To the Members of Sweetgrass First Nation:

Opinion

We have audited the consolidated financial statements of Sweetgrass First Nation (the "First Nation"), which comprise the consolidated statement of financial position as at March 31, 2024, and the consolidated statements of operations and accumulated surplus, changes in net debt and cash flows and related schedules for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the First Nation as at March 31, 2024, and the results of its consolidated operations, its changes in consolidated net debt and its consolidated cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the First Nation in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter - Litigation financing

Without modifying our opinion, we draw attention to Note 13 to the consolidated financial statements which describes that Sweetgrass First Nation has initiated litigation for damages sustained by the First Nation. The First Nation has obtained financing to fund the costs of litigation and has taken insurance in an attempt to cover the repayment of the financing if it is in excess of settlement proceeds.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the First Nation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the First Nation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the First Nation's financial reporting process.

Independent Auditor's Report *(Continued from previous page)*

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the First Nation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the First Nation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the First Nation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the First Nation to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Sweetgrass First Nation

Notes to the Consolidated Financial Statements

For the year ended March 31, 2024

1. Operations

Sweetgrass First Nation (the "First Nation") is located in Treaty 6 Territory, Canada and provides various services to its Members. Sweetgrass First Nation includes all related entities that are accountable to the First Nation and are controlled by the First Nation.

2. Change in accounting policy

Revenue

Effective April 1, 2023, the First Nation adopted the Public Sector Accounting Board's (PSAB) new standard for the recognition, measurement and disclosure of revenue under PS 3400 *Revenue*. The new standard establishes when to recognize and how to measure revenue, and provides the related financial statement presentation and disclosure requirements. Pursuant to these recommendations, the change was applied prospectively, and prior periods have not been restated.

There was no material impact on the consolidated financial statements from the prospective application of the new accounting recommendations.

3. Significant accounting policies

These consolidated financial statements are the representations of management, prepared in accordance with Canadian public sector accounting standards and including the following significant accounting policies:

Reporting entity consolidated

The financial statements consolidate the financial activities of all entities and departments comprising the First Nation reporting entity, except for First Nation business entities which are accounted for using the modified equity method.

The First Nation has consolidated the assets, liabilities, revenues and expenses of the following entities and departments:

- Sweetgrass First Nation
- Sweetgrass First Nation C.M.H.C. Housing
- Sweetgrass Developments Limited Partnership
- Sweetgrass Investments Ltd.

All inter-entity balances have been eliminated on consolidation; however, transactions between departments have not been eliminated in order to present the results of operations for each specific department.

Sweetgrass Treaty Land Entitlement Trust and Sweetgrass Legacy Trust have not been included in these consolidated financial statements as Chief and Council do not control the Trusts.

Other economic interests

The First Nation is a member of several other entities. The First Nation does not share in the profit or loss of these entities. As a result these entities have not been included in these consolidated financial statements.

Basis of presentation

Sources of revenue and expenses are recorded on the accrual basis of accounting. The accrual basis of accounting recognizes revenue as it becomes available and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay.

Asset classification

Assets are classified as either financial or non-financial. Financial assets are assets that could be used to discharge existing liabilities or finance future operations. Non-financial assets are acquired, constructed or developed assets that do not normally provide resources to discharge existing liabilities but are employed to deliver government services, may be consumed in normal operations and are not for resale in the normal course of operations. Non-financial assets include tangible capital assets and prepaid expenses.

Sweetgrass First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2024

3. Significant accounting policies *(Continued from previous page)*

Cash and cash equivalents

Cash resources include balances with banks and short-term investments with maturities of three months or less. Cash subject to restrictions is included in restricted cash. Restricted cash consists of the TLE Revenue Operating, CMHC Replacement Reserve and capital bank accounts.

Portfolio investments

Long-term investments in entities that are not owned, controlled or influenced by the First Nation reporting entity are accounted for using the cost method. Marketable securities with prices quoted in an active market are measured at fair value while those that are not quoted in an active market are measured at cost less impairment.

