Management's Responsibility

To the Members of Little Red River Cree Nation:

The accompanying consolidated financial statements of Little Red River Cree Nation are the responsibility of management and have been approved by the Chief and Council.

Management is responsible for the preparation and presentation of the accompanying consolidated financial statements, including responsibility for significant accounting judgments and estimates in accordance with Canadian public sector accounting standards. This responsibility includes selecting appropriate accounting principles and methods, and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the consolidated financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and financial records are properly maintained to provide reliable information for the preparation of consolidated financial statements.

Chief and Council of the Little Red River Cree Nation is responsible for overseeing management in the performance of its financial reporting responsibilities, and for approving the consolidated financial statements. Chief and Council fulfil these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with management and external auditors. Chief and Council is also responsible for recommending the appointment of the Nation's external auditors.

MNP LLP is appointed by Chief and Council on behalf of the Members to audit the consolidated financial statements and report directly to them; their report follows. The external auditors have full and free access to, and meet periodically and separately with, both the Chief and Council and management to discuss their audit findings.

Independent Auditors' Report

To the Members of Little Red River Cree Nation:

We have audited the accompanying consolidated financial statements of Little Red River Cree Nation, which comprise the consolidated statement of financial position as at March 31, 2018, and the consolidated statements of operations and accumulated surplus, changes in net financial assets, cash flows and the related schedules for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Little Red River Cree Nation as at March 31, 2018 and the results of its operations, changes in net financial assets and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Little Red River Cree Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2018

1. Significant accounting policies

The consolidated financial statements of the Little Red River Cree Nation (the "First Nation") are the representations of management, and are prepared in accordance with Canadian public sector accounting standards established by the Public Sector Accounting Board of CPA Canada and are consistent with accounting policies set out by Indigenous Services Canada ("ISC"). Significant aspects of the accounting policies adopted by the First Nation are as follows:

Reporting entity

These consolidated financial statements include the Little Red River Cree Nation, Little Red River Board of Education, Little Red River Cree Nation Mamawi Awasis Society and all related entities which are accountable to the First Nation and are either owned or controlled by the First Nation.

All inter-entity balances have been eliminated on consolidation; however, transactions between departments have not been eliminated in order to present the results of operations for each specific department.

Little Red River Cree Nation business entities, owned or controlled by the First Nation's Council but not dependent on the First Nation for their continuing operations, are included in the consolidated financial statements using the modified equity method as outlined in Note 4. Under the modified equity method, the equity method of accounting is modified only to the extent that the business entity accounting principles are not adjusted to conform to those of the First Nation. Thus, the First Nation's investment in these entities is recorded at acquisition cost and is increased for the proportionate share of post acquisition earnings and decreased by post acquisition losses and distributions received.

Basis of presentation

Sources of financing and expenses are recorded on the accrual basis of accounting. The accrual basis of accounting recognizes revenue as it becomes available and measurable under the terms of applicable funding agreements; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay.

Measurement uncertainty (use of estimates)

The preparation of consolidated financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results may vary from current estimates.

Accounts receivable are stated after evaluation as to their collectibility. Investment in First Nation business entities are stated after evaluation as to valuation and collectibility of advances. Amortization is based on the estimated useful lives of tangible capital assets. Inventory is based on the lower of cost and net realizable value. Liabilities for contaminated sites are estimated based on the best information available regarding potentially contaminated sites that the First Nation is responsible for.

These estimates are reviewed periodically and, as adjustments become necessary, they are reported in income in the periods in which they become known.

Net financial assets

The First Nation's consolidated financial statements are presented so as to highlight net financial assets as the measurement of consolidated financial position. The net financial assets of the First Nation is determined by its financial assets less its liabilities. Net financial assets combined with non-financial assets comprises a second indicator of financial position, accumulated surplus.

Little Red River Cree Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2018

1. Significant accounting policies *(Continued from previous page)*

Liability for contaminated sites

A liability for remediation of a contaminated site is recognized at the best estimate of the amount required to remediate the contaminated site when contamination exceeding an environmental standard exists, the First Nation is either directly responsible or accepts responsibility, it is expected that future economic benefits will be given up, and a reasonable estimate of the amount is determinable. The best estimate of the liability includes all costs directly attributable to remediation activities and is reduced by expected net recoveries based on information available at March 31, 2018.

