To the Members of Mamalilikulla First Nation:

Opinion

We have audited the consolidated financial statements of Mamalilikulla First Nation (the "First Nation"), which comprise the consolidated statement of financial position as at March 31, 2025, the consolidated statements of operations and accumulated surplus, change in net financial assets, cash flows and schedules for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the First Nation as at March 31, 2025, and the results of its consolidated operations and its consolidated cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the First Nation in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the First Nation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the First Nation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the First Nation's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the First Nation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the First Nation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the First Nation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Mamalilikulla First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2025

1. Operations

The Mamalilikulla First Nation (the "First Nation") is located in the province of British Columbia, and provides various services to its members. Mamalilikulla First Nation includes the First Nation's members, government and all related entities that are accountable to the Nation and are either owned or controlled by the First Nation.

2. Significant accounting policies

These consolidated financial statements are the representations of management, prepared in accordance with Canadian public sector accounting standards and including the following significant accounting policies:

Reporting entity consolidated

Mamalilikulla First Nation business enterprises, owned or controlled by the First Nation's Chief and Council but not dependent on the First Nation for their continuing operations, are included in the consolidated financial statements using the modified equity method.

Mamalilikulla First Nation business partnerships, jointly owned and controlled by the First Nation's Chief and Council but not dependent on the First Nation for their continuing operations, are included in the consolidated financial statements using the modified equity method.

Under the modified equity method, the equity method of accounting is modified only to the extent that the business entity accounting principles are not adjusted to conform to those of the First Nation. Thus, the First Nation's investment in these entities is recorded at acquisition cost and is increased for the proportionate share of post acquisition earnings and decreased by post acquisition losses and distributions received. Entities accounted for by the modified equity basis include:

- Nanwakolas Offset Limited Partnership (26% ownership)
- Nanwakolas Timber Limited Partnership (21% ownership)
- Nanwakolas Business Corporation (17% ownership)
- Mamalilikulla Economic Development Corporation (Wholly owned)
- Mamalilikulla Economic Development Limited Partnership (Wholly owned)

Basis of presentation

Sources of revenue and expenses are recorded on the accrual basis of accounting. The accrual basis of accounting recognizes revenue as it becomes available and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay.

Cash and cash equivalents

Cash and cash equivalent include balances with banks and short-term investments with maturities of three months or less. Cash subject to restrictions that prevent its use for current purposes is included in restricted cash.

Tangible capital assets

Tangible capital assets are recorded at cost less accumulated amortization. Contributed tangible assets are recorded at their fair value at the date of contribution.

All intangible assets and items inherited by the right of the First Nation, such as reserve land, forests, water and mineral resources, are not recognized in the First Nation's consolidated financial statements.

Amortization

Tangible capital assets are amortized annually using the following methods at rates intended to amortize the cost of the assets over their estimated useful lives. Assets under construction are not amortized until completion. Land and artwork are not amortized as they have indefinite useful lives.

Mamalilikulla First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2025

2. Significant accounting policies *(Continued from previous page)*

Tangible capital assets *(Continued from previous page)*

	Method	Rate
Buildings	declining balance	5 %
Automotive equipment	declining balance	30 %
Equipment	declining balance	20 %
Boats	declining balance	15 %
Social Housing	declining balance	5 %
Docks	declining balance	5 %
Leasehold improvements	straight-line	5 years

Long-lived assets

Long-lived assets consist of tangible capital assets with finite useful lives. Long-lived assets held for use are measured and amortized as described in the applicable accounting policies.

The First Nation performs impairment testing on long-lived assets held for use whenever events or changes in circumstances indicate that the carrying amount of an asset, or group of assets, may not be recoverable. Impairment losses are recognized when asset's service potential is reduced. Impairment is measured as the amount by which the assets' carrying amount exceeds its fair value. Any impairment is included in surplus for the year. Prices for similar items are used to measure fair value of long-lived assets.

The First Nation does not perform impairment testing on its long-lived assets that are held for public administration and situated on its reserve land as it is not possible to determine their fair market value.

Asset Classification

Assets are classified as either financial or non-financial. Financial assets are assets that could be used to discharge existing liabilities or finance future operations. Non-financial assets are acquired, constructed or developed assets that do not normally provide resources to discharge existing liabilities but are employed to deliver government services, may be consumed in normal operations and are not for resale in the normal course of operations. Non-financial assets include tangible capital assets and prepaid expenses.

