NATOAGANEG FIRST NATION
MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING
MARCH 31, 2023

The accompanying consolidated financial statements of Natoaganeg First Nation are the responsibility of management and have been approved by Council.

The consolidated financial statements have been prepared by management in accordance with Canadian public sector accounting standards prescribed for governments as recommended by the Public Sector Accounting Board of the Chartered Professional Accountants of Canada and as such include amounts that are the best estimates and judgments of management.

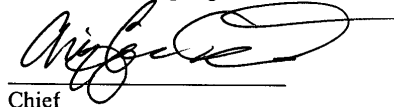

Management is responsible for the integrity and objectivity of these statements and for implementing and maintaining a system of internal controls to provide reasonable assurance that reliable financial information is produced.

The Council is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control and is ultimately responsible for reviewing and approving the consolidated financial statements.

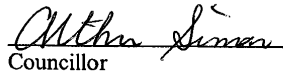

The Council meets periodically with management, as well as the external auditors, to discuss internal controls over the financial reporting process, auditing matters and financial reporting issues, to satisfy themselves that each party is properly discharging their responsibilities, and to review the consolidated financial statements and the external auditor's report.

Lenahan McCain & Associates, an independent firm of accountants, has been engaged to examine the consolidated financial statements in accordance with Canadian generally accepted auditing standards. Their report stating the scope of their examination and opinion on the consolidated financial statements, follows.

Independent Auditor's Report

To the Chief and Council and Members of
Natoaganeg First Nation

Opinion

We have audited the consolidated financial statements of Natoaganeg First Nation, which comprise the consolidated statement of financial position as at March 31, 2023, and the consolidated statements of operations and accumulated surplus, change in net debt and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the First Nation as at March 31, 2023, and the results of its consolidated operations, the changes in its consolidated net debt, and its consolidated cash flows for the year then ended in accordance with Canadian public sector accounting standards (PSAB).

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the First Nation in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the First Nation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting.

Those charged with governance are responsible for overseeing the First Nation's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Independent Auditor's Report, continued

- ♦ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the First Nation's internal control.
- ♦ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ♦ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the First Nation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the First Nation to cease to continue as a going concern.
- ♦ Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The accompanying notes are an integral part of the financial statements

NATOAGANEG FIRST NATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2023

1. Basis of Presentation and Significant Accounting Policies

These financial statements are prepared in accordance with Canadian public sector accounting standards for governments as recommended by the Public Sector Accounting Board of the Chartered Professional Accountants of Canada.

(a) Reporting entity principles of financial reporting

The consolidated financial statements of Natoaganeg First Nation reflect the assets, liabilities, revenues, expenditures, changes in net debt and accumulated surplus of the reporting entity. The reporting entity is comprised of the organizations accountable for the administration of their affairs and resources to the Chief and Council or controlled by band. Inter-fund and inter-corporate balances and transactions have been eliminated. The entities included in the consolidated financial statements are as follows:

1. Natuaqanek Commercial Fishery Cooperative Ltd.

(b) Cash and cash equivalents

Cash and cash equivalents include cash on hand, balances with banks net of bank overdrafts and term deposits having a maturity of one year or less at acquisition which are held for the purpose of meeting short-term cash commitments.

(c) Use of estimates

The preparation of financial statements in accordance with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. These estimates are reviewed periodically and are reported in earnings in the period in which they become known. Actual results could differ from those estimates.

(d) Financial instruments

The First Nation's financial instruments consist of cash, restricted cash, accounts receivable, bank indebtedness, accounts payable, deferred revenue and long-term debt. Unless otherwise noted it is management's opinion that the First Nation is not exposed to significant interest, currency or credit risks.

NATOAGANEG FIRST NATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2023

1. Basis of Presentation and Significant Accounting Policies, continued

(e) Principles of consolidation

All controlled entities are fully consolidated on a line-by-line basis except for Natuaqanek Commercial Fishery Cooperative Ltd. which meets the definition of a government business enterprise. This enterprise is included in the consolidated financial statements on a modified equity basis.

Consolidation Method

This method combines the accounts of distinct organizations. It requires uniform accounting policies for the organizations. Inter-organizational balances and transactions are eliminated under this method. This method reports the organizations as if they were one organization.

Modified Equity Method

This method is used for commercial enterprises which meet the definition of government business enterprises. Government business enterprises have the power to contract in their own name, have the financial and operating authority to carry on a business, sell goods and services to customers outside the First Nation as their principle activity, and that can, in the normal course of operations, maintain operations and meet liabilities from revenues received from outside the First Nation government. The modified equity method reports a commercial enterprise's net assets as an investment on the Consolidated Statement of Financial Position. The net income of the commercial enterprises is reported as equity earnings (loss) on the Consolidated Statement of Operations. Inter-organizational transactions and balances are not eliminated. All gains or losses arising from inter-organizational transactions between commercial enterprises or other First Nation organizations are eliminated. The accounting policies of commercial organizations are not adjusted to conform to those of the First Nation.

(f) Net debt

The First Nation's financial statements are presented so as to highlight net debt as the measurement of financial position. The net debt of the First Nation is determined by its liabilities less its financial assets. Net debt is comprised of two components, non-financial assets and accumulated surplus.

NATOAGANEG FIRST NATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2023

1. Basis of Presentation and Significant Accounting Policies, continued

(g) Tangible capital assets

Tangible capital assets (TCAs) are items that can be physically touched, are used to provide First Nation services, are used for First Nation administration purposes or are used for the construction and/or maintenance of other TCAs owned by the First Nation, will be useful for a period greater than one year and will be used by the First Nation on a regular basis.

