Management's Responsibility

To the Members of Skwah First Nation:

The accompanying financial statements of Skwah First Nation are the responsibility of management and have been approved by the Chief and Council.

Management is responsible for the preparation and presentation of the accompanying financial statements, including responsibility for significant accounting judgments and estimates in accordance with Canadian public sector accounting standards. This responsibility includes selecting appropriate accounting principles and methods, and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and financial records are properly maintained to provide reliable information for the preparation of financial statements.

The Skwah First Nation Council is responsible for overseeing management in the performance of its financial reporting responsibilities, and for approving the financial statements. The Council fulfills these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with management and external auditors. The Council is also responsible for recommending the appointment of the Nation's external auditors.

MNP LLP is appointed by the Members to audit the financial statements and report directly to them; their report follows. The external auditors have full and free access to, and meet periodically and separately with, both the Council and management to discuss their audit findings.

Independent Auditors' Report

To the Members of Skwah First Nation:

We have audited the accompanying financial statements of Skwah First Nation, which comprise the statement of financial position as at March 31, 2017, and the statements of operations and accumulated surplus, change in net financial assets and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Skwah First Nation as at March 31, 2017 and the results of its operations, change in net financial assets and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Skwah First Nation
Notes to the Financial Statements
For the year ended March 31, 2017

1. Operations

Skwah First Nation (the "First Nation") is located in the province of British Columbia, and provides various services to its members. Skwah First Nation includes the Nation's government and all related entities that are accountable to the Nation and are either owned or controlled by the Nation.

2. Significant accounting policies

These financial statements are the representations of management, prepared in accordance with Canadian public sector accounting standards and include the following significant accounting policies:

Basis of presentation

Sources of financing and expenditures are recorded on the accrual basis of accounting. The accrual basis of accounting recognizes revenues as they become available and measurable; expenditures are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay.

Net financial assets

The First Nation's financial statements are presented so as to highlight net financial assets as the measurement of financial position. The net financial assets of the First Nation is determined by its financial assets less its liabilities. Net financial assets is comprised of two components: non-financial assets and accumulated surplus.

Asset classification

Assets are classified as either financial or non-financial. Financial assets are assets that could be used to discharge existing liabilities or finance future operations. Non-financial assets are acquired, constructed or developed assets that do not normally provide resources to discharge existing liabilities but are employed to deliver government services, may be consumed in normal operations and are not for resale in the normal course of operations. Non-financial assets include tangible capital assets and prepaid expenses.

Investments and Joint Ventures

The First Nation uses the modified equity method to account for its investments in various business partnerships, joint ventures, and corporations whereby the acquisition cost is increased by the First Nation's proportionate share of earnings.

Funds held in Ottawa Trust Fund

Funds held in trust on behalf of the First Nation's members by the Government of Canada in the Ottawa Trust Fund are reported on the statement of financial position with an offsetting amount in accumulated surplus. Trust funds consist of:

- Capital trust funds derived from non-renewable resource transactions on the sale of land or other First Nation tangible capital assets; and
- Revenue trust funds generated primarily through land leasing transactions or interest earned on deposits held in trust.

Skwah First Nation
Notes to the Financial Statements
For the year ended March 31, 2017

2. Significant accounting policies *(Continued from previous page)*

Revenue recognition

Government Transfers

The First Nation recognizes a government transfer as revenue when the transfer is authorized and all eligibility criteria, if any, have been met. A government transfer with stipulations giving rise to an obligation that meets the definition of a liability is recognized as a liability. In such circumstances, the First Nation recognizes revenue as the liability is settled. Transfers of non-depreciable assets are recognized in revenue when received or receivable.

Funds held in Ottawa Trust Fund

Due to measurement uncertainty, revenue related to the receipt of funds held in the Ottawa Trust Fund is recognized when it is received.

Joint venture revenue

Joint venture revenue is recognized as revenue when received or receivable based on the First Nation's allocation of the joint venture's annual performance as agreed to in the Joint Venture Agreement.

Partnership revenue

Partnership revenue is recognized as revenue when received or receivable based on the First Nation's proportion of the partnership's equity.

Other revenue

Other revenue is recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Tangible capital assets

Tangible capital assets are initially recorded at cost based on historical cost accounting records for all tangible capital assets.

Amortization

Amortization for tangible capital assets is provided using the straight-line method at rates intended to amortize the cost of the assets over their estimated useful lives:

	Rate
Buildings	40 years
Housing	40 years
Machinery and equipment	10 years
Roads	20 years
Water systems	50 years
Utility systems	50 years
Bridges	40 years
Computers and copiers	4 years
Office furniture	10 years
Vehicles	5 years
Land improvements	30 years

2. Significant accounting policies *(Continued from previous page)*

Measurement uncertainty

The preparation of financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period.