Net financial assets

The First Nation's consolidated financial statements are presented so as to highlight net financial assets as the measurement of financial position. The net financial assets of the First Nation is determined by its financial assets less its liabilities. Net financial assets combined with non-financial assets comprise a second indicator of financial position, accumulated annual surplus.

Liability for contaminated site

A liability for remediation of a contaminated site is recognized at the best estimate of the amount required to remediate the contaminated site when contamination exceeding an environmental standard exists, the First Nation is either directly responsible or accepts responsibility, it is expected that future economic benefits will be given up, and a reasonable estimate of the amount is determinable. The best estimate of the liability includes all costs directly attributable to remediation activities and is reduced by expected net recoveries based on information available at March 31, 2025.

At each financial reporting date, the First Nation reviews the carrying amount of the liability. Any revisions required to the amount previously recognized is accounted for in the period revisions are made. The First Nation continues to recognize the liability until it is settled or otherwise extinguished. Disbursements made to settle the liability are deducted from the reported liability when they are made. As at March 31, 2025, no liability for contaminated sites exists.

Mamalilikulla First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2025

2. Significant accounting policies *(Continued from previous page)*

Funds held in trust

Funds held in trust on behalf of First Nation members by the Government of Canada in the Ottawa Trust Fund are reported on the statement of financial position with an offsetting amount in accumulated surplus. Trust moneys consist of:

- Capital trust moneys derived from non-renewable resource transactions on the sale of land or other First Nation tangible capital assets; and
- Revenue trust moneys generated primarily through land leasing transactions or interest earned on deposits held in trust.

Revenue recognition

i) *Government Funding*

The First Nation recognizes a government transfer as revenue when the transfer is authorized and all eligibility criteria, if any, have been met. A government transfer with stipulations giving rise to an obligation that meets the definition of a liability is recognized as a liability. In such circumstances, the First Nation recognizes revenue as the liability is settled. Transfers of non-depreciable assets are recognized in revenue when received or receivable.

ii) *First Nation Capital and Revenue Trust Funds*

The First Nation recognizes revenue of the Capital and Revenue Trust Fund at the time funds are contributed from the accounts held in Ottawa. Interest revenue is recognized when earned.

iii) *Other revenue*

Revenue from transactions with performance obligations is recognized when the First Nation satisfies a performance obligation by providing the promised goods or services to a payor. The performance obligation is evaluated as being satisfied either over a period of time or at a point in time.

iv) *Investment income*

Investment income is recognized by the First Nation when investment income is earned.

Segments

The First Nation conducts its business through a number of reportable segments as described in Note 12. These operating segments are established by senior management to facilitate the achievement of the First Nation's long-term objectives, to aid in resource allocation decisions, and to assess operational performance.

For each reported segment, revenue and expenses represent both amounts that are directly attributable to the segment and amounts that are allocated on a reasonable basis.

The accounting policies used in these segments are consistent with those followed in the preparation of the consolidated financial statements.

Measurement uncertainty (Use of estimates)

The preparation of consolidated financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenditures during the reporting period.

Accounts receivable are stated after evaluation as to their collectibility and an appropriate allowance for doubtful accounts is provided where considered necessary. Amortization is based on the estimated useful lives of tangible capital assets.

These estimates are reviewed periodically and, as adjustments become necessary, they are reported in surplus in the periods in which they become known.

Mamalilikulla First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2025

2. Significant accounting policies *(Continued from previous page)*

Asset retirement obligation

A liability for an asset retirement obligation is recognized at the best estimate of the amount required to retire a tangible capital asset (or a component thereof) at the financial statement date when there is a legal obligation for the First Nation to incur retirement costs in relation to a tangible capital asset (or component thereof), the past transaction or event giving rise to the liability has occurred, it is expected that future economic benefits will be given up, and a reasonable estimate of the amount can be made. The best estimate of the liability includes all costs directly attributable to asset retirement activities, based on information available at March 31, 2025. The best estimate of an asset retirement obligation incorporates a present value technique, when the cash flows required to settle or otherwise extinguish an asset retirement obligation are expected to occur over extended future periods.

When a liability for an asset retirement obligation is initially recognized, a corresponding asset retirement cost is capitalized to the carrying amount of the related tangible capital asset (or component thereof). The asset retirement cost is amortized over the useful life of the related asset.

