Management's Responsibility

To the Members of Doig River First Nation

The accompanying consolidated financial statements of Doig River First Nation are the responsibility of management and have been approved by the Chief and Council.

Management is responsible for the preparation and presentation of the accompanying consolidated financial statements, including responsibility for significant accounting judgments and estimates in accordance with Canadian public sector accounting standards. This responsibility includes selecting appropriate accounting principles and methods, and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the consolidated financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and financial records are properly maintained to provide reliable information for the preparation of consolidated financial statements.

The Doig River First Nation Council is responsible for overseeing management in the performance of its financial reporting responsibilities, and for approving the consolidated financial statements. The Council fulfils these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with management and external auditors. The Council is also responsible for recommending the appointment of the Nation's external auditors.

MNP LLP is appointed by the Chief and Council to audit the consolidated financial statements and report directly to them; their report follows. The external auditors have full and free access to, and meet periodically and separately with, both the Council and management to discuss their audit findings.

Independent Auditor's Report

To the Members of Doig River First Nation:

Opinion

We have audited the consolidated financial statements of Doig River First Nation and its subsidiaries (the "First Nation"), which comprise the consolidated statement of financial position as at March 31, 2020, and the consolidated statements of operations and accumulated surplus, remeasurement gains and losses, changes in net financial assets (net debt) and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the First Nation as at March 31, 2020, and the results of its consolidated operations, its consolidated remeasurement gains and losses, changes in its consolidated net debt and its consolidated cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the First Nation in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the First Nation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the First Nation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the First Nation's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the First Nation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the First Nation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the First Nation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the First Nation to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Restricted cash	6,968	183,224
	1,706,544	3,995,421

The accompanying notes are an integral part of these financial statements

1. Significant accounting policies

These consolidated financial statements are the representations of management, prepared in accordance with Canadian public sector accounting standards established by the Public Sector Accounting Board of CPA Canada are consistent with accounting policies set out by the Department of Indigenous Services Canada. Significant aspects of the accounting policies adopted by the First Nation are as follows:

Reporting entity consolidated

The financial statements consolidate the financial activities of all entities and departments comprising the First Nation reporting entity, except for First Nation business entities. Trusts administered on behalf of third parties by Doig River First Nation are excluded from the First Nation reporting entity.

The First Nation has consolidated the assets, liabilities, revenue and expenses of the following entities and departments:

- Doig River Cattle L.P.
- Doig River Not For Profit Trust
- Community Development Trust

All inter-entity balances have been eliminated on consolidation; however, transactions between departments have not been eliminated in order to present the results of operations for each specific department.

Doig River First Nation business entities, owned or controlled by the First Nation's Council but not dependent on the First Nation for their continuing operations, are included in the financial statements using the modified equity method. Under the modified equity method, the equity method of accounting is modified only to the extent that the business entity accounting principles are not adjusted to conform to those of the First Nation. Thus, the First Nation's investment in these entities is recorded at acquisition cost and is increased for the proportionate share of post acquisition earnings and decreased by post acquisition losses and distributions received. Entities accounted for by the modified equity basis include:

- Six Nations Ventures L.P. - 16.6%
- Uujo Development L.P.
- Uujo Management G.P. Ltd.

Investments in First Nation partnerships are accounted for using the proportionate consolidation method. The First Nation's pro-rata share of the assets, liabilities, revenue, and expenses of the First Nation partnership have been combined on a line-by-line basis with similar items of the First Nation.

Basis of presentation

Sources of revenue and expenses are recorded on the accrual basis of accounting. The accrual basis of accounting recognizes revenue as it becomes available and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay.

Unrestricted government transfers are recognized when they become receivable under the terms of applicable funding agreements. Restricted government transfers are deferred and recognized as revenue in the period in which the resources are used for the purposes specified.

Oil and gas royalties are paid in trust to the Government of Canada on behalf of the Doig River First Nation pursuant to the provisions of the Indian Oil and Gas Act and Regulations. This revenue is recognized in the accounts of the Doig River First Nation when reported by the Government of Canada.

Resource and M.O.U. revenue are recognized as they become receivable under the terms of the resource agreement or M.O.U.

Cash and cash equivalents

Cash include balances with banks. Cash subject to restrictions that prevent its use for current purposes is included in restricted cash.

