## Stoney First Nation

### Management's Responsibility for Financial Reporting

March 31, 2021

The accompanying consolidated financial statements of Stoney First Nation are the responsibility of management and have been approved by Council.

The consolidated financial statements have been prepared by management in accordance with Canadian public sector accounting standards prescribed for governments as recommended by the Public Sector Accounting Board of the Chartered Professional Accountants of Canada and as such include amounts that are the best estimates and judgments of management.

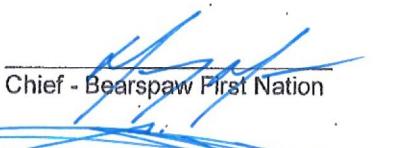

Management is responsible for the integrity and objectivity of these statements and for implementing and maintaining a system of internal controls to provide reasonable assurance that reliable financial information is produced.

The Council is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control and is ultimately responsible for reviewing and approving the consolidated financial statements.

The Council meets periodically with management, as well as the external auditors, to discuss internal controls over the financial reporting process, auditing matters and financial reporting issues, to satisfy themselves that each party is properly discharging their responsibilities, and to review the consolidated financial statements and the external auditors' report.

The external auditors, Crowe MacKay LLP, conduct an independent examination, in accordance with Canadian auditing standards, and express their opinion on the consolidated financial statements. The external auditors have full and free access to financial management of Stoney First Nation and meet when required.

## **Independent Auditors' Report**

### **To the Members of Stoney First Nation**

#### *Opinion*

We have audited the consolidated financial statements of Stoney First Nation, which comprise the consolidated statement of financial position as at March 31, 2021, and the consolidated statements of operations and accumulated operating surplus, remeasurement gains and losses, change in net financial assets and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the First Nation as at March 31, 2021, and the results of its consolidated operations, its consolidated remeasurement gains and losses, its changes in its consolidated net financial assets, and its consolidated cash flows for the year then ended in accordance with Canadian public sector accounting standards.

#### *Basis for Opinion*

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the First Nation in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### *Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the First Nation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the First Nation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the First Nation's financial reporting process.

## Independent Auditors' Report (continued)

### *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements*

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ◆ Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ◆ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the First Nation's internal control.
- ◆ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ◆ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the First Nation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the First Nation to cease to continue as a going concern.
- ◆ Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ◆ Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### **1. Basis of Presentation and Significant Accounting Policies (continued)**

##### **(b) Revenue recognition**

Revenues are recognized in the period in which the transactions or events occurred that gave rise to the revenues. All revenues are recorded on an accrual basis, except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impractical.

Government transfers are recognized as revenues when the transfer is authorized and any eligibility criteria are met, except to the extent that transfer stipulations give rise to an obligation that meets the definition of a liability. Transfers are recognized as deferred revenue when transfer stipulations give rise to a liability. Transfer revenue is recognized in the statement of operations as the stipulation liabilities are settled.

Contributions from other sources are deferred when restrictions are placed on their use by the contributor, and are recognized as revenue when used for the specific purpose.

Revenue related to fees or services received in advance of the fee being earned or the service is performed is deferred and recognized when the fee is earned or service performed.

Income from investments is recorded on the accrual basis.

Other income is recognized when earned and collection is reasonably assured.

##### **(c) Cash and cash equivalents**

Cash and cash equivalents includes cash on hand and balances in bank accounts, net of bank overdrafts.

##### **(d) Investments**

First Nation business enterprises that are owned or controlled by the Stoney First Nation are consolidated with the accounts of the First Nation as they do not qualify as government business enterprises.

Investments in term deposits, treasury bills and bonds are carried at fair value.

Investments are written down where there has been a loss in value that is other than a temporary decline.

#### 1. Basis of Presentation and Significant Accounting Policies (continued)

##### (e) Tangible capital assets

Tangible capital assets are recorded at cost, which includes amounts that are directly related to the acquisition, design, construction, development, improvement or betterment of the assets. Cost includes overhead directly attributable to construction and development, as well as interest costs that are directly attributable to the acquisition or construction of the asset.

Leases that transfer substantially all the benefits and risks of ownership to the lessee are recorded as capital leases. Accordingly, at the inception of the leases, the tangible capital asset and related lease obligations are recorded at an amount equal to the present value of future lease payments discounted at the lower of the interest rate inherent in the lease contracts and the Nation's incremental cost of borrowing.

