**Management's Responsibility for Financial Reporting**  
*March 31, 2017*

The financial statements have been prepared by management in accordance with the recommendations of the Public Sector Accounting Board (PSAB) and the reporting requirements of the funding agreement with Indigenous and Northern Affairs Canada. Financial statements are not precise since they contain certain amounts based on estimates and judgments. When alternative methods exist, management has chosen what it deems most appropriate, in the circumstances, in order to ensure that the financial statements are presented fairly in all material respects.

Management is also responsible for implementing and maintaining a system of internal controls designed to give reasonable assurance that transactions are appropriately authorized, assets are safeguarded from loss and financial records are properly maintained to provide reliable information for the preparation of consolidated financial statements.

Chief and Council is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control. The consolidated financial statements have been reviewed and approved by Chief and Council.

The Chief and Council review and approve the financial statements for issuance to band members. The Chief and Council meet periodically with management, as well as external auditors, to discuss internal controls over the financial reporting process, auditing matters, and financial reporting issues, to satisfy themselves that each party is properly discharging their responsibilities, and to review the financial statements and the external auditors' report.

Chalupiak & Associates, an independent firm of Chartered Professional Accountants, has been engaged to examine the consolidated financial statements in accordance with Canadian generally accepted auditing standards. Their report stating the scope of their examination and opinion on the consolidated financial statements, follows.

**Independent Auditors' Report**

To the Members of  
**Cumberland House Cree Nation**

We have audited the accompanying consolidated financial statements of Cumberland House Cree Nation, which comprise the consolidated statement of financial position as at March 31, 2017, and the consolidated statements of operations, accumulated surplus, change in net debt, cash flows and the related schedules for the year then ended, and a summary of significant accounting policies and other explanatory information.

*Management's Responsibility for the Consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

*Auditors' Responsibility*

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the First Nation's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the First Nation's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

*Opinion*

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Cumberland House Cree Nation as at March 31, 2017, and the results of its operations, the changes in its net debt and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

The accompanying notes are an integral part of the financial statements

**Cumberland House Cree Nation**  
**Notes to Consolidated Financial Statements**  
*March 31, 2017*

**1. General**

The Cumberland House Cree Nation ("the First Nation") is an Indian Band subject to the provisions of the Indian Act. These financial statements include the Cumberland House Cree Nation government and all related entities which are accountable to the First Nation and are either owned or controlled by the First Nation.

**2. Basis of presentation and significant accounting policies**

These financial statements are prepared in accordance with Canadian public sector accounting standards for governments as recommended by the Public Sector Accounting Board.

**(a) Reporting entity**

The Cumberland House Cree Nation reporting entity includes the Cumberland House Cree Nation government and all related entities that are controlled by the First Nation.

**(b) Principles of consolidation**

All controlled entities are fully consolidated on a line-by-line basis except for the commercial enterprises which meet the definition of government business enterprise, which are included in the Consolidated Statements on a modified equity basis.

Under the modified equity method of accounting, only Cumberland House Cree Nation's investment in the government business enterprise and the enterprise's net income and other changes in equity are recorded. No adjustment is made for accounting policies of the enterprise that are different from those of Cumberland House Cree Nation.

Organizations accounted for on a modified equity basis include:

Saskatchewan River Business Corporation (SRBC)  
Cumberland House Saskatchewan River LP (CHSRLP)  
Prince Albert Development Corporation (PADC)  
Prince Albert First Nations Business Development LP (PAFNBDLP)  
Eastern Sector Community Development Corporation (ESCDC)  
Eastern Sector Community Development LP (ESCDLP)

**(c) Asset classification**

Assets are classified as either financial or non-financial. Financial assets are assets that could be used to discharge existing liabilities or to finance future operations. Non-financial assets are acquired, constructed or developed assets that do not provide resources to discharge existing liabilities but are employed to deliver government services, may be consumed in normal operations and are not for resale. Non-financial assets include tangible assets, prepaid expenses and inventory of supplies.

**(d) Net debt or net financial assets**

The financial statements are presented so as to highlight net debt as the measurement of financial position. The net debt or net financial asset is determined by its financial assets less liabilities. Net debt or net financial assets, is comprised of two components, non-financial assets and accumulated surplus.

**Cumberland House Cree Nation**  
**Notes to Consolidated Financial Statements**  
*March 31, 2017*

**2. Basis of presentation and significant accounting policies (continued)**

**(e) Cash and cash equivalents**

Cash and cash equivalents include cash on hand, balances with banks net of bank overdrafts and term deposits having a maturity of three months or less at acquisition which are held for the purpose of meeting short-term cash commitments. Cash subject to restrictions that prevent its use for current purposes is included in restricted cash.

