Management's Responsibility

To the Members of Mikisew Cree First Nation:

The accompanying consolidated financial statements of Mikisew Cree First Nation are the responsibility of management and have been approved by the Chief and Council.

Management is responsible for the preparation and presentation of the accompanying consolidated financial statements, including responsibility for significant accounting judgments and estimates in accordance with Canadian public sector accounting standards. This responsibility includes selecting appropriate accounting principles and methods, and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the consolidated financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and financial records are properly maintained to provide reliable information for the preparation of consolidated financial statements.

The Chief and Council is responsible for overseeing management in the performance of its financial reporting responsibilities, and for approving the consolidated financial statements. The Chief and Council fulfills these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with management and external auditors. The Chief and Council is also responsible for recommending the appointment of the Nation's external auditors.

MNP LLP, an independent firm of Chartered Professional Accountants, is appointed by the Chief and Council to audit the consolidated financial statements and report directly to them; their report follows. The external auditors have full and free access to, and meet periodically and separately with, both the Chief and Council and management to discuss their audit findings.

Originally signed by Otto Akatey

Chief Executive
Officer

To the Members of Mikisew Cree First Nation:

Qualified Opinion

We have audited the consolidated financial statements of Mikisew Cree First Nation and its subsidiaries (the "First Nation"), which comprise the consolidated statement of financial position as at March 31, 2022, and the consolidated statements of operations, accumulated operating surplus, remeasurement gains and losses, changes in net financial assets and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, except for the [possible] effects of the matter(s) described in the Basis for Qualified Opinion section of our report, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the First Nation as at March 31, 2022, and the results of its consolidated operations, its consolidated remeasurement gains and losses, changes in its net debt and its consolidated cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Qualified Opinion

Canadian public sector accounting standards require the disclosure of relevant financial information of subsidiary businesses which are accounted for using the modified equity method. The Chief and Council instructed management to exclude the disclosure of condensed financial information related to assets, liabilities, revenues and expenses of subsidiary business operations from Note 5 of the consolidated financial statements.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under Statements section of our report. We are independent of the First Nation in accordance with the ethical requirements that are those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the First Nation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the First Nation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the First Nation's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the First Nation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the First Nation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the First Nation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the First Nation to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Mikisew Cree First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2022

1. Significant accounting policies

These consolidated financial statements are the representations of management, prepared in accordance with Canadian public sector accounting standards and including the following significant accounting policies:

Basis of presentation

Sources of revenue and expenses are recorded on the accrual basis of accounting. The accrual basis of accounting recognizes revenue as it becomes available and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay.

Reporting entity consolidated consolidated

The financial statements consolidate the financial activities of all entities and departments comprising the First Nation reporting entity, except for First Nation business entities. Trusts administered on behalf of third parties by Mikisew Cree First Nation are excluded from the First Nation reporting entity.

The First Nation has consolidated the assets, liabilities, revenue and expenses of the following entities and departments:

- Mikisew Cree First Nation Administration
- Mikisew Cree First Nation Government & Industry Relations
- Mikisew Cree First Nation Education
- Mikisew Cree First Nation Technical Services (reserve operations, maintenance and member housing)
- Mikisew Cree First Nation Social Enhancement
- Mikisew Cree First Nation Paspew Place
- Mikisew Cree First Nation Property Management (housing CMHC operations)
- Mikisew Cree First Nation Legislature
- Mikisew Cree First Nation Human Resources Development (ISETS)
- Mikisew Cree First Nation Elders Care Facility
- Mikisew Cree First Nation Land Claims Members
- Mikisew Cree First Nation Land Claims Elders
- Mikisew Cree First Nation Capital Assets
- Mikisew Cree First Nation Child and Family Services
- Mikisew Cree First Nation Health Services
- Mikisew Cree First Nation Special Projects
- Mikisew Cree First Nation Government of Alberta Projects
- Mikisew Cree First Nation Entities
- Mikisew Cree Whachask Trust
- Oti-Nikan Community Trust

All inter-entity balances have been eliminated on consolidation; however, transactions between departments have not been eliminated in order to present the results of operations for each specific department.

