### **Independent Auditor's Report**

To the Chief, Council and Members of  
Buctouche First Nation

We have audited the accompanying consolidated financial statements of Buctouche First Nation, which comprise the consolidated statement of financial position as at March 31, 2018, and the consolidated statements of operations and accumulated surplus, change in net debt and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

#### *Management's Responsibility for the consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditor's Responsibility*

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the First Nation's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the First Nation's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Opinion*

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Buctouche First Nation as at March 31, 2018, and the results of its operations, the changes in its net debt and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

The accompanying notes are an integral part of the financial statements

**BUCTOUCHE FIRST NATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**MARCH 31, 2018**

**1. Basis of Presentation and Significant Accounting Policies**

These financial statements are prepared in accordance with Canadian public sector accounting standards for governments as recommended by the Public Sector Accounting Board of the Chartered Professional Accountants of Canada.

**(a) Reporting Entity Principles of Financial Reporting**

The consolidated financial statements of Buctouche First Nation reflect the assets, liabilities, revenues, expenditures, changes in net debt and accumulated surplus of the reporting entity. The reporting entity is comprised of the organizations accountable for the administration of their affairs and resources to the Chief and Council or controlled by the band. Inter-fund and inter-corporate balances and transactions have been eliminated. The entities included in the consolidated financial statements are as follows:

1. River of the Little Fire Inc. Gas Bar

**(b) Cash and cash equivalents**

Cash and cash equivalents include cash on hand, balances with banks net of bank overdrafts and term deposits having a maturity of one year or less at acquisition which are held for the purpose of meeting short-term cash commitments.

**(c) Financial Instruments**

The First Nation's financial instruments consist of accounts receivable, bank indebtedness, accounts payable and accrued liabilities and long-term debt. Unless otherwise noted it is management's opinion that the First Nation is not exposed to significant interest, currency or credit risks.

**(d) Principles of Consolidation**

All controlled entities are fully consolidated on a line-by-line basis.

**Consolidation Method**

This method combines the accounts of distinct organizations. It requires uniform accounting policies for the organizations. Inter-organizational balances and transactions are eliminated under this method. This method reports the organizations as if they were one organization.

**(e) Net Debt**

The First Nation's financial statements are presented so as to highlight net debt as the measurement of financial position. The net debt of the First Nation is determined by its liabilities less its financial assets. Net debt is comprised of two components, non-financial assets and accumulated surplus.

---

**BUCTOUCHE FIRST NATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**MARCH 31, 2018**

**1. Basis of Presentation and Significant Accounting Policies (continued)**

**(f) Asset Classification**

Assets are classified as either financial or non-financial. Financial assets are assets that could be used to discharge existing liabilities or finance future operations. Non-financial assets are acquired, constructed or developed assets that do not provide resources to discharge existing liabilities but are employed to deliver government services, may be consumed in normal operations and are not for resale. Non-financial assets include tangible capital assets, prepaid expenses and inventories of supplies.

**(g) Tangible Capital Assets**

Tangible capital assets (TCAs) are items that can be physically touched, are used to provide First Nation services, are used for First Nation administration purposes or are used for the construction and/or maintenance of other TCAs owned by the First Nation, will be useful for a period greater than one year and will be used by the First Nation on a regular basis.

Any item purchased less than the capitalization threshold of \$2,500 is recorded as an expense in the year the item is acquired.

Tangible capital assets are recorded at cost, which includes all amounts directly attributable to acquisition, construction, development or betterment of the asset, and are amortized on the straight-line method over their estimated useful lives. Amortization begins in the year acquired. Current descriptions and useful lives are as follows:

Buildings	25 years
Automotive	5 years
Equipment	10 years
Paving	25 years
CMHC Housing	25 years
Community Health Centre	25 years
Water systems	25 - 50 years
Boats	20 years
School bus	5 years
Band housing	20 years

---

**BUCTOUCHE FIRST NATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**MARCH 31, 2018**

**1. Basis of Presentation and Significant Accounting Policies (continued)**

**(h) Revenue Recognition**

Revenues are recognized in the period in which the transactions or events occurred that gave rise to the revenues. All revenues are recorded on an accrual basis, except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable.

Government transfers (both operating and capital) are recognized as revenues when the transfer is authorized and any eligibility criteria are met, except to the extent that transfer stipulations give rise to an obligation that meets the definition of a liability. Transfers are recognized as deferred revenue when transfer stipulations give rise to a liability. Transfer revenue is recognized in the statement of operations as the stipulation liabilities are settled.

Contributions from other sources are deferred when restrictions are placed on their use by the contributor, and are recognized as revenue when used for the specific purpose.

Revenue related to fees or services received in advance of the fee being earned or the service being performed is deferred and recognized when the fee is earned or service performed.