**(f) Liability for contaminated sites**

A liability for remediation of a contaminated site is recognized at the best estimate of the amounts required to remediate the contaminated site when contamination exceeding an environmental standard exists, the First Nation is either directly responsible or accepts responsibility, it is expected that future economic benefits will be given up, and a reasonable estimate of the amount is determinable. The best estimate of the liability includes all costs directly attributable to remediation activities and is reduced by expected net recoveries based on information available at March 31, 2017.

At each financial reporting date, the First Nation reviews the carrying amount of the liability. Any revisions required to the amount previously recognized is accounted for in the period revisions are made. The First Nation continues to recognize the liability until it's settled or otherwise extinguished. Disbursements made to settle the liability are deducted from the reported liability when they are made.

**(g) Tangible capital assets**

Tangible capital assets are recorded at cost, which includes amounts that are directly related to the acquisition, design, construction, development, improvement or betterment of the assets. Cost includes overhead directly attributable to construction and development, as well as interest costs that are directly attributable to the acquisition or construction of the asset.

Leases that transfer substantially all the benefits and risks of ownership to the lessee are recorded as capital leases. Accordingly, at the inception of the leases, the tangible capital asset and related lease obligations are recorded at an amount equal to the present value of future lease payments discounted at the lower of the interest rate inherent in the lease contracts and Cumberland House Cree Nation's incremental cost of borrowing.

Amortization is provided for on a straight-line basis over their estimated useful lives. No amortization is recorded in the year of acquisition.

Buildings	25 years Straight line
Equipment	5-15 years Straight line
Computer equipment	4 years Straight line
CMHC - houses	20 years Straight line
Infrastructure assets	30-40 years Straight line

Tangible capital assets are written down when conditions indicate that they no longer contribute to Cumberland House Cree Nation's ability to provide goods and services, or when the value of future economic benefits associated with the tangible capital assets are less than their net book value. The net write-downs are accounted for as expenses in the consolidated statement of operations.

Contributed capital assets are recorded into revenues at their fair value on the date of donation, except in circumstances where fair value cannot be reasonably determined, in which case they are recognized at nominal value. Transfers of capital assets from related parties are recorded at carrying value.

**Cumberland House Cree Nation**  
**Notes to Consolidated Financial Statements**  
*March 31, 2017*

**2. Basis of presentation and significant accounting policies (continued)**

**(g) Tangible capital assets, continued**

Certain assets which have historical or cultural value, including works of art, historical documents and historical and cultural artifacts, are not recognized as tangible capital assets. Assets under construction are not amortized until the asset is available to be put into service.

**(h) Trust funds**

Funds earned and held in trust on behalf of First Nation members by the Government of Canada. Trust moneys consist of:

- Capital Trust moneys derived from non-renewable resources transactions on the sale of land or other First Nation capital assets; and,
- Revenue trust moneys generated primarily through land leasing transactions or interest earned on deposits held in trust.

Revenues from Trust moneys are recognized when measurable, earned and collection is reasonably assured. These moneys are reported on by the Government of Canada.

**(i) Use of estimates**

The preparation of consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

**(j) Segments**

The First Nation conducts its business through reportable segments. These operating segments are established by senior management to facilitate the achievement of the First Nation's long-term objectives, aid in resource allocation decisions, and to assess operational performance.

For each reported segment, revenues and expenses represent both amounts that are directly attributed to the segment and amounts that are allocated on a reasonable basis. Therefore, certain allocation methodologies are employed in the preparation of segmented financial information.

**(k) Internal charges and transfers**

The central administration office provides services to other program areas. To recognize the cost of these services a corresponding revenue and expense is recorded and referred to as "Administration fees - internal allocation."

**Cumberland House Cree Nation**  
**Notes to Consolidated Financial Statements**  
*March 31, 2017*

**2. Basis of presentation and significant accounting policies (continued)**

**(l) Revenue recognition**

Revenues are recognized in the period in which the transactions or events occurred that gave rise to the revenues. All revenues are recorded on an accrual basis, except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable.

Government transfers are recognized as revenues when the transfer is authorized and any eligibility criteria are met, except to the extent that transfer stipulations give rise to an obligation that meets the definition of a liability. Transfers are recognized as deferred revenue when transfer stipulations give rise to a liability. Transfer revenue is recognized in the statement of operations as the stipulation liabilities are settled.