Amortization is provided on the straight-line basis over the estimated useful life of the asset as follows:

Land	0 years Straight line
Buildings and infrastructure	20 years Straight line
Automotive equipment	3 years Straight line
Computer equipment	3 years Straight line
Furniture and equipment	5 years Straight line
Band Housing	20 years Straight line
Capital projects under construction	0 years Straight line

Tangible capital assets are written down when conditions indicate that they no longer contribute to the Nation's ability to provide goods and services, or when the value of future economic benefits associated with the tangible capital assets are less than their net book value. The net write-downs are accounted for as expenses in the consolidated statement of operations.

Contributed capital assets are recorded into revenues at their fair value on the date of donation, except in circumstances where fair value cannot be reasonably determined, in which case they are recognized at nominal value. Transfers of capital assets from related parties are recorded at carrying value.

Certain assets which have historical or cultural value, including works of art, historical documents and historical and cultural artifacts, are not recognized as tangible capital assets. Assets under construction are not amortized until the asset is available to be put into service.

#### 1. Basis of Presentation and Significant Accounting Policies (continued)

##### (f) Inventory

Inventories are measured at the lower of cost and net realizable value. The cost of inventories comprises all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less any applicable variable selling costs. The costs of purchase comprise the purchase price, import duties, non-recoverable taxes and transport, handling and other costs directly attributable to the acquisition and inbound delivery of the inventory. Costs are determined using the first-in, first-out method.

##### (g) Financial instruments

Financial assets originated or acquired or financial liabilities issued or assumed in an arm's length transaction are initially measured at their fair value. In the case of a financial asset or financial liability not subsequently measured at its fair value, the initial fair value is adjusted for financing fees and transaction costs that are directly attributable to its origination, acquisition, issuance or assumption. Such fees and costs in respect of financial assets and liabilities subsequently measured at fair value are expensed.

The entity measures the following financial assets at amortized cost: cash, restricted cash, accounts receivable and trust funds held by Ottawa.

The entity subsequently measures investments held in trust accounts at fair value based on quoted prices in active markets, without adjustment for transaction costs and with changes in fair value recognized in remeasurement gains and losses in the period in which they occur.

The entity measures the following liabilities at amortized cost: accounts payable, long-term debt and band funds in trust.

At the end of each reporting period, management assesses whether there are any indications that financial assets measured at cost or amortized cost may be impaired. If there is an indication of impairment, management determines whether a significant adverse change has occurred in the expected timing or the amount of future cash flows from the asset, in which case the asset's carrying amount is reduced to the highest expected value that is recoverable by either holding the asset, selling the asset or by exercising the right to any collateral. The carrying amount of the asset is reduced directly or through the use of an allowance account and the amount of the reduction is recognized as an impairment loss in operations. Previously recognized impairment losses may be reversed to the extent of any improvement. The amount of the reversal, to a maximum of the related accumulated impairment charges recorded in respect of the particular asset, is recognized in operations.

### 1. Basis of Presentation and Significant Accounting Policies (continued)

#### (h) Use of estimates and COVID-19 measurement uncertainty

The preparation of financial statements in accordance with Public Sector Accounting Board Standards requires management to make estimates and assumptions, including assumptions about the future effects of the COVID-19 pandemic, that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the year.

A significant estimate made in the preparation of the accompanying consolidated financial statements involves the recoverability of expenditures incurred with respect to flood disaster clean up costs. As the expenditures are to be submitted, reviewed and approved by the Provincial Government prior to receiving the funds, management has estimated the recoverable amounts based on submitted expenditures.

Oil and gas royalties and surface rights payments related to oil and gas exploration and development activities are administered directly by the Government of Canada ("Canada") under the provisions of the Indian Oil and Gas Act. The Nation records receipts based on currently available information supplied by Canada. Royalty payments from oil and gas producers are subject to periodic revision. Adjustments are recorded by the Nation in the period that the information becomes available.

COVID-19 is considered a potential indication of impairment and has impacted the assumptions underlying the forecasted cash flows used in performing the organization's impairment analysis of long-lived assets. Actual impairment and other results could differ from these and other estimates.

### 2. COVID-19 Pandemic

The COVID-19 pandemic has resulted in the Canadian and Provincial governments enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, social distancing, restrictions on business operations and isolation/quarantine periods have caused material disruptions to communities and businesses, resulting in an economic slowdown.

