MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying consolidated financial statements of Fort Nelson First Nation for the year ended March 31, 2015 are the responsibility of management and have been approved by the Chief and Council.

The consolidated financial statements have been prepared by management in accordance with Canadian public sector accounting standards. A summary of the significant accounting policies is described in Note 1 to the consolidated financial statements. Financial statements are not precise since they include certain amounts based on estimates and judgments. When alternative accounting methods exist, management has chosen those it deems most appropriate in the circumstances, in order to ensure that the financial statements are presented fairly, in all material aspects.

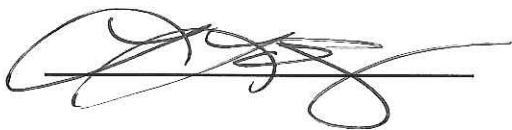

Fort Nelson First Nation's management is responsible for maintaining systems of internal accounting and administrative controls of high quality, consistent with reasonable cost. Such systems are designed to provide reasonable assurance that the financial information is relevant, reliable and accurate and Fort Nelson First Nation's assets are appropriately accounted for and adequately safeguarded.

Fort Nelson First Nation's Chief and Council are responsible for ensuring that management fulfills its responsibilities of financial reporting and is ultimately responsible for reviewing and approving the consolidated financial statements.

The Chief and Council meets periodically with management, as well as the external auditor, to discuss internal controls over the financial reporting process, auditing matters and financial reporting issues, to satisfy themselves that each party is properly discharging its responsibilities, and to review the consolidated financial statements and the external auditor's report.

The consolidated financial statements have been audited by MNP LLP in accordance with Canadian generally accepting auditing standards on behalf of the members. MNP LLP has full and free access to the Chief and Council with regard to audit requirements.

On behalf of Fort Nelson First Nation

INDEPENDENT AUDITOR'S REPORT

To the Members,
Fort Nelson First Nation:

We have audited the accompanying consolidated financial statements of Fort Nelson First Nation, which comprise the consolidated statements of financial position as at March 31, 2015 and the consolidated statements of change in net financial assets, remeasurement gains (losses), operations and accumulated surplus (deficit) and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

First Nation's Management's Responsibility for the Consolidated Financial Statements

First Nation's Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatements of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Basis for Qualified Opinion

One of Fort Nelson First Nation's controlled organizations consolidated in the financial statements derives a portion of its revenue from cash sales, the completeness of which is not susceptible to satisfactory audit verification. Accordingly, our verification of these revenues was limited to the amounts recorded in the records of the organization and we were not able to determine whether any adjustments might be necessary to cash revenues, accumulated surplus (deficit), assets and net assets.

Qualified Opinion

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion paragraph, these consolidated statements present fairly, in all material respects, the financial position of the First Nation as at March 31, 2015 and the results of its operations, changes in its net financial assets and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Other Matters

The financial statements of Fort Nelson First Nation for the year ended March 31, 2014 were audited by KNV Chartered Accountants LLP of Kelowna, British Columbia, prior to its merger with MNP LLP. KNV Chartered Accountants LLP expressed a qualified opinion on those statements on July 8, 2014.

FORT NELSON FIRST NATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2015

PURPOSE OF FORT NELSON FIRST NATION

Fort Nelson First Nation (the First Nation) is a First Nations village government operating out of Fort Nelson, British Columbia. The First Nation is responsible for the well-being of its community and enacts legal policies and programs in the areas of Administration, Capital, Child Development, Economic Development, Lands, Education, Health, Housing, Social Services and Other Investments. The First Nation is also mandated to take actions to protect the well-being of members and the community and to establish cultural programs and undertake initiatives in economic development.

1. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Accounting

These consolidated financial statements have been prepared in accordance with Canadian public sector accounting standards.

(b) Reporting Entity

Included in the reporting entity are the First Nation and all related entities that are controlled by the First Nation.