At each financial reporting date, the First Nation reviews the carrying amount of the liability. Any revisions required to the amount previously recognized is accounted for in the period revisions are made. The First Nation continues to recognize the liability until it is settled or otherwise extinguished. Disbursements made to settle the liability are deducted from the reported liability when they are made.

At year-end there was no liability for contaminated sites.

Asset classification

Assets are classified as either financial or non-financial. Financial assets are assets that can be used to discharge existing liabilities or finance future operations. Non-financial assets are acquired, constructed or developed assets that do not normally provide resources to discharge existing liabilities but are employed to deliver government services, may be consumed in normal operations and are not for resale in the normal course of operations. Non-financial assets include tangible capital assets, inventory for First Nation use, and prepaid expenses.

i. Tangible capital assets

Tangible capital assets are initially recorded at cost which includes all amounts that are directly attributable to acquisition, construction, development or betterment of the asset. The cost of the tangible capital assets are amortized over their expected useful lives using the following rates and methods:

	Method	Rate
Buildings	straight-line	5 %
Buildings - Mamawi Awasis	declining balance	4 %
Equipment	straight-line	10 %
Equipment - Board of Education	declining balance	10 %
Water and sewer services	straight-line	5 %
Teacherages	declining balance	5 %
Automotive and other equipment	straight-line	10-20 %
Automotive - Education	declining balance	30 %
Furniture and fixtures	straight-line	30 %
Roads	straight-line	10 years
Street lights	straight-line	30 years
Wireless infrastructure	straight-line	5 %

ii. Inventory for First Nation use

Inventory held for consumption consists of gravel and maintenance supplies, and is recorded at the lower of cost and replacement cost.

iii. Prepaid expenses

Prepaid expenses include propane costs incurred during March which will be expensed in the following fiscal year, and pre-payments on goods and services which will be utilized in the following fiscal year.

1. Significant accounting policies *(Continued from previous page)*

Long-lived assets

Long-lived assets consist of tangible capital assets. Long-lived assets held for use are measured and amortized as described in the applicable accounting policies.

The First Nation performs impairment testing on long-lived assets held for use whenever events or changes in circumstances indicate that the carrying value of an asset, or group of assets, may not be recoverable. Impairment losses are recognized when undiscounted future cash flows from its use and disposal are less than the asset's carrying amount. Impairment is measured as the amount by which the asset's carrying value exceeds its fair value. Any impairment is included in income for the year; impairment of tangible capital assets is reflected in equity in tangible capital assets when impairment occurs. Prices for similar items are used to measure fair value of long-lived assets.

Revenue recognition

Government transfers

The First Nation recognizes a government transfer as revenue when the transfer is authorized and all eligibility criteria, if any, have been met. A government transfer with stipulations giving rise to an obligation that meets the definition of a liability is recognized as a liability. In such circumstances, the First Nation recognizes revenue as the liability is settled. Transfers of non-depreciable assets are recognized in revenue when received or receivable.

Other revenue

Other sources of revenue are recorded when received or receivable.

Segments

The First Nation conducts its business through nine reportable segments: administration, economic development, environment, First Nations Development Fund, health services, community services, community infrastructure, education and Mamawi Awasis Society. These operating segments are established by senior management to facilitate the achievement of the First Nation's long-term objectives to aid in resource allocation decisions, and to assess operational performance.

For each reported segment, revenue and expenses represent both amounts that are directly attributable to the segment and amounts that are allocated on a reasonable basis. Therefore, certain allocation methodologies are employed in the preparation of segmented financial information. Administration fees have been apportioned based on a percentage of budgeted revenue where permitted by the funder.

The accounting policies used in these segments are consistent with those followed in the preparation of the consolidated financial statements as disclosed above. Inter-segment transfers are recorded at their exchange amount.

2. Change in accounting policies

Effective April 1, 2017, the First Nation adopted the recommendations relating to the following Sections, as set out in the CPA Canada Public Sector Accounting Handbook:

- PS 2200 Related Party Disclosures
- PS 3420 Inter-entity Transactions
- PS 3210 Assets
- PS 3320 Contingent Assets
- PS 3380 Contractual Rights

Pursuant to the recommendations, the changes were applied prospectively, and prior periods have not been restated. There was no material impact on the consolidated financial statements of adopting the new Sections.

