated on a line-by-line basis except for the commercial enterprises that meet the definition of a government business enterprise, which are included in the consolidated financial statements using the modified equity method of accounting.

These consolidated financial statements combine the assets, liabilities, revenue and expenditures of the following entities and departments:

- Bloodvein First Nation
- Bloodvein First Nation Health Authority
- Bloodvein First Nation Housing Authority

All inter-entity balances have been eliminated on consolidation.

However, transactions between departments have not been eliminated in order to present the results of operations for each specific department.

Incorporated and unincorporated business entities which are owned and controlled by the First Nation but which are not dependent on the First Nation for their continuing operations are included in the consolidated financial statements using the modified equity method of accounting whereby only the First Nation's investment in the government business enterprise and the business enterprise's net income and other changes in equity are recorded.

The enterprise's accounting principles are not adjusted to conform to those of the First Nation.

Entities accounted for by the modified equity method include:

- South Beach Casino Limited Partnership (which includes South Beach Capital Partners Limited Partnership and South Beach Management Services Ltd.)

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****MARCH 31, 2024****2. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)******ASSET CLASSIFICATION***

Assets are classified as either financial or non-financial.

Financial assets are assets that could be used to discharge existing liabilities or finance future operations.

Non-financial assets are acquired, constructed or developed assets that do not provide resources to discharge existing liabilities but are employed to deliver government services, may be consumed in normal operations and are not for resale.

Non-financial assets include tangible capital assets, construction in progress and prepaid expenses.

***CASH - UNRESTRICTED***

Cash - unrestricted includes cash on hand, balances with banks net of bank overdrafts and short-term investments having a maturity of three months or less at acquisition which are held for the purpose of meeting short term cash commitments.

***RESTRICTED CASH***

Cash subject to restrictions that prevent its use for current purposes is included in restricted cash.

***NET DEBT***

The First Nation's consolidated financial statements are presented so as to highlight net debt as the measurement of financial position.

The net debt of the First Nation is determined by its liabilities less its financial assets.

Net debt is comprised of two components, non-financial assets and accumulated surplus.

***NON-FINANCIAL ASSETS***

The First Nation's tangible capital assets and other non-financial assets are accounted for as assets because they can be used to provide government services in future periods.

These assets do not normally provide resources to discharge the liabilities of the First Nation unless they are sold.

***LONG-LIVED ASSETS***

Long-lived assets consist of tangible capital assets.

Long-lived assets held for use are measured and amortized as described in the applicable accounting policies.

The First Nation performs impairment testing on long-lived assets held for use whenever events or changes in circumstances indicate that the carrying amount of an asset, or group of assets, may not be recoverable.

Impairment losses are recognized when undiscounted future cash flows from its use and disposal are less than the asset's carrying amount.

Impairment is measured as the amount by which the asset's carrying amount exceeds its fair value.

Any impairment is included in the statement of operations and accumulated surplus for the year in which the asset becomes impaired.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****MARCH 31, 2024****2. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)******TANGIBLE CAPITAL ASSETS***

Tangible capital assets include acquired, built, developed and improved tangible capital assets, whose useful life extends beyond one year and which are intended to be used on an ongoing basis for producing goods or delivering services.

Tangible capital assets acquired are reported at net book value.

Residential buildings acquired under Canada Mortgage and Housing Corporation ("CMHC") sponsored programs are amortized at a rate equivalent to the annual principal reduction in the related long term debt.

Assets under construction are not amortized until the asset is available to be put into service.

Contributions received to assist in the acquisition of tangible capital assets are reported as deferred revenue and amortized at the same rate as the related asset.

Amortization of tangible capital assets is provided for on the declining balance basis at the following annual rates:

Environmental infrastructure	2.50%
Equipment	10.00 - 33.33%
Facilities	2.50 - 5.00%
Transportation infrastructure	2.50%
Vehicles	20.00%

Amortization is computed at one-half of the annual rate in the year of acquisition.

***REVENUErecognition***

Revenue is recognized in the year in which the transactions or events occurred that gave rise to the revenue.

All revenue is recorded on an accrual basis, except when the accruals cannot be determined with a reasonable degree of certainty or when its estimation is impracticable.

Government transfer revenue which includes Indigenous Services Canada (ISC) and Canada Mortgage and Housing Corporation (CMHC) is recognized as revenue when the transfer is authorized and any eligibility criteria under the terms of the applicable funding agreement are met, except to the extent that transfer stipulations give rise to an obligation that meets the definition of a liability.

Transfer revenue is recognized in the statement of operations and accumulated surplus as the stipulations are settled.

Contributions from other sources are deferred when restrictions are placed on their use by the contributor, and are recognized as revenue when used for the specific purpose.