**(i) Use of Estimates**

The preparation of financial statements in accordance with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reported period. These estimates are reviewed periodically and are reported in earnings in the period in which they become known. Actual results could differ from these estimates.

**(j) Expenditure Recognition**

Commitments for goods and services relating to the current fiscal year are accrued at the statement of financial position date.

**(k) Segment Disclosure**

The financial statements of Buctouche First Nation provide supporting schedules which are established by program based on government funding provided. The various programs have been amalgamated for the purpose of presentation in the consolidated financial statements. Details of the operations of each program are set out in the supplementary schedules for management information purposes.

**(l) Intangible assets**

The First Nation owns fishing licences which have been acquired without financial consideration and are therefore not recorded as assets in these financial statements.

**BUCTOUCHE FIRST NATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**MARCH 31, 2018**

**2. Restricted Cash**

	<b>2018</b>	<b>2017</b>

---

**BUCTOUCHE FIRST NATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**MARCH 31, 2018**

**10. Long-term Debt, continued**

Assuming similar renewal terms, principal portion of long-term debt due within the next five years is expected to be:

2019	\$ 66,606
2020	68,066
2021	56,574
2022	51,366
<u>2023 and thereafter</u>	<u>729,525</u>
	<hr/>
	\$ 972,137
	<hr/>

**11. Contingent Liabilities**

Buctouche First Nation has signed a tuition arrears repayment agreement with the Province of New Brunswick. The First Nation remains indebted to the Province of New Brunswick (Department of Education) in the amount of \$68,678, excluding interest, for tuition as at March 31, 2018. This outstanding balance, which is included in the accounts payable total on the consolidated statement of financial position, will be paid over a fifteen year period with equal monthly payments of \$817.60 beginning April, 2010. Interest at 10.69% per annum will be calculated and added to the outstanding balance. The repayment agreement provides that all interest would accrue but be waived at completion of the agreement providing the First Nation makes the payments as scheduled. Therefore, the First Nation has not recorded any liability for interest owing to the Department of Education due to Chief and Council's written commitment to monthly payments in accordance with the agreement. Payments were made according to the terms of the agreement during the 2017-18 fiscal year.

Buctouche First Nation has entered into contribution agreements with various federal government departments. Funding received under these contribution agreements is subject to repayment if the First Nation fails to comply with the terms and conditions of the agreements. The likelihood of compliance reviews and any potential findings are not determinable as at the date on the auditor's report.

**BUCTOUCHE FIRST NATION**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**MARCH 31, 2018**

**15. Financial Instruments Risks and Uncertainties**

The First Nation is exposed to the following risks in respect of certain of the financial instruments held:

**Credit risk**

The financial instruments that potentially subject the First Nation to a significant concentration of credit risk consist primarily of cash and accounts receivable.

The First Nation maintains cash balances with Canadian chartered banks which is insured by the Canada Deposit Insurance Corporation up to CDN \$100,000. From time to time, these balances exceed the federally insured limits and expose the First Nation to credit risk from concentration of cash. The First Nation limits this risk by transacting with reputable financial institutions.

The First Nation does have credit risk in accounts receivable \$326,362 (2017 - \$311,759). Credit risk is the risk that one party to a transaction will fail to discharge an obligation and cause the other party to incur a financial loss. The First Nation reduces its exposure to credit risk by performing valuations on a regular basis and creating an allowance for bad debts when applicable. The First Nation derives substantially all of its revenues and therefore, accounts receivable, from government sources. In the opinion of management, the credit risk exposure to the First Nation is low and is not material.

**Liquidity risk**

The First Nation does have a liquidity risk in the accounts payable and accrued liabilities of \$119,122 (2017 - \$306,282). Liquidity risk is the risk that the First Nation cannot repay its obligations when they become due to its creditors. The First Nation reduces its exposure to liquidity risk by ensuring that it documents when authorized payments become due: maintains an adequate line of credit to repay trade creditors and maintains a responsible cash position. In the opinion of management, the liquidity risk exposure to the First Nation is low and is not material.

**Interest rate risk**

The First Nation is exposed to interest rate risk. This risk exists due to interest rate exposure on its bank indebtedness, which is variable based on the bank's prime rates. This exposure may have an effect on its interest expenses in future periods. The First Nation reduces its exposure to interest rate risk by regularly monitoring published bank prime interest rates which have been relatively stable over the period presented. There are some loans payable that are at fixed term rates and therefore, do not affect interest rate risk. The First Nation does not use derivative instruments to reduce its exposure to interest rate risk. In the opinion of management the interest rate risk exposure to the First Nation is low and is not material.

**16. Economic Dependence**

Buctouche First Nation receives a significant portion of its revenue pursuant to a funding agreement with Indigenous and Northern Affairs Canada.