Contributions from other sources are deferred when restrictions are placed on their use by the contributor, and are recognized as revenue when used for the specific purpose.

Revenue related to fees or services received in advance of the fee being earned or the service being performed is deferred and recognized when the fee is earned or the service is performed.

**(m) Expense recognition**

Expenses are accounted for in the period the goods or services are acquired and a liability is incurred or transfers are due.

**(n) Comparative figures**

Prior year's comparative amounts have been reclassified, where necessary, to conform to the current year's presentation.

**Cumberland House Cree Nation**  
**Notes to Consolidated Financial Statements**  
*March 31, 2017*

**3. Cash and cash equivalents**

Under the terms of an agreement with Canada Mortgage and Housing Corporation, Cumberland House Cree Nation must set aside funds annually for the repair, maintenance and replacement of worn out assets. These funds are to be held in a separate bank account and invested only in accounts or instruments insured by the Canada Deposit Insurance Corporation or as otherwise approved by the Canada Mortgage and Housing Corporation with any interest earned to be credited as revenue to the Replacement and Subsidy Fund. Cash and cash equivalents is comprised of the following:

Cash received to complete capital projects is held in separate bank accounts or guaranteed investment certificates.

Funds held in trust are held by the federal government in trust for the First Nation.

	2017	2016
Unrestricted cash

**Notes to Consolidated Financial Statements**  
*March 31, 2017*

**7. Due from related entities**

Transactions with related parties are in the normal course of business and are for fair consideration that is mutually agreed upon by the related parties.

	2017	2016
Cumberland House Saskatchewan River LP	\$ 36,465	\$ 67,200

**8. Investment in government business enterprises**

Commercial enterprises are those organizations that meet the definition of government business enterprises as described by the Public Sector Accounting Board. Government business enterprises have the power to contract in their own name, have the financial and operating authority to carry on a business, sell goods and services to customers outside the First Nation government as their principal activity, and that can, in the normal course of their operations, maintain operations and meet liabilities from revenues received from outside the First Nation government.

The First Nation has investments in the following entities:

	2017	2016
Saskatchewan River Business Corporation (SRBC)	\$ (1,436)	\$ (1,458)
Cumberland House Saskatchewan River LP (CHSRLP)	821,156	600,143

**12. Deferred revenue - unexpended funds - INAC**

INAC funding agreements stipulate the terms and conditions that apply to situations where revenue received exceeds expenditures. Depending on the funding arrangement the unexpended funds may be retained by the recipient, repaid to INAC, deferred to the following year, or transferred to another INAC program area. Any funding arrangements that have a provision that allows the recipient to retain the excess funds are recorded as surpluses. All other excess funds are recorded as a liability and classified as "Deferred revenue - unexpended funds" on the financial statements.

**24. Contingent liabilities**

Cumberland House Cree Nation has entered into contribution agreements with various federal government departments. Funding received under these contribution agreements is subject to repayment if the First Nation fails to comply with the terms and conditions of the agreements.

In addition, in the normal course of its operations, Cumberland House Cree Nation becomes involved in legal actions. Some of these potential liabilities may become actual liabilities when one or more future events occur or fail to occur. To the extent that the future event is likely to occur, and a reasonable estimate of the loss can be made, an estimated liability is accrued and an expense recorded on Cumberland House Cree Nation's financial statements.

**Cumberland House Cree Nation**  
**Notes to Consolidated Financial Statements**  
*March 31, 2017*

**25. Contractual Obligations**

The nature of Cumberland House Cree Nation's activities can result in some multi-year contracts whereby it will be obligated to make future payments when the goods or services are received. Significant contractual obligations that can be reasonably estimated are summarized as follows:

	2017 Monthly payments
National Leasing - classroom instruction - copier	\$ 404
National Leasing - band support - copier	292
National Leasing - health - copier	292
RCAP - band support - telephones	270
Ford Credit - student transportation	1,154
Ford Credit - student transportation	1,209
<hr/>	
Total	<hr/> \$ 3,621

**26. Future land claim settlement**

Cumberland House Cree Nation has entered into negotiations with Canada regarding a specific claim settlement. A loan has been secured to provide funding for the negotiation costs. As of March 31, 2017 the amount of \$1,658,434 (2016 - \$1,423,855) had been drawn down and is reported as a liability to the lending institution; a receivable in the amount of \$1,413,737 (2016 - \$1,401,173) has been recorded to offset expenses incurred to date.