3. Cash

Peace Hills Trust - cash management agreement allows for a revolving loan up to \$1,000,000 bearing interest at prime plus 2%. Monthly extensions in excess of \$1,000,000 are approved by Peace Hills Trust, bear interest at 24% per annum, and are secured by a redirection of funding from Indigenous Services Canada. At March 31, 2018, the balance of the revolving loan was \$nil (2017 - \$nil). Prime was 3.75% at year-end.

Included in cash is \$1,314,220 (2017 - \$231,092) of remaining proceeds of advances from the First Nations Development Fund, to be used for projects which have been applied for and approved. This is restricted by the Province of Alberta for this use.

Also included in cash is \$33,459,878 (2017 - \$13,678,136) in bank accounts specifically related to various capital projects which are underway at year-end.

9. Contingent liabilities

Lawsuits

In the normal conduct of operations, there are pending claims by and against the First Nation. Litigation is subject to many uncertainties, and the outcome of individual matters is not predictable with assurance. In the opinion of management, based on the advice and information of legal counsel, final determination of these other litigations will not materially affect the First Nation's consolidated financial position or results of operations.

Indigenous Services Canada

The First Nation has received the following advances from the Loans to Native Claimants program: 2000 - \$15,000, 2001 - \$80,850, 2008 - \$177,215, 2010 - \$226,096, and 2011 - \$74,475 for a total of \$573,636 (2017 - \$573,636). The loans are repayable on the earlier of March 31, 2020 or the date on which the claim is settled. If the claim is not settled by March 31, 2020, the repayment date will be extended by five years. As repayment will be made from future claim proceeds, the amount is a contingent liability.

Contingencies

These consolidated financial statements are subject to review by the First Nation's funding agents. It is possible that adjustments could be made based on the results of their reviews.

10. Guarantees

At March 31, 2018, the First Nation is contingently liable for a line of credit available to Little Red River Wildland Firefighters Inc. in the amount of \$500,000.

As at March 31, 2018, no liability has been recorded associated with this guarantee.

11. Tangible capital assets

- (a) Roads include certain roads and bridges disclosed at a nominal amount.
- (b) The First Nation holds works of art from community members contributed to the First Nation and historical treasures of a cultural value, which have not been included in tangible capital assets due to the inability of estimating future benefits associated with such property.
- (c) The First Nation does not consider housing, other than employee housing, teacherages and CMHC housing, to be assets of the First Nation and therefore these items are included in operations.
- (d) Tangible capital asset additions for the year ended March 31, 2018 include \$469,218 still in accounts payable at year-end (2017 - \$3,197,479). As a result, this amount is not included in the purchases of tangible capital assets on the consolidated statement of cash flows.
- (e) Included in tangible capital asset additions for the year is \$16,714,391 (2017 - \$10,779,755) of Fox Lake road access work, \$5,206,025 (2017 - \$999,918) of Garden River and Fox Lake water treatment lagoon work, \$1,178,500 (2017 - \$nil) of communications towers, \$39,923,230 (2017 - \$20,478,857) of school modernization work, and \$198,365 (2017 - \$nil) of the John D'or Prairie Headstart facility that are in progress at March 31, 2018 and are therefore not being amortized.

12. Economic dependence

The First Nation receives substantially all of its funding through contribution arrangements with the Department of Indigenous Services Canada as administered under the conditions of the *Indian Act*. The ability of the First Nation to continue operations is dependent upon funding from this body.

13. Pension plan

The First Nation has established a defined contribution pension plan, in which all permanent full-time employees are required to participate. Pension contributions of either 3%, 5% or 8% are matched by the First Nation. No significant changes were made to the pension plan during the year. The pension expense for the year was \$928,809 (2017 - \$787,580).

14. CMHC reserves fund

Under conditions of agreements with the Canada Mortgage and Housing Corporation, the First Nation is required to maintain certain reserves related to on-reserve housing projects estimated at \$231,332 (2017 - \$223,342). As at March 31, 2018, the First Nation has funded \$249,316 (2017 - \$181,683) of the reserves.