In response, the First Nation received from Indigenous Services Canada, \$7,724,725 in additional funding to assist with implementation of public health measures, income assistance initiatives, costs related to reopening as well as flexible funding through the Indigenous Community Support Fund.

The entity implemented remote work arrangements for those able to do so, and implemented stringent health and safety procedures and other precautionary measures, guided by public health authorities, to limit the spread of COVID-19 and the impact of the pandemic on the entity's operations and programs.

Effective September 16, 2021, the Province of Alberta declared a state of public health emergency and instituted new temporary measures. The impact of these new measures as well as longevity of the COVID-19 pandemic remains uncertain and as such it is not possible to estimate the effect on the financial results and condition on the entity and its operations in future periods..

The trust fund accounts held in Ottawa arise from monies derived from capital and revenue sources which the Crown considers are described in Section 62 of the Indian Act. These funds are held in trust by the Government of Canada and the Crown treats these funds as primarily governed by sections 64 and 69 of the Indian Act.

The Heritage Royalty Trust Fund Capital Account was established in 1996 and is funded via the Ottawa Trust Fund Capital Account. The required annual contribution is graduated and ranges from a minimum of \$1 million to 50% of actual receipts over \$20 million. Commencing with the year ended March 31, 2010, the Nation has suspended the transfer.

These funds are treated by Canada as held in trust in the Consolidated Revenue fund of the Government of Canada. The funds attract interest pursuant to Section 61(2) of the Indian Act.

Subsequent to year end, \$55.4 million was transferred from the Heritage Trust Capital Account held by the federal government through the Ottawa Trust to the Ozija Thiha Legacy Trust administered by the appointed Trustees selected by the Bearspaw Chief and Council in accordance with the provisions of a trust deed.

### 11. Capital lease obligations

Leases that transfer substantially all the benefits and risks incidental to the ownership of property are recorded as capital leases. At the inception of a capital lease, an asset and an obligation are recorded at an amount equal to the lesser of the present value of the minimum lease payments and the property's fair value at the beginning of the lease. Amortization is based upon the assets estimated useful life using the methods and rates described in Note 13.

The amount of inventory expensed through cost of sales during the year was \$23,574,196 (2020 - \$19,675,446). The Nation evaluates the amount of obsolete inventory on hand at the end of each fiscal year and records a new provision for obsolete inventory with a reversal of the prior fiscal year's allowance. The adjustments are recorded with offsets to cost of sales. No provision was deemed necessary at the end of either fiscal year.

#### 16. CMHC replacement reserve

Under the terms of an agreement with Canada Mortgage and Housing Corporation, the First Nation is required to provide a replacement reserve. This reserve is to ensure replacement of buildings financed by Canada Mortgage and Housing Corporation. These funds, along with accumulated interest, must be held in a separate bank account and/or invested only in accounts or instruments insured by Canada Deposit Insurance Corporation. At the year end, the replacement reserve was underfunded.

#### **17. Contingent Liabilities**

##### **A. Legal**

Stoney First Nation has been named as defendant in certain legal proceedings. The Nation is actively defending all lawsuits.

The Nation is currently defending claims for wrongful dismissal. Since the claims are at a preliminary stage, the amount of loss, if any, cannot be reasonably estimated. Should a loss be incurred, it will be expensed in the year the liability is determined.

There are also several proceedings in the Federal Court and Court of Queen's Bench of Alberta with respect to logging on the Stoney First Nation reserves as well as Treaty Land Entitlement in which the Stoney First Nation is plaintiff which were pending as of March 31, 2021. The Crown is a defendant in certain of these proceedings and is also a plaintiff in one of the proceedings.

The Stoney First Nation is also a plaintiff in three actions filed by the Court of Queen's Bench of Alberta and the Supreme Court of British Columbia regarding aboriginal title and aboriginal and treaty rights of the Stoney First Nation in Alberta and British Columbia respectively and in the Court of Queen's Bench for Saskatchewan regarding aboriginal and treaty rights of the Stoney First Nation in lands and resources in certain areas of Saskatchewan. All three actions also raise fundamental issues in relation to the nature and scope of Treaty No. 7.