**27. Tuition payable and receivable to Northern Lights School Division (NLSD)**

The First Nation has been negotiating with the NLSD with regards to tuition amounts both payable and receivable. There are students living on reserve attending school at the Charlebois Community School for which NLSD bills the First Nation for tuition. There are students attending the Nisto Awasisak Memorial School that are living off reserve. The First Nation has invoiced the NLSD at the same rate per student that the NLSD has been invoicing the First Nation. The NLSD also has stated that they will not pay anything for years prior to 2013.

**28. CMHC housing restricted funds**

The CMHC funding agreements require that the First Nation set aside cash in specially funded reserve bank accounts; as of March 31, 2017 the reserves were under funded by \$1,480,018 (2016 - \$1,465,563).

**29. Related party transactions**

Transactions with related parties, if any, are in the normal course of business, and are for fair consideration that is mutually agreed upon by the related parties.

**Cumberland House Cree Nation**  
**Notes to Consolidated Financial Statements**  
*March 31, 2017*

**30. Employee benefit obligations**

**Vacation and overtime**

The vacation and overtime liability is comprised of the vacation and overtime that employees are deferring to future years. Employees have either earned the benefits or are entitled to these benefits within the next budgetary year. There is no liability recorded in these statements for vacation or overtime.

**Post-employment benefits**

Cumberland House Cree Nation does not provide extended health, dental and life insurance benefits to retired employees and therefore has no obligations with regards to post employment benefits.

**Pension plan**

Cumberland House Cree Nation provides a defined contribution plan for eligible members of its staff. Members are required to contribute 3% of their salary up to a maximum of 10% of their basic salary. Cumberland House Cree Nation contributes a matching portion which is directed to the member's contribution account. Cumberland House Cree Nation does not have any other obligations with regards to the pension plan as at March 31, 2017.

**31. Fair value**

The fair value of the financial assets (except the investments), and current liabilities approximates their carrying value due to their short term nature. It is not practical to determine fair value for the investments with sufficient reliability because of the limited market for them. The fair value of the First Nation's long-term debt approximates cost due to either the short-term nature (either to term or to renewal) or has interest floating at market rates.

**32. Interest rate risk**

The First Nation is not exposed to significant interest rate risk on its monetary assets and current liabilities, due to their short term maturity. The First Nation is exposed to interest rate price risk on its long term debt that has a fixed interest rate.

**33. Budgeted figures**

Budgeted figures are unaudited and have been provided for comparison purposes and derived from the estimates approved by the Cumberland House Cree Nation.

**34. Economic dependence**

The First Nation receives a substantial amount of its funding from Indigenous and Northern Affairs Canada ("INAC") as a result of treaties entered into with the Government of Canada. These treaties are administered by INAC under the terms and conditions of the Indian Act. The ability of the First Nation to continue operations is dependent upon the Government of Canada's continued financial commitments as guaranteed by these treaties.

*March 31, 2017*

### **36. INAC funding**

The First Nation (Recipient) receives funding from Indigenous and Northern Affairs Canada (INAC) by entering into an agreement with INAC.

There are five approaches that INAC may consider in the design and delivery of transfer payment programs:

1. **Grant approach** – A grant is a transfer payment that is subject to pre-established eligibility and other entitlement criteria. Recipients are not required to account for the grant, but they may be required to report on results. The grant funding approach can be used for any duration of time necessary to achieve program results.
2. **Set contribution approach** – A set contribution is a transfer payment that is subject to performance conditions outlined in a funding agreement. Set contributions must be accounted for and are subject to audits. Funds are to be expended as identified in the funding agreement and cannot be redirected to other programs. Any unspent funding and any funding spent on ineligible expenditure must be returned to INAC annually.
3. **Fixed contribution approach** – Fixed contribution funding is an option where annual funding amounts are established on a formula basis or where the total expenditure is based on a fixed-cost approach. Fixed funding is distributed on a program basis. It is possible for recipients to keep any unspent funding provided that program requirements set out in the funding agreement have been met and the recipient agrees to use the unspent funds for purposes consistent with the program objectives or any other purpose agreed to by INAC. A plan must be submitted and approved by INAC prior to spending the unspent funds. If the funds are not spent according to the plan within the agreed upon time period they will be recovered by INAC.
4. **Flexible contribution approach** – Flexible contribution funding is an option which allows funds to be moved within cost categories of a single program during the life of the project/agreement. However, unspent funds must be returned to INAC at the end of the project, program or agreement.
5. **Block contribution approach** – Block contribution funding is an option which allows funds to be reallocated within the block of programs during the agreement, as long as progress towards program objectives is being achieved. It is possible under this approach for recipients to keep any unspent funding provided that program delivery standards have been met and the recipient agrees to use the unspent funding for purposes consistent with the block or any other purpose agreed to by INAC.