Mikisew Cree First Nation business entities, owned or controlled by the First Nation's Council but not dependent on the First Nation for their continuing operations, are included in the financial statements using the modified equity method. Under the modified equity method, the equity method of accounting is modified only to the extent that the business entity accounting principles are not adjusted to conform to those of the First Nation. Thus, the First Nation's investment in these entities is recorded at acquisition cost and is increased for the proportionate share of post acquisition earnings and decreased by post acquisition losses and distributions received. The following is a list of business entities which the Nation considers Government Business Enterprises:

Mikisew Commercial Trust (823786 Alberta Ltd.), 1326866 Alberta Ltd., Mikisew Industrial Supply Ltd., Guthrie Mechanical Services Ltd., Fort McMurray Super 8 Limited Partnership, 1665322 Alberta Ltd., Cree Ations Ltd., Cree Chip Development Corporation, Mikisew Cree Foundation, MBH Fort McMurray Hotel Limited Partnership, Mikisew Powerline Investment Corporation, Northern Sport Fishing (1995) Ltd. and 2160223 Alberta Ltd.

Asset classification

Assets are classified as either financial or non-financial. Financial assets are assets that could be used to discharge existing liabilities or finance future operations. Non-financial assets are acquired, constructed or developed assets that do not normally provide resources to discharge existing liabilities but are employed to deliver government services, may be consumed in normal operations and are not for resale in the normal course of operations. Non financial assets include tangible capital assets, inventory and work in progress, and prepaid expenses.

Mikisew Cree First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2022

1. Significant accounting policies *(Continued from previous page)*

Net financial assets

The First Nation's financial statements are presented so as to highlight net financial assets as the measurement of financial position. The net financial assets of the First Nation is determined by its financial assets less its liabilities. Net financial assets combined with non-financial assets comprise a second indicator of financial position, accumulated surplus.

Cash resources

Cash and cash equivalent include balances with banks and short-term investments with maturities of three months or less. Cash subject to restrictions that prevent its use for current purposes is included in restricted cash.

Inventory and work in progress

Inventory is valued at the lower of cost and net realizable value. Cost is determined by the first-in, first-out. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and selling costs.

Inventory held for resale is classified as a financial asset when all of the following criteria are met:

- Prior to March 31, 2022, the First Nation has committed to sell the asset;
- The asset is in a condition to be sold;
- The asset is publicly seen to be for sale;
- There is an active market for the asset;
- A plan exists for selling the asset; and
- A sale to a party external to the First Nation can reasonably be expected within one year.

Tangible capital assets

Tangible capital assets are initially recorded at cost which includes all amounts that are directly attributable to acquisition, construction, development or betterment of the asset.

When conditions indicate that a tangible capital asset no longer contributes to the First Nation's ability to provide goods and services, or that the value of future economic benefits associated with a tangible capital asset is less than its net book value, the First Nation reduces the cost of the asset to reflect the decline in its value. Write-downs of tangible capital assets are not reversed.

Capital lease

A lease that transfers substantially all of the benefits and risks of ownership is classified as a capital lease. At the inception of a capital lease, an asset and a payment obligation is recorded at the present value of the minimum lease payments. Assets under capital leases are amortized on the straight-line basis, over their estimated useful lives. All other leases are accounted for as operating leases and rental payments are expensed as incurred.

Amortization

Amortization for tangible capital assets is provided using the following methods at rates intended to amortize the cost of the assets over their estimated useful lives:

	Method	Rate
Buildings and improvements	straight-line	20 years
Playground equipment	straight-line	10 years
Reserve infrastructure	straight-line	20-30 years
General equipment	straight-line	5-10 years
Vehicles	straight-line	3 years
Elders Care Facility	straight-line	40 years

Long-term debt and capital lease obligation

Long-term financing received to fund tangible capital asset purchases is recognized in the period the financing is acquired and recorded as an increase in long-term debt.