Funds held in Ottawa Trust Fund

Funds held in trust on behalf of First Nation members by the Government of Canada in the Ottawa Trust Fund are reported on the consolidated statement of financial position with an offsetting amount in accumulated surplus. Trust moneys consist of:

- Capital trust moneys derived from non-renewable resource transactions on the sale of land or other First Nation tangible capital assets; and
- Revenue trust moneys generated primarily through land leasing transactions or interest earned on deposits held in trust.

Revenue recognition

Funding

Revenue is recognized as it becomes receivable under the terms of applicable funding agreements. Funding received under funding arrangements that relate to a subsequent fiscal period are reflected as deferred revenue on the consolidated statement of financial position in the year of receipt.

Government Transfers

The First Nation recognizes a government transfer as revenue when the transfer is authorized and all eligibility criteria, if any, have been met. A government transfer with stipulations giving rise to an obligation that meets the definition of a liability is recognized as a liability. In such circumstances, the First Nation recognizes revenue as the liability is settled. Transfers of non-depreciable assets are recognized in revenue when received or receivable.

Funds held in Ottawa Trust Fund

Due to measurement uncertainty, revenue related to funds held in the Ottawa Trust Fund is recognized when it is deposited in the trust account.

Other revenues

Rental and lease revenue is recognized over the rental term. Other revenue is recognized as it becomes receivable. Revenue from Sweetgrass Treaty Land Entitlement Trust is recognized as it becomes receivable under the terms of the Sweetgrass Treaty Land Entitlement Trust Agreement.

Net debt

The First Nation's consolidated financial statements are presented so as to highlight net debt as the measurement of financial position. The net debt of the First Nation is determined by its financial assets less its liabilities. Net debt combined with non-financial assets comprise a second indicator of financial position, accumulated surplus.

Sweetgrass First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2024

3. Significant accounting policies *(Continued from previous page)*

Tangible capital assets

Tangible capital assets are initially recorded at cost. Contributed tangible capital assets are recorded at their fair value at the date of contribution.

The First Nation's original reserve land is not recognized in the consolidated financial statements.

Amortization

Tangible capital assets are amortized annually using the following methods at rates intended to amortize the cost of the assets over their estimated useful lives. Land is not amortized. Projects under construction are not amortized until they are put into use.

	Method	Rate
Buildings and infrastructure	declining balance	5-10 %
Equipment	declining balance	25 %
CMHC Housing	straight-line	15-25 years

Asset retirement obligation

A liability for an asset retirement obligation is recognized at the best estimate of the amount required to retire a tangible capital asset (or a component thereof) at the financial statement date when there is a legal obligation for the First Nation to incur retirement costs in relation to a tangible capital asset (or component thereof), the past transaction or event giving rise to the liability has occurred, it is expected that future economic benefits will be given up, and a reasonable estimate of the amount can be made. The best estimate of the liability includes all costs directly attributable to asset retirement activities, based on information available at March 31, 2024. The best estimate of an asset retirement obligation incorporates a present value technique, when the cash flows required to settle or otherwise extinguish an asset retirement obligation are expected to occur over extended future periods.

When a liability for an asset retirement obligation is initially recognized, a corresponding asset retirement cost is capitalized to the carrying amount of the related tangible capital asset (or component thereof). The asset retirement cost is amortized over the useful life of the related asset.

At each financial reporting date, the First Nation reviews the carrying amount of the liability. The First Nation recognizes period-to-period changes to the liability due to the passage of time as accretion expense. Changes to the liability arising from revisions to either the timing, the amount of the original estimate of undiscounted cash flows or the discount rate are recognized as an increase or decrease to the carrying amount of the related tangible capital asset.

The First Nation continues to recognize the liability until it is settled or otherwise extinguished. Disbursements made to settle the liability are deducted from the reported liability when they are made.

Liability for contaminated site

A liability for remediation of a contaminated site is recognized at the best estimate of the amount required to remediate the contaminated site when contamination exceeding an environmental standard exists, the First Nation is either directly responsible or accepts responsibility, it is expected that future economic benefits will be given up, and a reasonable estimate of the amount is determinable. The best estimate of the liability includes all costs directly attributable to remediation activities and is reduced by expected net recoveries based on information available at March 31, 2024.