Accounts receivable, loans receivable and amounts due from related First Nation entities and departments, are stated after evaluation as to their collectibility and an appropriate allowance for doubtful accounts is provided where considered necessary. Amortization is based on the estimated useful lives of tangible capital assets.

Liabilities for contaminated sites are estimated based on the best information available regarding potentially contaminated sites for which the First Nation is responsible.

Long-lived assets and discontinued operations

Long-lived assets consist of tangible capital assets. Long-lived assets held for use are measured and amortized as described in the applicable accounting policies.

When the First Nation determines that a long-lived asset no longer has any long-term service potential to the First Nation, the excess of its net carrying amount over any residual value is recognized as an expense in the statement of operations. Write downs are not reversed.

Segments

The First Nation conducts its business through nine reportable segments as described in Note 13. These operating segments are established by senior management to facilitate the achievement of the First Nation's long-term objectives to aid in resource allocation decisions, and to assess operational performance.

For each reported segment, revenue and expenses represent both amounts that are directly attributable to the segment and amounts that are allocated on a reasonable basis.

The accounting policies used in these segments are consistent with those followed in the preparation of these financial statements.

Liability for contaminated site

A liability for remediation of a contaminated site is recognized at the best estimate of the amount required to remediate the contaminated site when contamination exceeding an environmental standard exists, the First Nation is either directly responsible or accepts responsibility, it is expected that future economic benefits will be given up, and a reasonable estimate of the amount is determinable. The best estimate of the liability includes all costs directly attributable to remediation activities and is reduced by expected net recoveries based on information available at March 31, 2017.

At each financial reporting date, the First Nation reviews the carrying amount of the liability. Any revisions required to the amount previously recognized is accounted for in the period revisions are made. The First Nation continues to recognize the liability until it is settled or otherwise extinguished. Disbursements made to settle the liability are deducted from the reported liability when they are made. As at March 31, 2017, management has determined no liability is required to be recorded.

Cash and cash equivalents

Cash and cash equivalents include balances with banks. Cash subject to restrictions that prevent its use for current purposes is included in restricted cash.

Skwah First Nation
Notes to the Financial Statements
For the year ended March 31, 2017

2. Significant accounting policies *(Continued from previous page)*

Future accounting policies

PS 2200 Related Party Disclosures

This accounting pronouncement is effective for the 2018 fiscal year and defines related party and established disclosures required for related party transactions. Management is assessing the impact of the adoption of these standards which is not known or reasonably estimable at this time.

PS 3210 Assets

This accounting pronouncement is effective for the 2018 fiscal year and provides guidance for applying the definitions of assets set out in PS 1000 Financial Statement Concepts and establishes general disclosure standards for assets.

Management is assessing the impact of the adoption of these standards which is not known or reasonably estimable at this time.

PS 3380 Contractual Rights

This accounting pronouncement is effective for the 2018 fiscal year and defines and establishes disclosure standards on contractual rights. Management is assessing the impact of the adoption of these standards which is not known or reasonably estimable at this time.

PS 3420 Inter-entity Transactions

This accounting pronouncement is effective for the 2018 fiscal year and established standard on how to account for and report transactions between public sector entities that comprise a government's reporting entity from both a provider and recipient perspective. Management is assessing the impact of the adoption of these standards which is not known or reasonably estimable at this time.

PS 3450 Financial Instruments

This accounting pronouncement establishes standards on how to account for and report all types of financial instruments including derivatives. Financial instruments include primary instruments and derivative instruments. It is effective for fiscal years beginning on or after April 1, 2019, with early adoption encouraged. Management is assessing the impact of the adoption of these standards which is not known or reasonably estimable at this time.

For the year ended March 31, 2017

12. Segments

The First Nation, receives revenue and incurs expenses from many different projects and sources. For management and reporting purposes, the revenue, expenses and surpluses or deficits are organized by segments. Schedules 3 - 11 disclose the First Nation's revenue and expenses in the following segments:

Administration

Includes general operations, support, and financial management of the First Nation.

Education

Includes revenue and expenses related to primary, secondary and post secondary education of the members of the First Nation.

Health

Includes activities related to provision of health services within the First Nation.

Housing

Includes rent collection and maintenance related to homes owned by the First Nation.

Social Development

Includes revenue and expenses relating to social assistance of the members of the First Nation.

Maintenance

Includes revenue and expenditures related to maintenance of community infrastructure.

Employment

Includes activities related to the growth and revenue producing projects with the First Nation.

Ottawa Trust Fund

Includes funds held in trust by the Government of Canada on behalf of the First Nation.

Capital Fund

Includes revenue and expenditures related to capital projects.