Repayments of long-term financing are recognized as a decrease in long-term debt.

1. Significant accounting policies *(Continued from previous page)*

Portfolio investments

Portfolio investments with prices quoted in an active market are measured at fair value. Changes in fair value are recorded in the statement of remeasurement gains (losses).

Long-lived assets

Long-lived assets consist of tangible capital assets with finite useful lives. Long lived assets held for use are measured and amortized as described in the applicable accounting policies.

The Nation performs impairment testing on long-lived assets held for use whenever events or changes in circumstances indicate that the carrying amount of an asset, or group of assets, may not be recoverable. The carrying amount of a long-lived asset is not recoverable if the carrying amount exceeds the sum of the undiscounted future cash flows from its use and disposal. Impairment is measured as the amount by which the asset's carrying amount exceeds its fair value. Fair value is measured using quoted market prices. Any impairment is included in surplus for the year.

Revenue recognition

Funding

Revenue is recognized as it becomes receivable under the terms of applicable funding agreements. Funding received under funding arrangements that relate to a subsequent fiscal period are reflected as deferred revenue on the statement of financial position in the year of receipt.

Other revenues, including investment income earned by the Mikisew Cree Whachask Trust and the Oti-Nikan Community Trust, are recorded when received or receivable.

Externally restricted revenue

The First Nation recognizes externally restricted inflows as revenue in the period the resources are used for the purpose specified in accordance with an agreement or legislation. Until this time, the First Nation records externally restricted inflows in deferred revenue.

Measurement uncertainty

The preparation of consolidated financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period.

Accounts receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary. Provisions are made for slow moving and obsolete inventory. Amortization is based on the estimated useful lives of tangible capital assets.

Agricultural benefits claim member distributions payable

In the 2018 year, the Agricultural Benefits Claim was settled resulting in the creation of the Mikisew Cree Whachask Trust. Under this trust agreement, each member of the Mikisew Cree First Nation at the trust ratification date is entitled to a distribution of varying amounts. The amount of distributions payable to members is estimated using the number of eligible Mikisew Elders, Adults, and Minors per the Band list as of the trust ratification date and the various distribution options available to the eligible members.

Liability for contaminated site

Expenditures that relate to on-going environmental and remediation programs are charged against surplus as incurred. A liability for a contaminated site reflects management's best estimate of the amount required to remediate the contaminated site. The best estimate of the liability is based upon assumptions and estimates related to the amount and timing of costs for future site remediation.

Changes to the underlying assumptions and estimates or legislative changes in the near term could have a material impact on the provision recognized.

1. Significant accounting policies *(Continued from previous page)*

By their nature, these judgments are subject to measurement uncertainty, and the effect on the consolidated financial statements of changes in such estimates and assumptions in future years could be significant. These estimates and assumptions are reviewed periodically and, as adjustments become necessary they are reported in earnings in the years in which they become known.

Segments

The First Nation conducts its business through nineteen reportable segments as described in the reporting entity and principles of consolidation accounting policy note. These operating segments are established by the Chief and Council to facilitate the achievement of the Nation's long term objectives, to aid in resource allocation decisions, and to assess operational performance.

For each reported segment, revenue and expenses represent both amounts that are directly attributable to the segment and amounts that are allocated on a reasonable basis. Therefore, certain allocation methodologies are employed in the preparation of segmented financial information.

The accounting policies used in these segments are consistent with those followed in the preparation of the consolidated financial statements as disclosed.

Financial instruments

The First Nation recognizes its financial instruments when the First Nation becomes party to the contractual provisions of the financial instrument. All financial instruments are initially recorded at their fair value.

At initial recognition, the First Nation may irrevocably elect to subsequently measure any financial instrument at fair value. The First Nation has made such an election during the year.

