## **Management's Responsibility**

---

To the Members of Doig River First Nation

The accompanying consolidated financial statements of Doig River First Nation are the responsibility of management and have been approved by the Chief and Council.

Management is responsible for the preparation and presentation of the accompanying consolidated financial statements, including responsibility for significant accounting judgments and estimates in accordance with Canadian public sector accounting standards. This responsibility includes selecting appropriate accounting principles and methods, and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the consolidated financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and financial records are properly maintained to provide reliable information for the preparation of the consolidated financial statements.

The Doig River First Nation Council is responsible for overseeing management in the performance of its financial reporting responsibilities, and for approving the consolidated financial statements. The Council fulfils these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with management and external auditors. The Council is also responsible for recommending the appointment of the Nation's external auditors.

MNP LLP, an independent firm of Chartered Professional Accountants, is appointed by the Chief and Council to audit the consolidated financial statements and report directly to them; their report follows. The external auditors have full and free access to, and meet periodically and separately with, both the Council and management to discuss their audit findings.

To the Members of Doig River First Nation:

We have audited the accompanying consolidated financial statements of Doig River First Nation, which comprise the consolidated statement of financial position as at March 31, 2016 and the consolidated statements of operations and accumulated surplus, change in net debt and cash flows for the year ended then ended, and a summary of significant accounting policies and other explanatory information.

#### *Management's Responsibility for the Consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditors' Responsibility*

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

#### *Opinion*

In our opinion, the consolidated financial statements present fairly in all material respects the financial position of Doig River First Nation as at March 31, 2016 and the results of its operations, change in net debt and its cash flows for the year ended then ended in accordance with Canadian public sector accounting standards.

**Doig River First Nation**  
**Notes to the Consolidated Financial Statements**  
*For the year ended March 31, 2016*

---

**1. Significant accounting policies**

The consolidated financial statements of the Doig River First Nation ("the First Nation") are the representations of management, and are prepared in accordance with Canadian public sector accounting standards established by the Public Sector Accounting Board of CPA Canada are consistent with accounting policies set out by the Department of Indigenous and Northern Affairs Canada. These consolidated financial statements are subject to review by the Nation's funding agents. It is possible that adjustments could be made based on the results of their reviews. Significant aspects of the accounting policies adopted by the First Nation are as follows:

***Basis of presentation and revenue recognition***

Sources of revenue and expenses are recorded on the accrual basis of accounting. The accrual basis of accounting recognizes revenue as it becomes available and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay.

Unrestricted government transfers are recognized when they become receivable under the terms of applicable funding agreements. Restricted government transfers are deferred and recognized as revenue in the period in which the resources are used for the purposes specified.

Oil and gas royalties are paid in trust to the Government of Canada on behalf of the Doig River First Nation pursuant to the provisions of the Indian Oil and Gas Act and Regulations. This revenue is recognized in the accounts of the Doig River First Nation when reported by the Government of Canada.

Resource and M.O.U. revenue are recognized as they become receivable under the terms of the resource agreement or M.O.U.

***Reporting entity consolidated***

The financial statements consolidate the financial activities of all entities and departments comprising the First Nation reporting entity, except for First Nation business entities not dependent on the Nation for their continuing operations.

The First Nation has consolidated the assets, liabilities, revenue and expenses of the following entities and departments:

- Doig River Cattle L.P.
- Doig River Not For Profit Trust

Doig River First Nation business entities, owned or controlled by the First Nation's Council but not dependent on the First Nation for their continuing operations, are included in the consolidated financial statements using the modified equity method. Under the modified equity method, the equity method of accounting is modified only to the extent that the business entity accounting principles are not adjusted to conform to those of the First Nation. Thus, the First Nation's investment in these entities is recorded at acquisition cost and is increased for the proportionate share of post acquisition earnings and decreased by post acquisition losses and distributions received. Entities accounted for by the modified equity basis include:

- Six Nations Ventures L.P. - 16.6%
- Alamo Contracting L.P.
- Doig River Timber L.P.

**Doig River First Nation**  
**Notes to the Consolidated Financial Statements**  
*For the year ended March 31, 2016*

---

**1. Significant accounting policies** *(Continued from previous page)*

***Tangible capital assets***

Tangible capital assets are recorded at cost which includes all amounts that are directly attributable to acquisition, construction, development or betterment of the asset.

***Amortization***

Amortization for tangible capital assets is provided using the following methods at rates intended to amortize the cost, less residual value, of the assets over their estimated useful lives.