*March 31, 2017*

**37. Segmented information**

As previously discussed in note 2 (j) the First Nation conducts its business through reportable segments as follows:

**1) Indigenous and Northern Affairs Canada (INAC)**

**Claims and Indian Government:**

Costs associated with the negotiation, settlement and implementation of specific claims and comprehensive land claim agreements as well as special claims and self-government agreements.

**Community Development:**

Costs to acquire, construct, operate and maintain basic community facilities and services such as water and sewage, roads, electrification, schools, community buildings and fire protection. Also costs associated with ensuring that these facilities and community services meet recognized standards and are comparable to the services provided to nearby communities by provincial and municipal governments.

**Economic Development:**

Costs associated with economic development planning, proposal development, and planning and implementation of ongoing activities and one-time projects. Also costs to pursue economic objectives in areas such as the employment of community members, the development of community-owned and community member businesses, the development of land and resources under community control, access to economic opportunities on land and resources beyond community control, investment promotion, and research and advocacy.

**Education:**

Costs to support First Nation and Inuit communities in expressing, preserving, developing and promoting their cultural heritage, through the establishment and operation of First Nation and Inuit cultural education centres and programs. Costs to provide eligible students living on reserve and eligible Inuit with elementary/secondary education programs and services including instructional services in federal, provincial, band-operated schools, or a private/independent school (recognized by the province in which the school is located as an elementary/secondary institution), and student support services such as transportation, accommodation, guidance and counselling services. Costs associated with INAC's First Nations and Inuit Youth Employment Strategy to develop and enhance essential employability skills, such as communication, problem solving, and working with others, expose youth to a variety of career options, and promote the benefits of education as being key to labor market participation. Also, costs to support eligible First Nation and Inuit students to access education opportunities at the post-secondary level and supports the development and delivery of college and university level courses for First Nation and Inuit students, and research and development on First Nation and Inuit education. Costs for the provision of special education services and programs and costs to provide internet access, information technology equipment, technical support and training to students and school staff.

**Indian Government Support:**

Costs to support the further development of competent, stable, legitimate, and accountable community governments by strengthening First Nations and Inuit governance and by funding initiatives which address needs in the areas of professional and institutional development at the local level and at the level of emerging regional and national organizations. Also, costs to enable tribal councils to provide advisory services such as financial management, band government, economic development, community planning, technical services to the member First Nations and to defray the costs of administering programs on behalf of member communities and to provide funding for equivalent advisory services to large First Nations which are not affiliated with a tribal council.

**Cumberland House Cree Nation**  
**Notes to Consolidated Financial Statements**  
*March 31, 2017*

**37. Segmented information, continued**

**Land Management:**

Costs associated to the administration of land transactions on designated and non-designated lands under sections 53 and 60 of the Indian Act.

**Social Development:**

First Nations people, like other Canadian citizens, are responsible for managing their own affairs and maintaining themselves to the extent that their resources permit. Some individuals and families are unable to provide for themselves and their dependents. Situations therefore exist in which assistance must be available to community members in need. Income Assistance is one type of income supplement available to eligible persons. Other income supports include Old Age Security, Child Tax Benefits, etc.

**Indian Registration:**

Costs associated with the maintenance of the Indian Register, a record of everyone who is registered as an Indian under the Indian Act.

**Governance and Institutions of Government:**

Costs associated with Governance and Institution of Government activities.

**2) Health Programs (FNIHB)**

Health Canada provides funding for costs associated with the development of safe and healthy communities in the following areas:

Children and Youth; Mental Health and Addictions; Chronic Disease and Injury Prevention; Communicable Disease Control; Environmental Health and Research Component; Primary Care; Non-Insured Health Benefits; Health Governance and Infrastructure; Capital; Treatment Centres; Aboriginal Health Transition Fund; Headquarter projects.

**3) Canada Mortgage and Housing Corporation (CMHC)**

Non-Profit On-Reserve Housing Program (Section 95); Residential Rehabilitation Assistance Program (RRAP); Home Adaptations for Seniors' Independence Program (HASI); Shelter Enhancement Program; Housing Internship Initiative for First Nations and Inuit Youth.

**4) Band programs**

Other programs that vary based on own source revenue. These could include First Nations Trust, Tribal Council, CDC, Band Trust Funds and other business ventures. These outside revenue sources are used to fund programs such as recreational or cultural activities for the benefit of membership that are not funded by government agencies.