(c) Principles of Consolidation

All fully owned and controlled entities are consolidated on a line-by-line basis except for the commercial enterprises which meet the definition of a government business enterprise, which are included in the consolidated financial statements on a modified equity basis and certain not-for profit organizations which are not consolidated. Inter-organizational balances and transactions are eliminated upon consolidation.

Organizations consolidated in Fort Nelson First Nation's consolidated financial statements include:

1. Liard Hotsprings Lodge (FNFN) Ltd.
2. FNFN Gravel Pits Ltd.

Organizations accounted for on a modified equity basis include:

1. 672465 B.C. Ltd.
2. Eh Cho Dene GP Ltd.
3. Eh Cho Dene Enterprises Limited Partnership
4. Waterways Communication Limited Partnership
5. Waterways Communication Inc. (inactive)

Not-for-profit organizations include:

1. Fort Nelson First Nation Future Generations Society
2. Fort Nelson Indian Band Lands Trust Society (inactive)

FORT NELSON FIRST NATION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - MARCH 31, 2015 (Continued)

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(d) Financial Instruments

i. Measurement

The First Nation initially measures its financial assets and liabilities at fair value, except for certain non-arm's length transactions.

The First Nation subsequently measures all its financial assets and financial liabilities at amortized cost, except for investments in equity instruments that are quoted in an active market, which are measured at fair value.

Financial assets comprise of cash and cash equivalents, accounts receivable and portfolio investments and the investment in partnership.

Financial liabilities comprise of accounts payable and accrued liabilities, deferred revenue, promissory note and long-term debt.

Fair value is determined by the price that is quoted in an active market. The most recent quoted price becomes its new carrying value. When a quoted price in an active market is not available for an equity instrument that is a portfolio investment, it is measured at cost.

For financial instruments measured using amortized cost, the effective interest rate method is used to determine interest revenue or expense.

ii. Impairment

Financial assets measured at cost are tested for impairment when there are indicators of impairment. The amount of the write-down is recognized in the statement of operations. The previously recognized impairment loss may be reversed to the extent of the improvement, directly or by adjusting the allowance account, provided it is no greater than the amount that would have been reported at the date of the reversal had the impairment not been recognized previously. The amount of the reversal is recognized in the statement of operations.

iii. Transaction Costs

Transaction costs are a component of cost for financial instruments measured using cost or amortized cost. Transaction costs are expensed for financial instruments measured at fair value.

(e) Cash and Cash Equivalents

Cash and cash equivalents represent operating cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts with an initial maturity of less than three months and which are subject to an insignificant risk of changes in value.

(f) Portfolio Investments

The First Nation has investments in Guaranteed Investment Certificates (GIC's) and equity instruments that either have no maturity dates or have a maturity of greater than three months at the time of acquisition. GIC's and other investments not quoted in an active market are reported at cost or amortized cost. The First Nation's investment in partnership is reported at cost.

FORT NELSON FIRST NATION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - MARCH 31, 2015 (Continued)

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) Portfolio Investments (Continued)

Portfolio investments in equity instruments that are quoted in an active market are recorded at fair value and the associated transaction costs are expensed upon initial recognition. The change in the fair value is recognized in the Consolidated Statement of Remeasurement Gains (Losses) as a remeasurement gain or loss until the portfolio investments are realized on disposal. Upon disposal, any accumulated remeasurement gains or losses associated with the portfolio investments are reclassified to the Consolidated Statement of Operations.

Impairment is defined as a loss in value of a portfolio investment that is other than a temporary decline and is included in the Consolidated Statement of Operations. In the case of an item in the fair value category, a reversal of any net remeasurement gains recognized in previous reporting periods up to the amount of the write-down is reported in the Consolidated Statement of Remeasurement Gains (Losses). The loss is not reversed if there is a subsequent increase in value.

(g) Inventory for Resale

Inventory is recorded at the lower of cost (first-in, first-out basis) and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the costs necessary to make the sale.