1. Significant accounting policies *(Continued from previous page)*

Inventory

Inventory is valued at the lower of cost and net realizable value. Cost is determined by the weighted average method. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and selling costs.

Tangible capital assets

Tangible capital assets are recorded at cost which includes all amounts that are directly attributable to acquisition, construction, development or betterment of the asset. Contributed tangible assets are recorded at their fair value at the date of contribution.

When conditions indicate that a tangible capital asset no longer contributes to the First Nation's ability to provide goods and services, or that the value of future economic benefits associated with a tangible capital asset is less than its net book value, the First Nation reduces the cost of the asset to reflect the decline in its value. Write-downs of tangible capital assets are not reversed.

Amortization

Amortization for other tangible capital assets is provided using the following methods at rates intended to amortize the cost of the assets over their estimated useful lives:

	<i>Method</i>	<i>Rate</i>
Housing	declining balance	5 %
Infrastructure	declining balance	4 %
Buildings	declining balance	4 %
Buildings - D.R.C.C.	declining balance	4 %
Land - D.R.C.C.	none	
Land - Fort St. John	none	
Land - Traplines	none	
Equipment	declining balance	20 %
Automotive equipment	declining balance	20 %
Computer equipment	declining balance	30 %

Investments

Long-term investments in entities that are not owned, controlled or influenced by the First Nation reporting entity are accounted for using the cost method. They are recorded at cost, less any provision for other than temporary impairment.

ISC capital and revenue trust funds

Funds held in trust on behalf of First Nation members by the Government of Canada in the Ottawa Trust Fund are reported on the statement of financial position with an offsetting amount in accumulated operating surplus. Trust moneys consist of:

- Capital trust moneys derived from non-renewable resource transactions on the sale of land or other First Nation tangible capital assets; and
- Revenue trust moneys generated primarily through land leasing transactions or interest earned on deposits held in trust.

Long-lived assets and discontinued operations

Long-lived assets consist of tangible capital assets. Long-lived assets held for use are measured and amortized as described in the applicable accounting policies.

The Nation performs impairment testing on long-lived assets held for use whenever events or changes in circumstances indicate that the carrying amount of an asset, or group of assets, may not be recoverable. The carrying amount of a long-lived asset is not recoverable if the carrying amount exceeds the sum of the undiscounted future cash flows from its use and disposal. Impairment is measured as the amount by which the asset's carrying amount exceeds its fair value. Any impairment is included in surplus for the year.

1. Significant accounting policies *(Continued from previous page)*

Asset classification

Assets are classified as either financial or non-financial. Financial assets are assets that could be used to discharge existing liabilities or finance future operations. Non-financial assets are acquired, constructed or developed assets that do not normally provide resources to discharge existing liabilities but are employed to deliver government services, may be consumed in normal operations and are not for resale in the normal course of operations. Non-financial assets include tangible capital assets, prepaid expenses and inventories of supplies.

Reclamation liability

Expenditures that relate to on-going environmental and remediation programs are charged against surplus (deficit) as incurred. A liability for reclamation reflects management's best estimate of the amount required to remediate the site. The best estimate of the liability is based upon assumptions and estimates related to the amount and timing of costs for future site reclamation.

Changes to the underlying assumptions and estimates or legislative changes in the near term could have a material impact on the provision recognized.

Net financial assets (net debt)

The First Nation's financial statements are presented so as to highlight net financial assets (net debt) as the measurement of financial position. The net financial assets (net debt) of the First Nation is determined by its financial assets less its liabilities. Net financial assets (net debt) combined with non-financial assets comprise a second indicator of financial position, accumulated surplus (deficit).

Use of estimates

The preparation of consolidated financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period.

Accounts receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary. Provisions are made for slow moving and obsolete inventory. Amortization is based on the estimated useful lives of tangible capital assets.

Inventory

Management has estimated the value of the inventory based upon their assessment of the realizable amount less selling costs.

By their nature, these judgments are subject to measurement uncertainty, and the effect on the consolidated financial statements of changes in such estimates and assumptions in future years could be significant. These estimates and assumptions are reviewed periodically and, as adjustments become necessary they are reported in earnings in the years in which they become known.

Segments

The First Nation conducts its business through nine of reportable segments: ISC - Administration, Province of British Columbia, First Nations Health Authority, Trusted Funded Programs, Industry Agreements, Band Owned Companies, Lands and Resources, Other and Community Enhancement.