The First Nation subsequently measures investments in equity instruments quoted in an active market and all derivative instruments, except those that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, at fair value. Fair value is determined by published price quotations. Transactions to purchase or sell these items are recorded on the trade date. Net gains and losses arising from changes in fair value are recognized in the statement of remeasurement gains and losses, while interest income is recognized in the statement of operations. Investments in equity instruments not quoted in an active market and derivatives that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, are subsequently measured at cost. With the exception of those instruments designated at fair value, all other financial assets and liabilities are subsequently measured at amortized cost using the effective interest rate method.

Transaction costs directly attributable to the origination, acquisition, issuance or assumption of financial instruments subsequently measured at fair value are immediately recognized in operating surplus. Conversely, transaction costs are added to the carrying amount for those financial instruments subsequently measured at cost or amortized cost.

All financial assets except derivatives are tested annually for impairment. Management considers whether the investee has experienced continued losses for a period of years in determining whether objective evidence of impairment exists. Any impairment, which is not considered temporary, is recorded in the statement of operations. Write downs of financial assets measured at cost and/or amortized cost to reflect losses in value are not reversed for subsequent increases in value. Reversals of any net remeasurements of financial assets measured at fair value are reported in the statement of remeasurement gains and losses.

Fair value measurements

The First Nation classifies fair value measurements recognized in the statement of financial position using a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1: Quoted prices (unadjusted) are available in active markets for identical assets or liabilities;
- Level 2: Inputs other than quoted prices in active markets that are observable for the asset or liability, either directly or indirectly; and
- Level 3: Unobservable inputs in which there is little or no market data, which require the First Nation to develop its own assumptions.

Mikisew Cree First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2022

1. Significant accounting policies *(Continued from previous page)*

Fair value measurements are classified in the fair value hierarchy based on the lowest level input that is significant to that fair value measurement. This assessment requires judgment, considering factors specific to an asset or a liability and may affect placement within the fair value hierarchy.

Statement of Remeasurement Gains and Losses

By presenting remeasurement gains (losses) separately, changes in the carrying value of financial instruments arising from fair value measurement are distinguished from revenues and expenses reported in the statement of operations. The statement of operations reports the extent to which revenues raised in the period were sufficient to meet the expenses incurred. Remeasurement gains (losses) do not affect this assessment as they are recognized in the statement of remeasurement gains and losses. Taken together, the two statements account for changes in a First Nation's net assets (liabilities) in the period.

Upon settlement, the cumulative gain (loss) is reclassified from the statement of remeasurement gains and losses and recognized in the statement of operations. Interest and dividends attributable to all financial instruments are reported in the statement of operations.

2. Restricted cash

	2022	2021
CMHC replacement reserve	438,676	437,180
Ottawa Trust funds	7,185	7,072
	445,861	444,252

The Ottawa Trust accounts arise from monies derived from capital or revenue source as outlined in section 62 of the Indian Act. These funds are held in trust in the Consolidated Revenue Fund of the Government of Canada and are subject to audit by the Office of the Auditor General of Canada. Sections 63 and 69 of the Indian Act primarily govern the management of these funds. These funds have been internally restricted by the Nation.

3. Accounts receivable

	2022	2021
Indigenous Service Canada	47,697	5,822
First Nation Development Fund	469,136	-
Trade accounts receivable - members	775,517	628,538
Allowance for doubtful accounts - members	(792,787)	(622,518)
Member rent receivable	2,034,047	2,047,266
Allowance for doubtful accounts - member rent receivable	(1,771,114)	(1,759,989)
Trade accounts receivable - non-members	5,044,738	4,324,257
Allowance for doubtful accounts - non-members	(1,344,859)	(1,148,126)
Goods and service tax receivable	514,812	283,880
	4,977,187	3,759,130

4. Inventory and work in progress

	2022	2021
Building supplies	1,347,289	1,246,171
Supplies inventory	-	113,365
Work in progress and unbilled revenue	166,931	-
	1,514,220	1,359,536

Notes to the Consolidated Financial Statements
For the year ended March 31, 2022

6. Land claims assets

The Nation settled its land claim with the federal and provincial governments in 1986 and received \$26,600,000 in financial compensation and 24,000 acres of reserve land. This land is held in the following reserves:

- Old Fort Indian Reserve #217
- Doghead Indian Reserve #218
- Allison Bay Indian Reserve #219
- Devil's Gate Indian Reserve #220
- Sandy Point Indian Reserve #221
- Peace Point Indian Reserve #222
- Collin Lake Indian Reserve #223
- Cornwall Lake Indian Reserve #224
- Charles Lake Indian Reserve #225

The agreements restrict the use of the financial compensation received. "A" or "B" institutions as defined under the Bank Act must hold this amount. This money can be used for any purposes other than per capita distributions if approved by 75% of the eligible voters. Without approval of 75% of eligible voters, it is to be invested in the following:

- (a) Debt instruments of Canada, the provinces, Canadian municipalities, certain chartered banks;
- (b) Commercial paper rated R1 or corporate bonds rated A1 of up to \$1,000,000 per issuer;
- (c) Corporate bonds rated A or better of up to \$1,000,000 per issuer;
- (d) Mortgage backed securities guaranteed by the Government of Canada;
- (e) Convertible debentures rated BBB or better up to \$250,000 per issuer;
- (f) Preferred shares and convertible preferred shares rated P2 or better up to \$250,000 per issuer;
- (g) Subject to certain restrictions equity securities of corporations up to \$250,000 per issuer.

Investment income from the capital monies is to be reported in a "revenue" account. No more than 50% of the revenue money on hand as of January 1 of a year may be used for per capita distributions.

The costs of investments is \$34,355,999 (2021 - \$32,883,989). Unrealized gains were \$449,356 (2021 - \$2,294,210).

Assets at fair value in the Revenue and Restricted accounts are as follows:

	2022	2021
Cash and short term notes	8,936,343	5,884,479
Accrued interest	229,328	212,012
Investments	25,639,684	29,081,708
	34,805,355	35,178,199
Comprised of:		
Land Claims Revenue	3,278,568	1,429,410
Land Claims Restricted	31,526,787	33,748,789
	34,805,355	35,178,199

Mikisew Cree First Nation
Notes to the Consolidated Financial Statements

7. Mikisew Cree Whachask Trust investments

The Nation settled its Agricultural Benefits Claim with the federal government in 2018 and received \$135,972,938 in financial compensation. The financial compensation received has been invested through the Mikisew Whachask Trust and will be used to provide members with per capita distributions (Note 9). The cost of investments is \$41,371,044 (2021 - \$53,594,660).

Unrealized gains were \$2,334,138 (2021 - \$3,368,150).

Assets at fair value in the accounts are as follows:

	2022	2021
Cash	71,500	1,000
Investments	43,633,682	56,962,810
	43,705,182	56,963,810

8. Oti-Nikan Community Trust

This trust was established July 8, 2020, to provide financial resources for the long term prosperity and sustainability of the Mikisew Cree First Nation, to allow for better reporting, oversight and accountability over payments received through various impact benefit agreements, land claims settlements and other funding sources; and to provide for more enhanced and efficient financial wealth management for Mikisew Cree First Nation.

	2022	2021
Cash	8,874,735	5,162,529
Accounts receivable	1,131	1,163,676
Investment	10	10
Accrued expenses	(12,443)	(31,384)
	8,863,433	6,294,831

Mikisew Cree First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2022

9. Agricultural Benefits Claim member distributions payable

Upon the settlement of the Agricultural Benefits Claim, the Mikisew Cree Whachask Trust was created to hold the funds received and distribute various amounts to the Mikisew Cree First Nation members as of the trust ratification date. The Band members were given a choice of various distributions as described below.

Each Mikisew Elder shall be entitled to receive one of the following:

- (i) a one time lump sum payment of thirty thousand dollars (\$30,000); or
- (ii) annual distributions of ten thousand dollars (\$10,000) per year for five (5) years up to a total of fifty thousand dollars (\$50,000), inclusive of interest.