Revenue related to fees or services received in advance of the fee being earned or the service performed is deferred and recognized when the fee is earned or service performed.

All other types of revenue are recognized by the First Nation when the services are provided or the goods are shipped.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****MARCH 31, 2024****2. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)******SEGMENTS***

The First Nation conducts its business through ten reportable segments as identified in Note 22.

These operating segments are established by senior management to facilitate the achievement of the First Nation's long term objectives to aid in resource allocation decisions, and to assess operational performance.

For each segment separately reported, the segment revenue and expenditures represent both amounts that are directly attributable to the segment and amounts that are allocated on a reasonable basis.

Therefore, certain allocation methodologies are employed in the preparation of segmented financial information.

The accounting policies used in these segments are consistent with those followed in the preparation of the consolidated financial statements as disclosed in the Basis of Presentation and Summary of Significant Accounting Policies.

***ASSET RETIREMENT OBLIGATION***

Liabilities are recognized for statutory, contractual or legal obligations associated with the retirement of tangible capital assets when those obligations result from the acquisition, construction, development or normal operation of the assets. The obligations are measured initially at management's best estimate at the present fair value of the estimated future cash flows required to settle the retirement obligation. In subsequent periods, the liability is adjusted for the accretion of discount and any changes in the amount or timing of the underlying future cash flows. The capitalized asset retirement cost is amortized on the same basis as the related asset and the discount accretion is included in determining the results of operations.

***FINANCIAL INSTRUMENTS*****Measurement**

The First Nation measures all of its financial assets and financial liabilities at cost or amortized cost, except for the following, which are measured at fair value without any adjustment for transaction costs: derivatives, marketable securities in equity instruments that are quoted in an active market and marketable securities that the Nation has elected to measure at fair value. The effective interest rate method is used to determine interest revenue or expenses for financial instruments measured at amortized cost.

Financial assets measured at amortized cost include cash, accounts receivable and federal trust funds. Financial liabilities measured at amortized cost include accounts payable and accrued liabilities and long term debt.

No financial assets are measured at fair value.

**Transaction costs**

Transaction costs attributable to financial instruments measured at fair value are recognized in the Statement of Operations in the period incurred. Transaction costs for financial instruments measured at cost or amortized cost are recognized in the original cost of the instrument.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****MARCH 31, 2024****2. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*****Impairment**

At the end of each reporting period, management assesses financial assets or groups of financial assets for evidence of objective impairment. An impairment loss is recognized in the Statement of Operations when there is a loss in value that is other than temporary. Future recoveries of impaired financial assets are recognized in the Statement of Operations when received.

***USE OF ESTIMATES***

The preparation of consolidated financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of certain revenue and expenditures during the reporting year.

Accounts receivable are stated after estimates as to their collectibility and an appropriate allowance for doubtful accounts is provided where considered necessary.

Amortization of tangible capital assets is provided for on the declining balance basis.

Asset retirement obligations are estimated based on the present value of the required cost at retirement of specific assets.

Capitalization of labour costs is based on an estimate of the proportionate share of direct labour and overhead labour.

These estimates are reviewed periodically and, as adjustments become necessary, they are reported in the statement of operations and accumulated surplus in the year in which they become known.

**3. CHANGE IN ACCOUNTING POLICY**

Effective April 1, 2023, the new accounting standard PS 3400 Revenue was adopted on a prospective basis. The standard outlines how revenue should be recognized, measured and disclosed. It differentiates between transactions with performance obligations (exchange transactions) and those without (non-exchange transactions), providing guidance on when and how revenue is recognized in each case.

Revenue from transactions with performance obligations should be recognized when or as the First Nation satisfies a performance obligation by providing the promised goods or services to a payor.

Revenue from transactions with no performance obligations should be recognized when the First Nation:

- has the authority to claim or retain an inflow of economic resources; and
- identifies a past transaction or event that gives rise to an asset

The adoption of PS 3400 did not have a significant impact on the financial statements.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****MARCH 31, 2024****4. RESTRICTED CASH*****CAPITAL PROJECTS***

Capital projects funding provided by Indigenous Services Canada (ISC) whereby monies are held in a separate joint bank account with a contracted capital projects manager is restricted for project related expenditures as approved by ISC in accordance with the applicable agreement.

***CMHC REPLACEMENT RESERVE***

Under the terms of the operating agreements with Canada Mortgage and Housing Corporation (CMHC), the replacement reserve is to be credited with an annual allocation of \$77,445 (March 31, 2023 - \$76,545).

The annual replacement reserve allocation for new CMHC housing projects during the year is pro-rated consistent with the interest adjustment date established for the corresponding mortgage.