At each financial reporting date, the First Nation reviews the carrying amount of the liability. Any revisions required to the amount previously recognized is accounted for in the period revisions are made. The First Nation continues to recognize the liability until it is settled or otherwise extinguished. Disbursements made to settle the liability are deducted from the reported liability when they are made. There are no known liabilities at March 31, 2024.

Sweetgrass First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2024

3. Significant accounting policies *(Continued from previous page)*

Financial instruments

The First Nation recognizes its financial instruments when the First Nation becomes party to the contractual provisions of the financial instrument. All financial instruments are initially recorded at their fair value.

At initial recognition, the First Nation may irrevocably elect to subsequently measure at fair value financial instruments that meet certain criteria. The First Nation has not made such an election during the year.

The First Nation does not have any financial instruments required to be subsequently measured at fair value so has not presented a statement of remeasurement gains and losses as it does not have any items giving rise to remeasurement gains (losses). Interest income is recognized in the statement of operation. All financial assets and liabilities are subsequently measured at amortized cost using the effective interest rate method.

All financial assets are tested annually for impairment. Management considers recent collection experience for receivables, such as delinquency in payments, in determining whether objective evidence of impairment exists. Any impairment, which is not considered temporary, is recorded in the statement of operations. Write-downs of financial assets measured at cost and/or amortized cost to reflect losses in value are not reversed for subsequent increases in value.

Measurement uncertainty

The preparation of consolidated financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. These estimates and assumptions are reviewed periodically and, as adjustments become necessary, they are reported in the records in the periods in which they become known.

Accounts receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary. Amortization is based on the estimated useful lives of tangible capital assets. Deferred revenues are estimated based on management's understanding of the terms and conditions of government transfers and programs with restricted funding.

A liability for asset retirement obligations reflects management's best estimate of the amount required to retire the related tangible capital asset (or component thereof). The best estimate of the liability is based upon assumptions and estimates related to the amount and timing of costs for future asset retirement. Changes to the underlying assumptions and estimates or legislative changes in the near term could have a material impact on the provision recognized.

Segments

The First Nation conducts its business through 10 reportable segments (Note 18). These operating segments are established by senior management to facilitate the achievement of the First Nation's long-term objectives to aid in resource allocation decisions and to assess operational performance.

For each reported segment, revenue and expenses represent both amounts that are directly attributable to the segment and amounts that are allocated on a reasonable basis. Therefore, certain allocation methodologies are employed in the preparation of segmented financial information.

The accounting policies used in these segments are consistent with those followed in the preparation of the consolidated financial statements.

4. Restricted Cash

	2024	2023
Capital projects	24,893,748	7,338,570

Sweetgrass First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2024

7. Funds held in Ottawa Trust Fund

Capital and Revenue Trust monies are transferred to the First Nation on the authorization of Chief and Council, with the consent of the Minister of Indigenous Services Canada. There were no funds in the Capital Account at year-end, nor were there any transactions in the Capital Account during the year. Revenues generated in the trust fund have been presented as rental in the consolidated statement of operations.

Land leases	703,495	593,036
Less: Transfers to First Nation	372,021	222,137
Balance, end of year	968,367	613,071

Disbursements from the trust have been utilized as follows:

Date	Amount disbursed	Purpose of disbursement	Costs recorded
2023-04-18	348,748	Band Support	Ottawa Trust Fund - Various
2023-05-05	23,273	Traditional land holdings	Ottawa Trust Fund - Traditional land payments
	372,021		

8. Bank indebtedness

The First Nation has an approved operating line of credit of \$350,000 with interest to be charged at Royal Bank prime plus 1.5% per annum. At March 31, 2024, \$133,550 (2023 - \$118,555) has been drawn. The remaining amount of bank indebtedness consists of outstanding cheques and deposits. The operating line is secured by a general security agreement and a Band Council Resolution.

Sweetgrass First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2024

11. Asset retirement obligations

The First Nation owns buildings which contain asbestos, and is required to comply with legal requirements regarding disposal, which is estimated to be in 10 years. The First Nation recognized a liability for the asset retirement obligation and a corresponding amount has been capitalized as an asset retirement cost and added to the carrying value of housing and buildings. The asset retirement cost is amortized on a straight-line basis over the remaining years until remediation.