Certain tangible capital assets, including but not limited to housing as well as roads and infrastructure, have been recorded at a nominal amount of \$1 as specific historical data was not available. Whereas all such assets are amortized over a period not longer than twenty five years, it is management's opinion that all assets acquired prior to 1998 would now be fully amortized.

Tangible capital assets are recorded at cost, which includes all amounts directly attributable to acquisition, construction, development or betterment of the asset, and are amortized on the straight-line (computers and water and sewer) or declining balance method over their estimated useful lives. Amortization begins in the year acquired. Current descriptions and applicable rates are as follows:

Land improvements	4 %
Community buildings	4 %
Vehicles	30 %
Paving	8 %
Furniture and equipment	20 %
Computers	2 years
Housing	5 %
Water and sewer	50 years
Fishing vessels	15 %

(h) Revenue recognition

Revenues are recognized in the period in which the transactions or events occurred that gave rise to the revenues. All revenues are recorded on an accrual basis, except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable.

Government transfers (both operating and capital) are recognized as revenues when the transfer is authorized and any eligibility criteria are met, except to the extent that transfer stipulations give rise to an obligation that meets the definition of a liability. Transfers are recognized as deferred revenue when transfer stipulations give rise to a liability. Transfer revenue is recognized in the statement of operations as the stipulation liabilities are settled.

Contributions from other sources are deferred when restrictions are placed on their use by the contributor, and are recognized as revenue when used for the specific purpose.

Revenue related to fees or services received in advance of the fee being earned or the service is performed is deferred and recognized when the fee is earned or service performed.

NATOAGANEG FIRST NATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2023

1. Basis of Presentation and Significant Accounting Policies, continued

(i) Expense recognition

Expenses are recorded on the accrual basis as they are incurred and measurable based on receipt of goods or services and obligation to pay.

(j) Asset classification

Assets are classified as either financial or non-financial. Financial assets are assets that could be used to discharge existing liabilities or finance future operations. Non-financial assets are acquired, constructed or developed assets that do not provide resources to discharge existing liabilities but are employed to deliver government services, may be consumed in normal operations and are not for resale. Non-financial assets include tangible capital assets, prepaid expenses and inventories of supplies.

(k) Segment disclosure

The financial statements of Natoaganeg First Nation provide supporting schedules which are established by program based on government funding provided. The various programs have been amalgamated for the purpose of presentation in the consolidated financial statements. Details of the operations of each program are set out in the supplementary schedules for management information purposes.

(l) Fishing licences

Fishing licenses are recorded at cost as intangible assets and are not amortized.

The First Nation evaluates the carrying value of its licenses and permits annually for impairment. Should a permanent impairment be identified, the impairment will be recognized as a reduction in the carrying value and as a charge against income on the statement of operations in the period the impairment occurred.

2. Restricted cash

The operating agreements with Canada Mortgage and Housing Corporation require the First Nation to accumulate reserve funds. These funds are restricted, and may only be used for purposes approved by Canada Mortgage and Housing Corporation.

	<hr/>
	\$ 18,811,902

10. Contingent Liabilities

Natoaganeg First Nation has entered into contribution agreements with various federal government departments. Funding received under these contribution agreements is subject to repayment if the First Nation fails to comply with the terms and conditions of the agreements. The likelihood of compliance reviews and any potential findings are not determinable as at the date on the auditor's report.

In the normal course of operations, the First Nation becomes involved in legal actions. Some of these potential liabilities may become actual liabilities when one or more future events occur or fail to occur. To the extent that the future event is likely to occur, and a reasonable estimate of the loss can be made, an estimated liability is accrued and an expense recorded on First Nation's financial statements. When the future event involves more uncertainty, the action or claim is considered a contingent liability.

12. Financial Instruments Risks and Uncertainties

The First Nation is exposed to the following risks in respect of certain of the financial instruments held:

Credit risk

The financial instruments that potentially subject the First Nation to a significant concentration of credit risk consist primarily of cash and accounts receivable.

The First Nation maintains cash balances with Canadian chartered banks which is insured by the Canada Deposit Insurance Corporation up to CDN \$100,000. From time to time, these balances exceed the federally insured limits and expose the First Nation to credit risk from concentration of cash. The First Nation limits this risk by transacting with reputable financial institutions.

The First Nation does have credit risk in accounts receivable of \$8,634,782 (2022 - \$4,576,464). Credit risk is the risk that one party to a transaction will fail to discharge an obligation and cause the other party to incur a financial loss. The First Nation reduces its exposure to credit risk by performing valuations on a regular basis and creating an allowance for bad debts when applicable. The First Nation derives substantially all of its revenues and therefore, accounts receivable, from government sources. In the opinion of management, the credit risk exposure to the First Nation is low.

Liquidity risk

The First Nation does have a liquidity risk in bank indebtedness and accounts payable and accrued liabilities of \$2,233,850 (2022 - \$902,766). Liquidity risk is the risk that the First Nation cannot repay its obligations when they become due to its creditors. The First Nation reduces its exposure to liquidity risk by ensuring that it documents when authorized payments become due: maintains an adequate line of credit to repay trade creditors and maintains a responsible cash position. In the opinion of management, the liquidity risk exposure to the First Nation is low.

Interest rate risk

The First Nation is exposed to interest rate risk. This risk exists due to interest rate exposure on its bank indebtedness and certain term loans, which are variable based on the bank's prime rates. This exposure may have an effect on its interest expenses in future periods. The First Nation reduces its exposure to interest rate risk by regularly monitoring published bank prime interest rates. There are some loans payable that are at fixed term rates and therefore, do not affect interest rate risk. The First Nation does not use derivative instruments to reduce its exposure to interest rate risk. In the opinion of management the interest rate risk exposure to the First Nation is low.