(h) Tangible Capital Assets

Material tangible capital assets are recorded at cost which includes all amounts that are directly attributable to acquisition, construction, development or betterment of the asset. Maintenance and repair costs are recognized as an expense when incurred. Betterments that significantly increase or prolong the service life or capacity of a tangible capital asset are capitalized.

Tangible capital assets are written down when conditions indicate that they no longer contribute to the First Nation's ability to provide goods and services, or when the value of future economic benefits associated with the tangible capital assets are less than their net book value. The net write-downs are accounted for as expenses in the consolidated statement of operations.

Contributed capital assets are recorded at fair value when received and shown as revenue in the capital fund, except in circumstances where fair value cannot be reasonably determined, in which case they are recognized at nominal value.

Revenue received for operations and used to purchase tangible capital assets are recorded in the individual funds with an offsetting transfer to the capital asset fund for the amount of the tangible capital asset. Revenue received directly for tangible capital assets are recorded in the capital asset fund where the amortization is expensed. Any gains or losses on the disposal of the capital assets are recorded in the capital asset fund.

All intangibles and items inherited by right of the First Nation, such as reserve lands, forests, water, and mineral resources, are not recognized as assets in the First Nation's consolidated financial statements.

The First Nation's assets under construction consist of the material and labour costs for projects under construction that were not completed at March 31, 2015.

Historic works of art and treasures are not recorded as assets in these consolidated financial statements.

FORT NELSON FIRST NATION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - MARCH 31, 2015 (Continued)

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Budgets

Budget information has been included when the information is available. These budgets have been prepared by department managers and approved by Chief and Council.

(j) Revenue Recognition

Funding received under funding arrangements which relates to a subsequent period is reflected as deferred revenue in the year of receipt and classified as such on the consolidated statement of financial position. Funding is recognized when conditions have been met.

Investment income reported on investments not subject to significant influence is recorded as revenue in the period earned.

Rental and other revenue is recognized when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Government transfers are recognized in the consolidated financial statements in the period in which events giving rise to the transfer occur, providing the transfers are authorized, any eligibility criteria have been met and reasonable estimates of the amount can be made.

(k) Amortization

Tangible capital assets controlled by the First Nation are amortized over their estimated useful lives on a straight-line basis using the following annual rates:

Buildings	4%
Automotive equipment	10%
Computer and office equipment	10%-20%
Machinery and equipment	10%
Roads and land improvements	4%-8%
Service installations	5%

Amortization on Social Housing assets acquired under housing programs sponsored by CMHC are recorded at a rate equivalent to the annual principal reduction in related long-term debt, which is estimated to be their useful life.

Assets under construction are not amortized until the asset becomes available for use.

(l) Asset Classification

Assets are classified as either financial or non-financial. Financial assets are assets that could be used to discharge existing liabilities or finance future operations. Financial assets include cash and cash equivalents, portfolio investments, trust funds held by federal government and investments in a partnership and government business enterprises. Non-financial assets are not available to discharge existing liabilities and are held for use in the provision of services. Non-financial assets have useful lives extending beyond the current year and are not intended for sale in the ordinary course of operations. Non-financial assets include tangible capital assets and prepaid expenses.

FORT NELSON FIRST NATION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - MARCH 31, 2015 (Continued)

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(m) Leases

Leases are classified as capital or operating leases. Leases which transfer substantially all the benefits and risks incidental to ownership of the property are accounted for as capital leases. All other leases are accounted for as operating leases and the related lease payments are charged to expenses as incurred.

(n) Foreign Currency Translation

Assets bought and sold during the year and transactions relating to revenues and expenses in foreign currencies are translated into Canadian dollars at the rate prevailing at the transaction dates. Monetary assets and liabilities in foreign currencies at the close of the year are translated into Canadian dollars at the rate prevailing at the year-end.