These funds, along with accumulated interest, must be held in a separate bank account and/or invested in accounts or instruments insured by the Canada Deposit Insurance Corporation or as may otherwise be approved by CMHC from time to time.

The funds in the account may only be used as approved by CMHC.

Expenditures are charged to accumulated interest first and then to principal.

As of March 31, 2024, the accumulated balance of \$1,059,110 (March 31, 2023 - \$1,050,035) in this reserve was underfunded by \$636,135 (March 31, 2023 - \$631,869) and due from operating.

***OTTAWA TRUST FUND***

The Ottawa Trust Fund arises from monies derived from capital or revenue sources as outlined in Section 62 of the Indian Act.

Capital trust monies are derived from non-renewable resource transactions on the sale of lands or other First Nation tangible capital assets.

Capital trust monies are expended on the authorization of the Minister of Indigenous Services Canada, with the consent of the First Nation's Chief and Council.

Revenue trust monies are generated primarily through land-leasing transactions or interest earned on deposits in the Consolidated Revenue Fund of the Government of Canada.

Revenue trust monies are, in most cases, managed and expended under the provisions of Sections 63 to 69 of the Indian Act.

South Beach Casino Limited Partnership	<u>§ 3,689,421</u>	<u>§ 3,399,700</u>

The First Nation's investment in South Beach Casino Limited Partnership (which includes South Beach Capital Partners Limited Partnership and South Beach Management Services Ltd.) represents a one-seventh ownership that was established for the purpose of operating a casino and hotel on the Brokenhead Ojibway Nation land at Scanterbury, Manitoba.

The investment in this partnership is accounted for in accordance with the modified equity method.

The First Nation's investment in the partnership is recorded at acquisition cost and is increased for the proportionate share of post acquisition earnings and decreased by post acquisition losses and withdrawals.

Summary information for South Beach Casino Limited Partnership has not been disclosed in the notes to these consolidated financial statements due to its sensitive nature.

**13. CONTINGENT LIABILITIES**

The First Nation receives funding from various government agencies based on specified program needs and budgets and allocates certain expenses to the various programs.

In many cases the funding agent has the right to review the accounting records to ensure compliance with the terms and conditions of their funding agreements.

At this time, it was not yet determined to what extent any funding amounts related to the fiscal year ended March 31, 2023 might be recovered.

For accounting purposes, any amounts assessed or claims paid will be accounted for in the year of determination.

**14. RECONCILIATION OF INDIGENOUS SERVICES CANADA (ISC) REVENUE**

Total ISC revenue per financial statements	<u><u>\$ 23,174,298</u></u>	<u><u>\$ 15,827,130</u></u>

**15. ECONOMIC DEPENDENCE**

Bloodvein First Nation receives a majority of its revenue from Indigenous Services Canada (ISC) pursuant to funding arrangements with the Government of Canada.

The ability of the First Nation to continue operations is dependent upon the Government of Canada's continued financial commitments as guaranteed by the funding arrangements.

**16. RELATED PARTY TRANSACTIONS**

In the normal course of operations, the First Nation enters into transactions with related parties.

Related party transactions are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

Due to the significant volume of transactions between the First Nation and its related parties, aggregate revenue and expenditures derived from related party transactions is not determinable.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 17. SEGMENTS

The First Nation has ten reportable segments.

These segments are differentiated by the major activities or services they provide.

The First Nation's segments are as follows:

**Administration** - activities include the governance function relating to decisions that define expectations, grant power or verify performance consisting of decision-making and leadership processes.

**Capital projects** - activities include the planning, managing and delivery of large scale infrastructure and capital projects to the community.

**Economic Development** - benefits include better access to more and larger businesses and business opportunities both within and beyond the community and a better economic environment.

**Education** - activities include overseeing many aspects of educational opportunities for community members at all levels of learning both within the community and externally.

**Employment and Training** - activities include the delivery of culturally sensitive employment services to assist community members in identifying and overcoming potential barriers to employment and to find and maintain meaningful employment.

**First Nation Programs** - activities include the management and expenditure of revenue generated within the community.

**Health** - activities include the delivery of programs to promote community health and to address environmental issues and non-insured health benefits.

**Housing** - activities include the provision of residential housing opportunities for community members.

**Operations and Maintenance** - activities include the development and maintenance of the community's infrastructure, buildings, roads, bridges and related equipment and the provision of other more specialized community services.

**Social Assistance** - activities include satisfying the economic, social or health related needs of community members who require assistance.

### 18. BUDGET INFORMATION

The disclosed budget information has been approved by Chief and Council of Bloodvein First Nation.