##### **B. Contributions**

Government contributions related to the projects of the First Nation are subject to conditions regarding the expenditure of funds. The First Nation's accounting records are subject to audit by the various funding agencies. Should any instances be identified in which the amounts charged to projects are not in accordance with the agreed terms and conditions, amounts would be refundable to the respective funding agencies. Adjustments to the consolidated financial statements as a result of these audits will be recorded in the period in which they become known.

At March 31, 2021, Stoney First Nation has an unfunded liability for Chief and Council service appreciation and severance pay. The amount will be funded by accessing Band funds in the year the amount becomes payable.

### Notes to Consolidated Financial Statements

#### 19. Financial instruments

Transacting in financial instruments may result in an entity assuming or transferring to another party one or more of the financial risks described below. The required disclosures provide information that assists users of financial statements in assessing the extent of risk related to financial instruments. COVID-19 (see note 2) has resulted in an increase in risk of these financial instruments. The entity cannot predict changes in these risks or the impact on operating results. Such changes related to the COVID-19 pandemic, could have a material effect in the entity's operations and financial condition. These risks include:

a) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk. The entity is exposed to market risk as follows:

i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. At the year-end date the entity did not have any financial assets and financial liabilities that are denominated in foreign currencies.

The COVID-19 pandemic has resulted in an increase in currency risk by increasing volatility in currency markets. The Nation cannot predict changes in currency exchange rates or the impact of exchange rates on operating results. Such changes, including negative impacts on currency exchange rates related to the COVID-19 pandemic, could have a material effect in the Nations operations and financial condition.

ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The entity's interest-bearing financial instruments include fixed rate guaranteed investment certificates, government bonds and fixed rate long-term debt. The fair values of fixed rate financial instruments fluctuate as market rates of interest change. The entity does not employ derivative financial instruments to hedge its exposure to interest rate risk.

iii) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices, other than those arising from interest rate risk or foreign currency risk, whether those changes are caused by factors specific to the individual financial instrument or issuer, or factors affecting all similar financial instruments or issuers. The entity's investments in long-term bonds expose the entity to price risks as these instruments are subject to price changes in an open market for a variety of reasons including, investor sentiment and expectations, changes in market rates of interest, general economic indicators and restrictions of credit markets. The entity does not employ derivative financial instruments to hedge its exposure to other price risk. Management mitigates this risk by continuously monitoring the market on these instruments.

COVID-19 has resulted in an increase in other price risk by increasing volatility in investment markets. The Nation cannot predict changes in economic conditions that impact individual financial instruments or similar financial instruments or issuers. Such changes arising from the COVID-19 pandemic, could have a material effect in the Nations operations and financial condition.

b) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The entity's exposure to credit risk relates to investment in bonds and arises from the possibility that a debtor does not fulfil its obligations. Management believes this risk is minimized through its policy that only bonds valued over a certain rating will be purchased. The entity performs continuous evaluation of its financial assets and records impairment in accordance with the stated policy.

The COVID-19 pandemic has resulted in an increase in credit risk for the Nation. If a key funder experiences financial difficulty or fails to comply with their contractual obligations, which may occur as the COVID-19 pandemic continues, this could result in significant financial loss to the Nation.

#### **20. Impairment of oil and gas properties**

Oil and gas properties are assessed for impairment annually to determine if the carrying amount exceeds the recoverable amount. During the year ended March 31, 2021, an asset impairment of \$nil (2020 - \$nil) was recognized on the carrying value of the oil and gas properties.

#### **21. Employment Retirement Plan**

The organization has a defined contribution plan for its employees. Participation in the pension plan is available to substantially all employees. Employees may contribute between 3.5% and 7.5% of their gross pay with the organization making a matching contribution to the plan. Any voluntary amounts paid by the employee are not matched. Total employer contributions for 2021 were \$1,148,788 (2020 - \$1,109,512).

#### **22. Flood relief recovery**

In June 2013, the Nation experienced flooding which resulted in damages to roads, housing and infrastructure. The Nation requested relief from the Government of Alberta through the Government's Disaster Relief Plan. As at March 31, 2021, the Nation has a receivable of \$1,051,280 (2020 - \$1,052,169) with respect expenditures submitted under the plan.

#### **23. Economic Dependence**

Stoney First Nation receives a significant portion of its revenue pursuant to funding agreements with Indigenous Services Canada and Health Canada.

#### **24. Comparative Amounts**

Certain of the comparative amounts have been reclassified to conform with the presentation adopted in the current year.