These operating segments are established by senior management to facilitate the achievement of the First Nation's long-term objectives to aid in resource allocation decisions, and to assess operational performance.

For each reported segment, revenue and expenses represent both amounts that are directly attributable to the segment and amounts that are allocated on a reasonable basis. Therefore, certain allocation methodologies are employed in the preparation of segmented financial information. Administration fees have been apportioned based on a percentage of budgeted revenue, where permitted by the funder.

The accounting policies used in these segments are consistent with those followed in the preparation of the consolidated financial statements as disclosed in this Note.

Doig River First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2020

1. Significant accounting policies *(Continued from previous page)*

Financial instruments

The First Nation recognizes its financial instruments when the First Nation becomes party to the contractual provisions of the financial instrument. All financial instruments are initially recorded at their fair value.

The First Nation subsequently measures investments in equity instruments quoted in an active market and all derivative instruments, except those that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, at fair value. Fair value is determined by published price quotations. Transactions to purchase or sell these items are recorded on the trade date. Net gains and losses arising from changes in fair value are recognized in the statement of remeasurement gains and losses. Interest income is recognized in the statement of operations. Investments in equity instruments not quoted in an active market and derivatives that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, are subsequently measured at cost. With the exception of those instruments designated at fair value, all other financial assets and liabilities are subsequently measured at amortized cost using the effective interest rate method.

Transaction costs directly attributable to the origination, acquisition, issuance or assumption of financial instruments subsequently measured at fair value are immediately recognized in operating surplus (deficit). Conversely, transaction costs are added to the carrying amount for those financial instruments subsequently measured at cost or amortized cost.

All financial assets except derivatives are tested annually for impairment. Management considers whether the investee has experienced continued losses for a period of years, recent collection experience for the loan, such as a default or delinquency in interest or principal payments, in determining whether objective evidence of impairment exists. Any impairment, which is not considered temporary, is recorded in the statement of operations. Write-downs of financial assets measured at cost and/or amortized cost to reflect losses in value are not reversed for subsequent increases in value. Reversals of any net remeasurements of financial assets measured at fair value are reported in the statement of remeasurement gains and losses.

2. Accounts receivable

	2020	2019
Oil companies	624,412	1,866,285
Joint Venture	500	312,088
Other	1,443,116	1,244,045
	2,068,028	3,422,418
Less: Allowance for doubtful accounts	115,613	1,530,288
	1,952,415	1,892,130

3. Inventory for resale

	2020	2019
Inventory for resale	339,138	339,138

The cost of inventories recognized as an expense amounted to \$nil (2019 – \$nil).

4. Restricted cash

	2020	2019
CMHC replacement reserve bank account balance	6,968	183,224

5. Advances and loans to members

Doig River First Nation

Notes to the Consolidated Financial Statements

For the year ended March 31, 2020

Member loans are valued at net realizable value in keeping with accounting standards. This is strictly an accounting valuation and does not reflect the collection policy of the Nation. Doig River First Nation management has been given the directive to collect all amounts due.

	2020	2019
General member loans	623,000	674,933
Member user fees due	1,560,217	1,324,383
Allowance for doubtful accounts	(2,122,662)	(1,924,146)
	60,555	75,170

6. Investment in Venturion Oil Limited - at cost

Doig River First Nation holds 370,340 (2019 - 370,340) common shares of Venturion Oil Limited. As Doig River First Nation does not have significant influence in Venturion Oil Limited this has been recorded at cost.

7. Investments in Nation businesses

The First Nation has investments in the following entities:

Liabilities			
Current liabilities	1,460	3,597,637	133,688
Long term liabilities	-	61,503	-
Total liabilities	1,460	3,659,140	133,688
Partner capital	455,376	3,386,300	(91,641)
Total revenue	256,470	3,049,568	202,288
Total expenses	330,976	912,320	64,635
Net income (loss)	(74,506)	2,137,248	137,653

Doig River First Nation has a 16.6% interest in Six Nations Ventures Limited Partnership through Two Rivers Development Corp., which holds the assets as a trustee. The net earnings shown on these schedules is the 16.6% net-income calculated on an accrual basis and does not represent actual distributions made to Doig River First Nation.