The budget figures have not been audited, reviewed or otherwise verified and consequently we do not express an opinion on those figures.

### 19. COMPARATIVE FIGURES

Certain prior year comparative figures have been reclassified where necessary to conform to the financial statement presentation adopted for the current year.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2024

---

### 20. FINANCIAL INSTRUMENTS

#### Management of risks arising from financial instruments

Bloodvein First Nation's principal financial liabilities comprise of trade and other payables, loans and borrowings. The main purpose of these financial liabilities to finance and support Bloodvein's operations. Bloodvein has trade and other receivables, cash, and restricted cash that are derived directly from its operations. It also holds deposits and investments in government business partnerships as part of its investing activities.

Bloodvein's activities expose it to a variety of financial risks: credit risk, liquidity risk, market risk (including interest risk) and fair value risk. Bloodvein's overall management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on Bloodvein's financial performance. Risk management is the responsibility of the financial management team who have the appropriate skills, experience, and supervision. The financial management team identify, evaluate, and, where appropriate, mitigate financial risks. Material risks are monitored and are discussed regularly with Chief and Council.

The risks associated with Bloodvein's financial instruments are as follows:

#### *CREDIT RISK*

Credit risk arises from the potential that a counter party will fail to perform its obligations.

Bloodvein is exposed to credit risk from the possibility that parties may default on their financial obligations, or if the government fails to meet its obligations in accordance with agreed terms. Bloodvein considers a financial asset in default when internal or external information indicates that it is unlikely to receive the outstanding contractual amounts in full. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Cash and cash equivalents, restricted cash, and portfolio investments are subject to credit risk however it is substantially reduced from these assets being held by low-risk institutions such as governments, and high-credit quality financial institutions that have been graded by third party agencies.

The credit risk associated with balances outstanding is minimized as the larger part of the balances would be from Provincial and Federal government funding, Bloodvein partners, and parties that sustain a good relationship with the organization. Security arrangements to secure funding are also arranged through multi year agreements between the government and Bloodvein. Additionally, accounts receivable is measured at amortized cost and analyzed by means of aging analysis. The maximum exposure to credit risk is represented by the carrying value of financial assets in the balance sheet.

#### *LIQUIDITY RISK*

Liquidity risk is the risk that Bloodvein will not be able to provide sufficient cash and cash equivalents to meet its financial obligations when they come due. Bloodvein meets its liquidity requirements by preparing cash flows from operations, anticipating investing and financing activities, and holding assets that can be readily converted into cash. As of year-end March 31, 2023, Bloodvein does not have sufficient assets from cash and cash equivalents and accounts receivable to cover the total outstanding accounts payable, deferred revenue, and demand loan payable, respectively. Bloodvein has investments that are not readily convertible into cash, as well as no credit facilities available to meet temporary fluctuations in cash requirements. To address the potential liquidity risk, management is actively working with evaluating new economic development initiatives.

**20. FINANCIAL INSTRUMENTS *(continued)******MARKET RISK***

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is composed of currency risk, interest rate risk, and equity price risk.

***FOREIGN CURRENCY RISK***

Foreign currency risk refers to the changes in cash flows or fair values as a result of fluctuations in the value of various foreign currencies and exposure. The functional currency of Bloodvein is the Canadian Dollar. Bloodvein First Nation does not engage in significant foreign currency transactions, nor does it hold any foreign investments; therefore, foreign currency risk is minimal and Bloodvein has not entered into any foreign exchange hedging contracts.

***INTEREST RATE RISK***

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Bloodvein's exposure to rate risk primarily stems from holdings of debt instruments with a variable rate component.

***EQUITY RISK***

Equity price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market price of equity instruments. Bloodvein has investments in government business partnerships that are accounted for using the equity method however, equity price risk is minimal as these are privately held entities.

***FAIR VALUE***

The First Nation accounts for its portfolio investments at fair value. Financial instruments reported at fair value are then categorized under a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The three levels of the fair value hierarchy are as follows:

- Level 1 - Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that management has the ability to access at the measurement date
- Level 2 - Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active.
- Level 3 - Inputs that are not observable. There is little if any market activity. Inputs into the determination of fair value require significant judgement or estimation.

All financial instruments accounted for at fair value on the statement of financial position are Level 1.

### 22. SEGMENT DISCLOSURE

Bloodvein First Nation provides a range of services to its community members. For management reporting purposes, operations and activities are reported by department. For each segment separately reported, the segment revenue and expenses represent both amounts that are directly attributable to the segment and amounts that are allocated on a reasonable basis. The presentation by segment is based on the same accounting policies as described in the Basis of Presentation and Summary of Significant Accounting Policies as described in Note 2.