The First Nation estimated the amount of the liability using the discounted cash flow method. The significant assumptions used to determine the best estimate of the liability include:

- Estimate of 10 years until remediation
- Estimated inflation rate of 3% (risk free rate estimated to approximate inflation)
- Costs to remediate
- Number of houses requiring remediation. During the year, it was determined that fewer houses require complete remediation than previously estimated. This resulted in the change in estimate noted below.

	2024	2023
Balance, beginning of year	1,434,103	-
Liabilities incurred	-	1,392,333
Change in estimate	(407,209)	-
Accretion	18,224	41,770

Included in current year other adjustments is \$407,209 relating to change in estimate of asset retirement obligation.

Included in current year buildings and infrastructure additions is \$nil (2023 -\$1,392,333) for asset retirement obligation.

Included in current year buildings and infrastructure accumulated amortization is \$93,988 (2023 - \$139,233) for asset retirement obligation.

Sweetgrass First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2024

13. Contingent assets

Husky Oil Spill claim

In 2021, the First Nation filed a legal claim against Husky Oil for an oil spill on Sweetgrass land for which the First Nation is claiming damages. The First Nation has obtained a loan to finance the costs of negotiating the settlement. Insurance has been obtained to attempt to mitigate the risk that the settlement proceeds may be less than the total loan outstanding at such time the claim is resolved.

As of March 31, 2024, expenses of \$1,301,607 (2023 - \$1,072,940) have been incurred and available financing drawn (Note 10). The First Nation anticipates the loan will be paid from settlement proceeds. When the claim is finalized or if the insurance proceeds are paid the amounts will be recognized as revenue.

Government of Canada - Specific claims

In a previous year, the First Nation filed specific claims against the Government of Canada for historic breaches of legal obligations, statutory obligations, fiduciary obligations, and/or honourable obligations. The First Nation has obtained three loans to finance the costs of negotiating the settlements. Insurance has been obtained to attempt to mitigate the risk that the settlement proceeds may be less than the total loans outstanding at such time the claims are resolved.

As of March 31, 2024, expenses of \$782,844 (2023 - \$596,408), \$573,088 (2023 - \$528,582) and \$502,177 (2023 - \$452,990) have been incurred and available financing drawn (Note 10) on each of the claims. The First Nation anticipates the loans will be paid from settlement proceeds. When the claims are finalized or if the insurance proceeds are paid the amounts will be recognized as revenue.

14. Accumulated operating surplus

Accumulated operating surplus consists of the following:

	2024	2023
Operating	1,511,722	431,100
Litigation financing	(3,159,716)	(2,650,920)
Capital assets	32,624,225	22,783,169
Commercial	1,360	1,360
CMHC Operating Reserve	(6,483)	19,902
CMHC Replacement Reserve	241,616	258,236
Ottawa Trust Fund	968,367	613,071

15. Funds and reserves

The Sweetgrass First Nation maintains the following funds and reserves as part of its operations:

- Operating Fund reports on the general activities of the First Nation's administration.
- Litigation Financing reports on the activities of the First Nation's litigation for which the First Nation is seeking damages.
- Capital Assets Fund reports on the capital assets and projects of the First Nation.
- Commercial Fund reports on commercial business operations owned by the First Nation.
- CMHC Operating Reserve is required as part of the First Nation's CMHC Housing Program, which receives funds pursuant to the Post 1997 - Fixed Subsidy Program. Any surpluses are externally restricted and reserved for future operating losses that relate to the operation of houses under the Program.
- CMHC Replacement Reserve is required as part of the First Nation's CMHC Housing Program. It has been established for replacement of capital equipment and for major repairs to the houses.
- Ottawa Trust Fund reports on trust moneys owned by the First Nation and held by the Government of Canada.

16. Budget information

The disclosed budget information has been approved by Chief and Council in February 2024.