Each Mikisew Adult shall be entitled to receive one of the following:

- (i) a one time lump sum payment of twenty five thousand dollars (\$25,000); or
- (ii) annual distributions of ten thousand dollars (\$10,000) per year for five (5) years up to a total of fifty thousand dollars (\$50,000), inclusive of interest.

Each Mikisew Minor that was alive on the Ratification Date shall be entitled to one of the following once they have reached the age of eighteen (18):

- (i) a one time lump sum payment of twenty five thousand dollars (\$25,000) plus accrued interest of 4% compounded annually from the Compensation Date; or
- (ii) annual distributions of ten thousand dollars (\$10,000) per year for five (5) years up to a total of fifty thousand dollars (\$50,000), inclusive of interest.

The minor's distributions were estimated based on a conservative calculation which assumed that all minors at the Ratification Date were less than 1 year old and would chose the one time lump sum payment of \$25,000 plus the accrued 4% interest. As at March 31, 2022, one hundred and ninety two (192) minors had turned eighteen (18) resulting in a change in accounting estimate for the remaining estimated distributions.

At the time of the Ratification Date, there were five hundred and forty (540) Mikisew Adults and Elders who had not chosen their distribution amounts. As such, an estimate was made for which distribution options would be chosen based on the amounts already selected. As at March 31, 2022, there were only thirty four (49) Mikisew Adults and Elders who had not chosen their distribution amounts. This led to a change in accounting estimate for the current selections available.

The payable balance is made up of the following estimates:

	2022	2021
Adult and Elder distributions payable	2,834,855	17,642,796
Minor distributions payable	29,326,248	31,543,674
	32,161,103	49,186,470

10. Deferred revenue

The following table represents changes in the deferred revenue balance attributable to each major category of external restrictions:

	<i>Balance, beginning of year</i>	<i>Contributions received</i>	<i>Contributions recognized</i>	<i>Balance, end of year</i>
GIR project funding	2,938,527	4,376,978	2,928,527	4,386,978
ISC contributions	7,675,407	26,923,808	22,722,923	11,876,292
FNDF funding	-	681,213	681,213	-
Government of Alberta	254,471	200,000	149,471	305,000

For the year ended March 31, 2022

11. Long-term debt *(Continued from previous page)*

Tangible capital assets included in Schedule 1, insurance coverage, assignment of book debts and investment revenues, a general security assignment and Band Council Resolutions have been pledged as security on the long-term debt.

Prime rate as at March 31, 2022 was 2.7% (2021 - 2.45%).

Principal repayments on long-term debt in each of the next five years, assuming all term debt is subject to contractual terms of repayment, are estimated as follows:

2023	1,111,051
2024	4,155,912
2025	87,910
2026	689,041
2027	220,671
<hr/>	
	6,264,585
<hr/>	

12. Commitments

The Nation leases rental space with annual lease payments of \$128,700 (2021 - \$128,700). The lease is with a related party subject to common ownership. The lease was arranged during the normal course of operations and measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

The Nation leases rental spaces from an unrelated third party with annual lease payments of \$189,276 (2021 - \$216,000).

The Nation leases vehicles from an unrelated third party with minimum annual lease payments of \$25,627 (2021 - \$25,627).

The Nation has owns a property with annual condominium fees of \$42,510 (2021 - \$27,364).

The Nation has entered into a partnership agreement which requires them to contribute additional capital. The estimated amount that they will have to contribute is between \$1,000,000 and \$1,600,000 of which \$nil (2021 - \$nil) was advanced in the current year. To date they have contributed \$1,250,000 (2021 - \$1,250,000).

13. Guarantees

The Nation has signed an unlimited guarantee on payment of all present and future indebtedness of the Mikisew Group of Companies. The Mikisew Group of Companies has a revolving credit facility at bank prime rate with a maximum borrowing limit of \$4,500,000 of which \$nil was drawn March 31, 2022 (2021 - \$nil). The Mikisew Group of Companies had long-term debt in the amount of \$20,455,438 (2021 - \$23,216,125).

The Nation has signed a letter of guarantee for the Fort McMurray Hotel Limited Partnership in the amount of \$16,000,000 of which \$13,856,797 is outstanding.