January 1, 2019, Doig River Timber Limited Partnership and Alamo Contracting Limited Partnership re-organized into Uujo Development Limited Partnership. Doig River First Nation has a 100% interest in Uujo Development Limited Partnership through Uujo Holdings Ltd., which holds the assets as a bare trustee. The net earnings shown on these schedules are the net income calculated on an accrual basis and does not represent actual distributions made to Doig River First Nation.

Doig River First Nation has a 100% interest in Uujo Management General Partner Ltd. through Uujo Holdings Ltd., which holds the assets as a trustee. The net earnings shown on these schedules are the net income calculated on an accrual basis and does not represent actual disbursements made to Doig River First Nation.

Advances to these entities are unsecured, non interest bearing and are due on demand.

8. ISC capital and revenue trust funds

Capital and revenue trust monies are transferred to the First Nation on the authorization of the Minister of Indigenous Services Canada, with the consent of the First Nation's Council.

10. Portfolio investments - Community Development Trust *(Continued from previous page)*

The assets of the Community Development trust are made up of portfolio investments. The portfolio investments are denominated in Canadian funds and include investments in money market funds, bond funds, Canadian equity funds, and foreign equity funds. The cost of investments is \$4,987,603 (2019 - \$5,285,940). Cumulative unrealized losses as at March 31, 2019 are \$114,801 (2019 - gains of \$88,948).

Doig River Community Development Trust

The Doig River Community Development Trust (the "Trust") was established on June 23, 2016 by Doig River First Nation, to serve as a trust to manage the remainder of the Heritage Trust Fund Transfer, originally managed by Treaty 8 Heritage Trust. The Trust was amended and restated on July 26, 2017 to include the management of the Agriculture Benefits Claim settlement with the Government of Canada.

The purpose of the Trust is :

- to hold and keep invested the Trust property;
- to make an initial distribution to members of \$5,000 for the Heritage Fund Transfer, and an additional \$25,000 distribution to members for the Agriculture Benefits Claim settlement;
- to hold any payments due to members that are under the age of 19 years of age until such member reaches the age of 19;
- to use the Trust property for various community projects, that have been budgeted for and approved by majority of members.

11. Authorized line of credit

The Nation has access to a revolving facility authorized to a maximum of \$1,000,000 bearing interest at prime plus 0.5%, sharing security with RBC credit facilities, described in note 14, upon which the Nation has drawn \$nil (2019 - \$nil).

The Nation has access to a operating loan to a maximum of \$150,000, bearing interest at prime plus 0.5%, upon which the Nation has drawn \$nil (2019 - \$nil).

Doig River Cattle Company Limited Partnership has access to a demand operating credit of \$150,000 bearing interest a prime plus 0.5% sharing security with CIBC credit facilities, described in note 14, upon which they have drawn \$nil (2019 - \$nil).

12. Accounts payable and accruals

	2020	2019
Trade payables and accruals	1,119,301	1,373,692
Payroll related	206,145	94,364
Chief and Council accumulated severance	319,152	108,762

Band Housing - CIBC Mortgage repayable at \$1,803 biweekly, including interest at 3.54%, due March 2025, secured by ISC Ministerial guarantee	312,840	348,118
CIBC Loan payable at \$3,911 monthly, including interest at 4.00%, due November 2023	199,519	237,643
Band Housing - CIBC Mortgage repayable at \$1,812 monthly, including interest at 3.54%, due April 2025, secured by ISC Ministerial guarantee	144,269	160,629
Band Housing - CIBC Mortgage repayable at \$2,424 monthly, including interest at 3.54%, due April 2025,	121,378	145,738
Band Housing - CIBC Mortgage repayable at \$2,122 monthly, including interest at 3.49%, due April 2023, secured by ISC Ministerial guarantee	90,758	112,660
Band Housing - Royal Bank Mortgage repayable at \$2,075 monthly, including interest at 3.04%, due March 2023, secured by ISC Ministerial guarantee	71,419	93,761
Social Housing - Royal Bank Mortgage repayable at \$3,091 monthly, including interest at 3.05%, due December 2019,	3,164	30,554
	11,083,590	11,422,275

Some mortgages are secured by guarantees from ISC up to \$640,697 (2019 - \$712,163).