Foreign exchange gains or losses arise from recording the difference between foreign currency balances translated at rates prevailing at year-end and balances translated at rates prevailing on transaction dates. As at March 31, 2015, cash and cash equivalents and portfolio investments include \$296,212 and \$986,495 respectively (2014 - \$213,274 and \$972,236) in US dollars and converted into Canadian dollars.

Unrealized foreign exchange gains and losses are recognized in the consolidated statement of remeasurement gains (losses). In the period of settlement, realized foreign exchange gains and losses are recognized in the consolidated statement of operations, and the cumulative amount of remeasurement gains and losses is reversed in the consolidated statement of remeasurement gains (losses).

(o) Expenses

Expenses are recognized in the fiscal year that the events giving rise to the expense occur and resources are consumed.

(p) Segment Disclosure

A segment is defined as a distinguishable activity or group of activities of the First Nation for which it is appropriate to separately report financial information to achieve the objectives of the First Nation. The objectives of disclosing information about segments are to:

- i. help users of the consolidated financial statements identify the resources allocated to support the major activities of the First Nation;
- ii. help users of the consolidated financial statements make more informed judgments about the First Nation and about its major activities;
- iii. help users of the consolidated financial statements better understand the manner in which the organizations in the First Nation are organized and how the First Nation discharges its accountability obligations;
- iv. enhance the transparency of financial reporting; and
- v. help users of the consolidated financial statements better understand the performance of the segments and the First Nation.

FORT NELSON FIRST NATION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - MARCH 31, 2015 (Continued)

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(p) Segment Disclosure (Continued)

The First Nation identifies its segments based on specific projects and funding arrangements which have been disclosed in the consolidated financial statements. The accounting policies used in these segments are consistent with those followed in the preparation of the consolidated financial statements, other than the inter-segment transfers, such as revenue from transactions with other segments, which are measured at the transfer price used by the First Nation and are not eliminated in the segment disclosure note.

(q) Use of Estimates

The preparation of consolidated financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Accounts receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary. Amortization is based on the estimated useful lives of tangible capital assets. Liabilities for contaminated sites are based on the best information available regarding potentially contaminated sites that the First Nation is responsible for.

Estimates are based on the best information available at the time of preparation of the consolidated financial statements and are reviewed periodically to reflect new information as it becomes available. Measurement uncertainty exists in these consolidated financial statements. Actual results could differ from these estimates.

(r) Liability for Contaminated Sites

A liability for remediation of a contaminated site is recognized at the best estimate of the amount required to remediate the contaminated site when contamination exceeding an environmental standard exists, the First Nation is either directly responsible or accepts responsibility, it is expected that future economic benefits will be given up, and a reasonable estimate of the amount is determinable. The best estimate of the liability includes all costs directly attributable to remediation activities and is reduced by expected net recoveries based on information available at March 31, 2015.

At each financial reporting date, the First Nation reviews the carrying amount of the liability. Any revisions required to the amount previously recognized is accounted for in the period revisions are made. The First Nation continues to recognize the liability until it is settled or otherwise extinguished. Disbursements made to settle the liability are deducted from the reported liability when they are made.

As at March 31, 2015, the First Nation's estimated liability for contaminated sites was \$NIL.

(s) Trust funds

Trust funds account for assets which must be administered as directed by agreement or statute for certain beneficiaries. In accordance with PSAB recommendations on financial statement presentations for local governments, trust funds not controlled by the First Nation are not included in the First Nation's consolidated financial statements. Trust funds administered by the First Nation are presented in Note 17.

FORT NELSON FIRST NATION**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - MARCH 31, 2015 (Continued)**

2. CHANGES IN ACCOUNTING POLICIES

Effective April 1, 2014, the First Nation adopted the recommendations to PS 3260, *Liability for Contaminated Sites*, as set out in the Canadian public sector accounting standards. Pursuant to the recommendations, the change was applied prospectively, and prior periods have not been restated.