At each financial reporting date, the First Nation reviews the carrying amount of the liability. The First Nation recognizes period-to-period changes to the liability due to the passage of time as accretion expense. Changes to the liability arising from revisions to either the timing, the amount of the original estimate of undiscounted cash flows or the discount rate are recognized as an increase or decrease to the carrying amount of the related tangible capital asset.

The First Nation continues to recognize the liability until it is settled or otherwise extinguished. Disbursements made to settle the liability are deducted from the reported liability when they are made.

Financial instruments

The First Nation recognizes its financial instruments when the First Nation becomes party to the contractual provisions of the financial instrument. All financial instruments are initially recorded at their fair value.

At initial recognition, the First Nation may irrevocably elect to subsequently measure any financial instrument at fair value. The First Nation has not made such an election during the year.

The First Nation subsequently measures investments in equity instruments quoted in an active market and all derivative instruments, except those that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, at fair value. Fair value is determined by published price quotations. Transactions to purchase or sell these items are recorded on the trade date. Net gains and losses arising from changes in fair value are recognized in the consolidated statement of remeasurement gains and losses. The First Nation has not presented a consolidated statement of remeasurement gains and losses as it does not have any items giving rise to remeasurement gains (losses). Interest income is recognized in the consolidated statement of operation. Investments in equity instruments not quoted in an active market and derivatives that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, are subsequently measured at cost. With the exception of those instruments designated at fair value, all other financial assets and liabilities are subsequently measured at amortized cost using the effective interest rate method.

Transaction costs directly attributable to the origination, acquisition, issuance or assumption of financial instruments subsequently measured at fair value are immediately recognized in operating annual surplus. Conversely, transaction costs are added to the carrying amount for those financial instruments subsequently measured at cost or amortized cost.

All financial assets except derivatives are tested annually for impairment. Management considers whether the investee has experienced continued losses for a period of years, recent collection experience for the loan, such as a default or delinquency in interest or principal payments, in determining whether objective evidence of impairment exists. Any impairment, which is not considered temporary, is recorded in the consolidated statement of operations. Write-downs of financial assets measured at cost and/or amortized cost to reflect losses in value are not reversed for subsequent increases in value. Reversals of any net remeasurements of financial assets measured at fair value are reported in the statement of remeasurement gains and losses.

Notes to the Consolidated Financial Statements
For the year ended March 31, 2025

9. Deferred revenue

The following table represents changes in the deferred revenue balance attributable to each major category of external restrictions:

	<i>Balance, beginning of year</i>	<i>Contributions received</i>	<i>Amortization</i>	<i>Balance, end of year</i>
First Nations Health Authority	125,969	-	-	125,969
Province of British Columbia	20,412	99,470	20,412	99,470
Environment Funders Canada	81,254	-	81,254	-
Indigenous Services Canada	-	127,333	-	127,333
	227,635	226,803	101,666	352,772

10. Contingent liabilities

As at March 31, 2025, there existed outstanding claims against the First Nation. These claims have been referred to legal counsel. It is not possible to determine the First Nation's potential liability, if any, with respect to these matters.

11. Contribution to endowment fund

During the year, the First Nation made an irrevocable contribution to an endowment fund managed by Coast Funds of \$nil (2024 - \$75,000). This contribution was to match contributions from private funders made when Coast Funds was created in 2007.

The balance in the endowment fund at March 31, 2025 is \$1,185,165 (2024 - \$1,185,165), which consists of \$685,165 contributed by the First Nation, and \$500,000 contributed by private funders. This fund is not recorded as an asset of the First Nation. Coast Funds will disburse the income of the fund from time to time to the First Nation for eligible projects as defined in the funding approval policy of Coast Funds. Fees and expenses for administering the fund will be charged against income and will not exceed 1% of the aggregate funds comprising the fund at the start of each calendar year. No distributions were received from Coast Funds during the year.

12. Segments

The First Nation receives revenue and incurs expenses from many different projects and sources. For management and reporting purposes, the revenue, expenses and surplus or deficits are organized by the following segments:

Band Government:

Includes general operations, support, and financial management of the First Nation.

Economic Development:

Includes revenue and expenses related to the development of economic opportunities to members, as well as the activities related to the growth of revenue producing projects with the First Nation.

Housing:

Includes revenue and expenses related to band owned housing of the members of the First Nation.

Land & Resources:

Includes revenue and expenses from projects dealing with the land & resources of the First Nation.

Culture:

Includes revenue and expenses from various projects related to culture of the First Nation.

Mamalilikulla First Nation
Notes to the Consolidated Financial Statements