RBC credit facilities are secured by pledging of annual revenue and investments due to the Nation from contracts and agreements including but not limited to: BC Hydro Site C Impact and Benefit Agreement, Contracting Agreement and Tripartite Land Agreement with BC Hydro and the Government of British Columbia; Interim Economic Benefits Agreements with the Government of British Columbia; Petrowest Landfill Agreement; Spectra Energy Agreements, including but not limited to the Interim Agreement dated April 1, 2016; and Agricultural Benefits Agreement with the Government of Canada.

CIBC credit facilities are secured by a guarantee from Doig River Cattle Co. Ltd., a \$2,000,000 guarantee from Doig River First Nation, a band council resolution authorizing the facilities, securities and terms of the agreement approving access to reserve land, a first priority interest on all present and future personal property of the Borrower and first priority security on specific assets.

Principal repayments on long-term debt in each of the next five years, assuming long-term debt subject to refinancing is renewed, are estimated as follows:

	Principal
2021	9,026,060
2022	315,907
2023	328,152
2024	308,873
2025	1,104,598
	11,083,590

15. Trust distributions due to members

The Nation requires that distributions payable to each member who is alive, at least 19 years old, and a member as of the date of the Ratification vote. Distributions of \$25,000 can be in either installments or in one payment as may be determined by each adult member. Trust distributions due to members consist of the total funds held on behalf of the Band Members who have not yet collected their distribution or elected to receive it in installments. Based on the terms of the Trust, interest earned in this segregated account is accrued to members as it is earned. These funds are segregated in a separate investment account as described in Note 10.

16. ISC Treaty Land Entitlement debt

Doig River First Nation is negotiating a Treaty Land Entitlement (TLE) claim with the Government of Canada. ISC has made loans to assist the Nation fund these negotiations. Should a loan become due and payable while the claim is still in negotiation, the loan repayment date will be extended for five years or a period deemed appropriate to coincide with the anticipated claim settlement date.

There are twelve components to the loans:

TLE component one, with a balance of \$947,454, is repayable on the earlier of March 31, 2020 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component two, with a balance of \$383,039, is repayable on the earlier of March 31, 2022 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component three, with a balance of \$639,301, is repayable on the earlier of March 31, 2023 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component four, with a balance of \$691,331 is repayable on the earlier of March 31, 2019 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component five, with a balance of \$946,390 is repayable on the earlier of March 31, 2020 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component six, with a balance of \$1,089,201 is repayable on the earlier of March 31, 2021 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component seven, with a balance of \$250,885 is repayable on the earlier of March 31, 2022 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component eight, with a balance of \$362,056 is repayable on the earlier of March 31, 2023 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component nine, with a balance of \$151,032 is repayable on the earlier of March 31, 2019 or the date on which the claim is settled. The loan is interest free unless the First Nation defaults or the loans reach maturity.

TLE component ten, with an original balance of \$94,810 is repayable on the earlier of March 31, 2022 or the date on which the claim is settled. The loan is interest free unless the First Nation default or the loans reach maturity.

TLE component eleven, with a balance of \$115,608 is repayable on the earlier of March 31, 2023 or the date on which the claim is settled. The loan is interest free unless the First Nation default or the loans reach maturity.

TLE component twelve, with a balance of \$366,801 is repayable on the earlier of March 31, 2023 or the date on which the claim is settled. The loan is interest free unless the First Nation default or the loans reach maturity.

TLE component thirteen, with a balance of \$122,026 is repayable on the earlier of March 31, 2025 or the date on which the claim is settled. The loan is interest free unless the First Nation default or the loans reach maturity.

Doig River First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2020

17. Due to Doig S.E.D. Trust

	2020 \$	2019 \$
S.E.D. - Alamo Contracting L.P.	535,533	765,533
S.E.D. - Doig Loan	421,082	471,977
	956,615	1,237,510

The S.E.D. - Doig loan bears no interest and is payable as soon as the funds are available. Doig River First Nation made \$52,443 (2019 - \$48,140) in payments to Doig S.E.D. Trust.

The S.E.D. - Alamo Contracting Limited Partnership loan bears no interest so long as repayment plan is followed and is payable in monthly payments of \$5,000 (2019 - \$5,000). During the current year Alamo Contracting Limited Partnership made \$230,000 (2019 - \$36,000) in payments to Doig S.E.D. Trust.