Previously, no accounting policy existed to account for a liability for contaminated sites. Under the new recommendations, the First Nation is required to recognize a liability for contaminated sites when economic benefits will be given up, as described in Note 1, *Significant Accounting Policies*.

There was no effect on the First Nation's financial statements of adopting the above-noted change in accounting policy.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Unless otherwise noted, it is management's opinion that the First Nation is not exposed to significant credit, interest or liquidity risks arising from the financial instruments disclosed on the statement of financial position.

(a) Interest Rate Risk

Interest rate risk is the risk to the First Nation's earnings that arises from fluctuations in market interest rates and the degree of volatility of these rates. The First Nation does not use derivative instruments to reduce its exposure to interest rate risk. Management expects interest rates to remain relatively constant for the coming year and therefore considers the related risk to be low.

(b) Market Risk

Market risk relates to the possibility that the equity investments will change in value due to future fluctuations in market prices. The First Nation does not use derivative instruments to reduce its exposure to market risk.

(c) Fair Values

Due to their short-term nature, the carrying values of cash and cash equivalents, portfolio investments, accounts receivable, accounts payable, accrued liabilities and deferred revenue approximate their fair values. The terms and interest rates of the First Nation's long-term debt are similar to those currently offered for similar loans, therefore the carrying values of these loans are also considered to approximate their fair values.

FORT NELSON FIRST NATION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - MARCH 31, 2015 (Continued)

20. CONTINGENT LIABILITIES (Continued)

(b) Guarantor

The First Nation is a guarantor on an operating line of credit and a revolving term loan for Eh Cho Dene Enterprises Limited Partnership with authorized limits of \$750,000 and \$500,000 respectively. The balances of the operating line of credit and revolving term loan are \$NIL as at March 31, 2015.

(c) Legal Action

The First Nation has been named defendant in a legal action alleging various torts related to a road blockade. Legal council to the First Nation is unable to assess the First Nation's potential liability, if any, resulting from this action. Accordingly, no provision has been made in the accounts for such an occurrence. If any loss is eventually realized, it will be treated as a charge to income in the year incurred.

(d) Contaminated Site

The First Nation is contingently liable for costs associated with a contaminated site including the removal and replacement of fuel tanks on reserve land and the remediation of any soil contamination. The costs to remediate are uncertain and can vary depending on the extent of the environmental damage and in response to any changes in environmental standards. Accordingly, as at the date of these consolidated financial statements, the First Nation was unable to reasonably estimate the potential liability and no provision has been made in the financial statements.

(e) Decommissioning Costs

The First Nation is contingently liable for decommissioning costs that will be incurred at the end of the operating life of the fuel tanks on the First Nation's property. The ultimate decommissioning liability is uncertain and can vary in response to many factors including environmental factors, new restorative techniques and changes in legal requirements. As a result, the First Nation is unable to measure the potential liability at the date of these consolidated financial statements and, accordingly, no provision has been made in the accounts.

(f) Environmental Cleanup

The First Nation is contingently liable for costs associated with the cleanup of a diesel spill on land owned by one of the First Nation's controlled entities. As at the date of these consolidated financial statements, the First Nation was unable to reasonably estimate the amount of the cost and may vary depending on the extent of the environmental damage. The First Nation anticipates that the cost associated with these damages will be covered by insurance. Accordingly, no provision has been made in the accounts with respect to this claim.

21. CMHC ASSISTANCE

An agreement with CMHC under Section 95 of the National Housing Act provides assistance equivalent to the breakeven point as agreed between the First Nation and CMHC. The agreement provides for review of the level of assistance if the mortgage interest rate is increased or decreased on renewal.

In return for the above assistance from CMHC toward member housing charges, the First Nation has agreed to make annual housing assessments against its tenants' incomes in the minimum amount of \$77,544. If the First Nation charges annual housing assessments less than \$77,544, it has agreed to contribute the balance. The First Nation may retain operating surpluses to provide against future revenue shortfalls.