17. Scope of operations

Sweetgrass First Nation receives a significant portion of its revenue from Indigenous Services Canada as a result of Treaties entered into with the Crown in Right of Canada. These Treaties are administered by Indigenous Services Canada under the terms and conditions of the Indian Act. The ability of the First Nation to continue operations is dependent upon the Government of Canada's continued financial commitments as guaranteed by these Treaties.

18. Segments

The First Nation has 10 reportable segments. These segments are differentiated by the major activities or services they provide. The First Nation's segments are as follows:

- Band Government Support - includes administration and governance activities.
- Capital - reports on capital projects.
- Child and Family - reports on operations of Child and Family services.
- Community Development - includes operations for the maintenance of the First Nation's buildings and infrastructure.
- Education - includes the operations of education programs.
- Lands and Trusts - includes activities for the development of the First Nation's land.
- Other - reports on operations of band programs.
- Ottawa Trust Fund - reports trust funds held by the Government of Canada.
- Own Source - reports on operations related to economic development and other revenue generated by the Nation.
- Health - reports on operations of health programs.

	\$ 18,320,540

20. Contingent liabilities

Funding

These consolidated financial statements are subject to review by the First Nation's funding agencies. It is possible that adjustments could be made based on the results of their reviews. Any forfeited funding will be recorded in the year the amounts are determined.

Legal Claim

The First Nation has been named defendant in a lawsuit seeking to recover damages allegedly sustained. The lawsuit remains at an early stage, and as litigation is subject to many uncertainties, it is not possible to predict the ultimate outcome of the lawsuit or to estimate the loss, if any, which may result. The First Nation plans to defend the lawsuit.

Legal fees

The First Nation has obtained legal counsel to represent them in various claims against the Government of Canada, some of which include contingency fees. It is expected that additional fees relating to these claims will be paid from settlement proceeds if claims are successful.

21. Financial Instruments

The First Nation as part of its operations carries a number of financial instruments. It is management's opinion that the First Nation is not exposed to significant interest, currency or credit risks arising from these financial instruments except as otherwise disclosed.

Credit Risk

Credit risk is the risk of financial loss because a counter party to a financial instrument fails to discharge its contractual obligations. The carrying amount of accounts receivable represents the maximum exposure to credit risk.

Accounts receivable from two entities represents 82% of total receivables at March 31, 2024 (2023 - two entities for 97%). As at March 31, 2024, \$2,437,366 (2023 - \$4,814,359) of accounts receivable was aged less than 30 days, \$nil (2023 - \$12,925) 30 to 90 days, and \$50,950 (2023 - \$108,648) over 90 days.

Risk management

The First Nation manages its credit risk by performing regular assessments and providing allowances for potentially uncollectible accounts, which was \$221,321 (2023 - \$231,106). The First Nation believes there is limited credit risk as the majority of accounts receivable is due from the Government of Canada and Sweetgrass Treaty Land Entitlement Trust.

Liquidity Risk

Liquidity risk is the risk that the First Nation will encounter difficulty in meeting obligations associated with financial liabilities that are settled in cash. The First Nation enters into transactions to purchase goods and services for which repayment is required at various dates.

The First Nation manages the liquidity risk resulting from accounts payable and accruals and deferred revenue by collecting accounts receivable, maintaining liquid assets, and through an authorized operating line of credit of up to \$350,000.

Sweetgrass First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2024

21. Financial Instruments *(Continued from previous page)*

Interest rate risk

Interest rate risk is the risk that the value of a financial instrument might be adversely affected by a change in the interest rates. Changes in market interest rates may have an effect on the cash flows associated with some financial assets and liabilities, known as cash flow risk, and on the fair value of other financial assets or liabilities, known as price risk. The First Nation is exposed to interest rate risk primarily through its long-term debt and marketable securities. In seeking to minimize the risks from interest rate fluctuations, the First Nation manages exposure through obtaining debt with a combination of fixed and variable rates, entering into agreements with Canada Mortgage and Housing Corporation (CMHC) to provide subsidy for the payment of principal and interest on the related loans from CMHC, and obtaining marketable securities with varying maturity dates.

22. Comparative figures

Certain comparative figures have been reclassified to conform with current year's presentation.