18. Distributions due to minors from Community Development Trust

The Nation requires that distributions payable to minor Band Members be held by the Trust until the minor reaches the age of 19. Distributions due to minors consist of the total funds held on behalf of the minor Band Members. Based on the terms of the Trust, interest earned in this segregated account is accrued to minors as it is earned. These funds are segregated in a separate investment account as described in Note 10.

19. Reclamation liability

Under Provincial legislation, the Nation is required to reclaim certain land used for the extraction of aggregate material. Reclamation requirements have been defined in accordance with industry standards and include re-vegetation of sites upon closure. The County owns and operates aggregate extraction sites. The aggregate is intended to be sold. An amount of \$98,438 (2019 - \$98,438) has been accrued.

The reported liabilities are based on estimates and assumptions using the best information available at the end of the reporting period. Future events, such as changes to regulatory requirements, may result in significant changes to the estimated total liabilities and will be recognized prospectively, as a change in estimate, when applicable.

20. Contingencies

These consolidated financial statements are subject to review by the Nation's funding agents. It is possible that adjustments, that may include repayment of amounts funded, could be made based on the results of their reviews.

21. Financial Instruments

The First Nation as part of its operations carries a number of financial instruments. It is management's opinion that the First Nation is not exposed to significant interest, currency or credit risks arising from these financial instruments except as otherwise disclosed.

Risk Management Policy

The First Nation, as part of operations, has established, avoidance of undue concentrations of risk, and requirements for collateral to mitigate credit risk, as risk management objectives. In seeking to meet these objectives, the First Nation follows a risk management policy approved by Chief and Council.

Credit Risk

Credit risk is the risk of financial loss because a counter party to a financial instrument fails to discharge its contractual obligations.

Doig River First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2020

21. Financial Instruments *(Continued from previous page)*

Risk management

The First Nation manages its credit risk by providing allowances for potentially uncollectible accounts receivable.

A credit concentration exists relating to industry accounts receivable. Accounts receivable from BC Hydro represents 5 % (2019 - 13%) of total accounts receivable and accounts receivable from Province of BC represents 34% (2019 - 15%) of total accounts receivable. The balance of accounts receivable is widely distributed among the remainder of the First Nation's large customer bas

Foreign currency risk

The First Nation entered into transactions to buy and sell shares denominated in United States currency for which the related revenues, expenses, and investment balances are subject to exchange rate fluctuations. As at March 31, 2020, the following items are denominated in United States currency:

	2020	2019
	CAD\$	CAD\$
Portfolio Investments	521,481	588,326

Interest rate risk

Interest rate risk is the risk that the value of a financial instrument might be adversely affected by a change in the interest rates. Changes in market interest rates may have an effect on the future cash flow associated with some financial assets and liabilities, known as cash flow risk, and on the fair value of ether financial assets or liabilities known as price risk.

The Nation is exposed to interest rate cash and flow risk with respect to it's operating line of credit and certain long-term debt amounts, which are subject to floating interest rates. The Nation is exposed to interest rate price risk with respect to certain long-term debt amounts which bear interest at rates agreed upon at the time of issuance. The Nation is also exposed to interest rate price risk with respect to it's land claims assets which earn interest on investment at fixed annual rates.

Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or foreign currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The First Nation enters into transactions to purchase portfolio investments, for which the market price fluctuates.

Other price risk is measured using standard deviation, which measures a stock's volatility regardless of the cause. The First Nation manages its other price risk by utilizing investment managers and custodians to monitor the volatility of the portfolio investments held and manager the investments in accordance to the investment guidelines.

22. Significant event

During the year, there was a global outbreak of COVID-19 (coronavirus), which has had a significant impact on businesses and organizations through the restrictions put in place by the Canadian, provincial and municipal governments regarding travel, business operations and isolation/quarantine orders. At this time, it is unknown the extent of the impact the COVID-19 outbreak may have on the Nation as this will depend on future developments that are highly uncertain and that cannot be predicted with confidence.

These uncertainties arise from the inability to predict the ultimate geographic spread of the disease, and the duration of the outbreak, including the duration of travel restrictions, business closures or disruptions, and quarantine/isolation measures that are currently, or may be put, in place by Canada and other countries to fight the virus. While the extent of the impact is unknown, we anticipate this outbreak may cause reduced customer demand, supply chain disruptions, staff shortages, and increased government regulations, all of which may negatively impact the Nation's operations and financial condition.

23. Comparative figures

Certain comparative figures have been reclassified to conform with current year's presentation.