The Nation has signed a letter of guarantee for the Fort McMurray TPS Hotel Partnership loans of which \$10,478,351 is outstanding.

In the event of default by these affiliates, the Nation would be responsible for these debts. None of the loans are currently in arrears.

Mikisew Cree First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2022

14. Tangible capital assets

The tangible capital assets reconciliation is included in Schedule 1.

The Nation's tangible capital asset purchases in the current year were \$10,905,854 (2021 - \$11,825,871) of which \$7,137,274 (2021 - \$8,812,723) are included in construction-in-progress.

Buildings and Improvements includes buildings under construction with a carrying value of \$7,137,274 (2021 - \$8,812,723). No amortization of this asset has been recorded during the year because the buildings are currently under construction.

15. Other revenue

	2022	2021
Rentals	422,174	366,021
Water and sewer revenue	69,047	73,750
Miscellaneous	884,360	370,572
Special event fundraising and donations	86,768	62,000
Interest income	11,579	21,290
Athabasca tribal council - miscellaneous programs	12,616	1,490
Income from Northlands School Division	248,022	699,930
Management fees	400,000	400,000
	2,134,566	1,995,053

16. Financial Instruments

The Nation as part of its operations carries a number of financial instruments. It is management's opinion that the Nation is not exposed to significant interest, currency or credit risks arising from these financial instruments except as otherwise disclosed.

Risk Management Policy

The Nation, as part of operations, has established risk management objectives such as avoidance of undue concentrations of risk as risk management objectives. In seeking to meet these objectives, the Nation follows a risk management policy approved by the Chief and Council.

Fair Value of Financial Instruments

The Nation has elected to measure land claim assets described in Note 6 at fair value, using level 1: quoted prices available in active markets.

Interest rate risk

Interest rate risk is the risk that the value of a financial instrument might be adversely affected by a change in the interest rates. Changes in market interest rates may have an effect on the future cash flow associated with some financial assets and liabilities, known as cash flow risk, and on the fair value of other financial assets or liabilities known as price risk.

The Nation is exposed to interest rate cash and flow risk with respect to its operating line of credit and certain long-term debt amounts, which are subject to floating interest rates. The Nation is exposed to interest rate price risk with respect to certain long-term debt amounts which bear interest at rates agreed upon at the time of issuance. The Nation is also exposed to interest rate price risk with respect to its land claims assets which earn interest on investment at fixed annual rates.

16. Financial Instruments *(Continued from previous page)*

Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or foreign currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The Nation enters into transactions to purchase portfolio investments, for which the market price fluctuates via the land claim assets.

Other price risk is measured is measured using standard deviation which measures a portfolio investment's volatility regardless of the cause. The Nation manages its other price risk by by utilizing investment managers and custodians to monitor the volatility of the portfolio investments held and manage the investments in accordance to the investment guidelines.

Credit Risk

Credit risk is the risk of financial loss because a counter party to a financial instrument fails to discharge its contractual obligations.

Risk management

The First Nation manages its credit risk by performing regular credit assessments of its customers and providing allowances for potentially uncollectible accounts receivable.

17. Budget information

The disclosed budget information has been approved by the Chief and Council of Mikisew Cree First Nation. The budget differs from the budget included in these financial statements as some items do not comply with Public Sector Accounting Standards.

The approved budget shows capital purchases as an expenses and use of unspent funds or savings as revenue. These practices do not comply with Public Sector Accounting Standards. This resulted in a decrease of budgeted expenses by \$8,580,000.

The Government & Industry Relations budget was not included in the overall budget but was approved separately. This resulted in an increase in the budgeted revenue by \$2,519,580 and and increase in the budgeted expenses by \$4,713,791.

The approved Budget showed a surplus of \$266,282. After adjustments for the transfers and additional Government & Industry Relations revenues, the net income budgeted before transfers is \$6,589,836.

18. Comparative figures

Certain comparative figures have been reclassified to conform with current year's presentation.