	<b>Method</b>	<b>Rate</b>
Housing	declining balance	5 %
Infrastructure	declining balance	4 %
Buildings	declining balance	4 %
Buildings - D.R.C.C.	declining balance	4 %
Land - D.R.C.C.	none	0 %
Land - Fort St. John	none	0 %
Land - Traplines	none	0 %
Equipment	declining balance	20 %
Automotive equipment	declining balance	20 %
Computer equipment	declining balance	30 %

***Long-lived assets and discontinued operations***

Long-lived assets consist of tangible capital assets. Long-lived assets held for use are measured and amortized as described in the applicable accounting policies.

The Nation performs impairment testing on long-lived assets held for use whenever events or changes in circumstances indicate that the carrying amount of an asset, or group of assets, may not be recoverable. Impairment losses are recognized when undiscounted future cash flows from its use and disposal are less than the asset's carrying amount. Impairment is measured as the amount by which the asset's carrying amount exceeds its fair value. Any impairment is included in surplus for the year ended.

***Asset classification***

Assets are classified as either financial or non-financial. Financial assets are assets that could be used to discharge existing liabilities or finance future operations. Non-financial assets are acquired, constructed or developed assets that do not normally provide resources to discharge existing liabilities but are employed to deliver government services, may be consumed in normal operations and are not for resale in the normal course of operations. Non-financial assets include tangible capital assets and prepaid expenses.

***Net financial assets (net debt)***

The First Nation's consolidated financial statements are presented so as to highlight net financial assets (net debt) as the measurement of financial position. The net financial assets (net debt) of the First Nation is determined by its financial assets less its liabilities. Net financial assets (net debt) combined with non-financial assets comprise a second indicator of financial position, accumulated surplus (deficit).

***Use of estimates***

The preparation of consolidated financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results may vary from current estimates. These estimates are reviewed periodically and, as adjustments become necessary, they are reported in income in the periods in which they become known.

Accounts receivable, and advances and loans to members, are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary. Investment in Nation business entities is stated after evaluation as to valuation and collectability of advances. Amortization is based on the estimated useful lives of tangible capital assets.

**Doig River First Nation**  
**Notes to the Consolidated Financial Statements**  
*For the year ended March 31, 2016*

---

**1. Significant accounting policies** *(Continued from previous page)*

***Segments***

The First Nation conducts its business through 8 reportable segments:

I.N.A.C

Province of British Columbia

First Nations Health Authority

Trust Funded Programs

Industry Agreements

Band Owned Companies

Lands and Resources

Other

These operating segments are established by senior management to facilitate the achievement of the Nation's long-term objectives to aid in resource allocation decisions, and to assess operational performance.

For each reported segment, revenue and expenses represent both amounts that are directly attributable to the segment and amounts that are allocated on a reasonable basis. Therefore, certain allocation methodologies are employed in the preparation of segmented financial information.

The accounting policies used in these segments are consistent with those followed in the preparation of the consolidated financial statements as disclosed in this Note.

***Financial instruments***

The First Nation recognizes its financial instruments when the First Nation becomes party to the contractual provisions of the financial instrument. All financial instruments are initially recorded at their fair value.

The First Nation subsequently measures investments in equity instruments quoted in an active market, except those that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, at fair value. Fair value is determined by published price quotations. Transactions to purchase or sell these items are recorded on the trade date. Net gains and losses arising from changes in fair value are recognized in the statement of remeasurement gains and losses. Investments in equity instruments not quoted in an active market and derivatives that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, are subsequently measured at cost. With the exception of those instruments designated at fair value, all other financial assets and liabilities are subsequently measured at amortized cost using the effective interest rate method.

Transaction costs directly attributable to the origination, acquisition, issuance or assumption of financial instruments subsequently measured at fair value are immediately recognized in operating surplus (deficit). Conversely, transaction costs are added to the carrying amount for those financial instruments subsequently measured at amortized cost or cost.

Management considers whether the investee has experienced continued losses for a period of years in determining whether objective evidence of impairment exists. Any impairment, which is not considered temporary, is recorded in the statement of operations. Write-downs of financial assets measured at cost and/or amortized cost to reflect losses in value are not reversed for subsequent increases in value. Reversals of any net remeasurements of financial assets measured at fair value are reported in the statement of remeasurement gains and losses.

**1. Significant accounting policies** *(Continued from previous page)*

***I.N.A.C capital and revenue trust funds***

Funds held in trust on behalf of First Nation members by the Government of Canada are reported on the statement of financial position with an offsetting amount in accumulated operating surplus. Trust moneys consist of:

- Capital trust moneys derived from non-renewable resource transactions on the sale of land or other First Nation tangible capital assets; and
- Revenue trust moneys generated primarily through land leasing transactions or interest earned on deposits held in trust.

***Investments***

Long-term investments in entities that are not owned, controlled or influenced by the First Nation are accounted for using the cost method. They are recorded at cost, less any provision for other than temporary impairment.

**2. Accounts receivable**

	<b>2016</b>	<b>2015</b>
Oil companies	<b>619,662</b>	773,449
I.N.A.C.	-	36,210
Other	<b>847,393</b>	270,798

**11. Long term debt** *(Continued from previous page)*

Principal repayments on long term debt in each of the next five years, assuming all term debt is subject to contractual terms of repayment and long-term debt subject to refinancing is renewed, are estimated as follows:

	<b>Principal</b>
2017	196,381
2018	182,117
2019	1,175,519
2020	172,229
Thereafter	1,876,361
	<hr/>
	3,602,607

**12. I.N.A.C. Treaty Land Entitlement debt**

Doig River First Nation is negotiating a Treaty Land Entitlement (TLE) claim with the Government of Canada. I.N.A.C. has made loans to assist the Nation fund these negotiations. Should a loan become due and payable while the claim is still in negotiation, the loan repayment date will be extended for five years or a period deemed appropriate to coincide with the anticipated claim settlement date.

There are nine components to the loans:

TLE component one, with a balance of \$947,454, is repayable on the earlier of March 31, 2020 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component two, with a balance of \$383,039, is repayable on the earlier of March 31, 2017 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component three, with a balance of \$639,301, is repayable on the earlier of March 31, 2018 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component four, with a balance of \$691,331 is repayable on the earlier of March 31, 2019 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component five, with a balance of \$946,390 is repayable on the earlier of March 31, 2020 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component six, with a balance of \$1,089,201 is repayable on the earlier of March 31, 2021 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component seven, with a balance of \$450,885 is repayable on the earlier of March 31, 2017 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component eight, with a balance of \$449,824 is repayable on the earlier of March 31, 2018 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component nine, with a balance of \$151,032 is repayable on the earlier of March 31, 2019 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

**Doig River First Nation**  
**Notes to the Consolidated Financial Statements**  
*For the year ended March 31, 2016*

**13. Due to Doig S.E.D. Trust**

	<b>2016</b>	<b>2015</b>
S.E.D. - Alamo Contracting L.P.	\$ 945,533	\$ 1,022,034
S.E.D. - Doig Loan	608,310	647,236
	<b>1,553,843</b>	<b>1,670,770</b>

During the current year the Doig S.E.D. Trust loaned Doig River First Nation \$nil (2015 - \$670,00) which bears no interest and is payable as soon as the funds are available. Doig River First Nation made \$38,926 in payments to Doig S.E.D Trust.

The S.E.D. - Alamo Contracting Limited Partnership loan bears no interest and is payable as soon as the funds are available. During the current year Alamo Contracting Limited Partnership made \$78,000 (2014 - \$nil) in payments to Doig S.E.D. Trust.

**14. Financial Instruments**

The First Nation as part of its operations carries a number of financial instruments. It is management's opinion that the First Nation is not exposed to significant interest, currency or credit risks arising from these financial instruments except as otherwise disclosed.

***Risk Management Policy***

The First Nation, as part of operations, has established risk management objectives such as avoidance of undue concentrations of risk. In seeking to meet these objectives, the First Nation follows a risk management policy approved by Chief and Council.

***Credit Risk***

Credit risk is the risk of financial loss because a counter party to a financial instrument fails to discharge its contractual obligations.

***Risk management***

The First Nation manages its credit risk by provides allowances for potentially uncollectible accounts receivable.

***Interest rate risk***

Interest rate risk is the risk that the value of a financial instrument might be adversely affected by a change in the interest rates. Changes in market interest rates may have an effect on the cash flows associated with some financial assets and liabilities, known as cash flow risk, and on the fair value of other financial assets or liabilities, known as price risk.

The Nation is exposed to interest rate risk with respect to its bank indebtedness and certain long-term debt amounts which are subject to floating interest rates. The Nation is exposed to significant interest rate price risk with respect to certain long-term debt amounts which bear interest at rates agreed upon at the time of issuance

**15. Comparative figures**

Certain comparative figures have been reclassified to conform with current year end's presentation.
